PRICE FIVE CENTS

Tickets Available To June 10 for **Artists' Series**

Students planning to attend the College's 1947-48 Artists' Series should get their orders for tickets in before June 10, according to Dr. Carl E. Marquardt, chairman of the Artists' Course committee.

Dr. Marquardt pointed out that if students indicate their support of the series by subscribing to it in the way previous courses would lead one to expect, the course could undoubtedly be continued after next fall, on a two-night basis. He added that the fact that the course next fall will be offered two nights practically doubles the cost of the series.

Seating Capacity Decreases

The seating capacity, however, will not be doubled, since the proposed changes to be made in Schwab Auditorium during the summer will lessen the seating capacity. pacity by approximately 150 seats, or 300 seats for the two nights. Instead of selling 1383 seats, as in previous seasons, the Artists' Course committee will thus have 2454 seats to sell.

Dr. Marquardt said that the advarie spring ticket sale is an attempt to give students and faculty first chance to obtain seats. If a sufficient number of seats are not sold this spring, Dr. Marquardt pointed out, the sale may have to be opened during the summer to outsiders who would like to at-/tend. Some seats will be saved for new students coming to the campus in the fall, but the Committee does not know as yet how many seats that will be.

Fall Ticket Sale

"For students who are returning next fall," said Dr. Marquardt, "it seems to be highly essential that they get their orders in before they leave, or at the latest by June 10. After that the chances for good seats will be greatly les-
