WHAT DO WE WANT? Decrease In Prices? OR PRICE REDUCTION PROMOTIONS?

College Sportswear does not believe that Price Reduction Promotions at a small savings for a short period of time will do enough to ward off inflation or depression or bring many lasting savings to the consumer. We believe that prices must come down and stay down — so the customer can buy more goods — so we can buy more from the manufacturer—so he he can stay in production and hire more people.

CAN THE RETAILER ALONE BRING ABOUT A GENUINE DECREASE IN PRICES?

ACTUAL STORE RECORDS SHOW THAT WE AT COLLEGE SPORTSWEAR, ON AN OVERALL STORE BASIS, ARE SELLING MERCHANDISE AT MORE THAN A TEN PER CENT SAVING OVER OUR PRICES OF JAN. 1, 1947.

We are sure that our policy of aggressive reductions on slow moving stocks, better judgment and selectivity in buying, and shortened mark-ups, we will continue to pass these savings on to the public.

With the continued support of our customers and the cooperation of thousands of reliable retailers throughout the country, we will force manufacturers to realize once again that we are in business to give the customer what he wants at the price he wants to pay. Our loss in the meantime will be our investment in the future of free American enterprise.
