What to Expect

It takes every newcomer to Penn State a while to get acclimated. You'll probably be here for a few months before that "at home" feeling becomes a reality. With the current problems of expansion confronting the College it may be longer than usual before the new student is fully settled down to the way of life which prevails here.

Let's take a look at some of the things you can expect to tind here upon your arrival.

You it find that state buttege is a pleasant community, extremely clean in appearance, and located in an isolated but scenic sector of the Nittany Valley. You will be even more impressed by the peauty of the surrounding country if you plan a few side trips to places like Mt. Nittany and Hald Eagle

trips to places like Mi. Mittany and call east Mcuntain some Saturday atternoon.

For the most part you'll find the townspeeple a cordial, well equated group comprised mainity of your college pressors and the local merchants and their families. It is a group that leads as close to normal life as is possible when gurrounded by a student body of ever \$000.

You may be surprised to find that prices in Stat

You may be surprised to find that prices in State College, in some instances, are a good deal higher than in your home town. In other cases they will hover close to the level set for this section of the

1. you're wide awake and budget minded it won't take you long to determine which of the local merchants are taking advantage of the student. From time to time All-College Cabinet will release reports regarding local prices and the editorial pages of the Daily Collegian will endeaver to keep the students informed of the situation. However, the most effective mether, of comparing high prices is for the individual of combating high prices is for the individual to shop around and trade at only those establishments which treat you fairly.

Penn State has been an entertainment starved campus for some time. At present we have little to offer in the way of entertainment in leisure hours, However, an extensive athletic program, dances, stage productions, and various other campus functions will help take the place of the Student Union building we lack. During the summer months, College officials have acquired a temporary Union which is expected to be operating sometime around the first of the year. This will help some, but no one expects the problem to be solved until a permanent building is erected. In town there are three movie houses to choose from. We have a few beer joints here tou.

This incoming sophomore group is a different ype of newcomer to Penn State, While you'll probtype of newcomer to renn state, while you'll propably get lest as easily and often as the pre-war freshman, the routine of college life is not new to you. It won't be long before you will want to take part in campus activities. Already some of your group are with the football squad. At the beginning of the semester you will be invited to take part in the activities of various campus groups; you can the activities of various campus groups; you can

expect to be well received.

Details about what to expect of Penn State and what Penn State expects of you will be outlined during the orientation program,

—By Lawrence G. Foster

With the Editor

Welcome to the main campus, scphomores. You have all been Penn State sugents during your freshman year at the scattered undergraduate centers and teacher's colleges throughout the state. During that time you probably got to know me people in your respective institutions quite well—and you probably will want to stick together as the result of well established friendships.

But remember, you are all members of the Class of '50 of Penn State. You won't be graduating in the same groups that you spent your first year—you will be graduating as a class. Cliques and autonomous groups will not bring about the unity of Penn State spirit which only you can contribute.

Penn you make them, and that "better Penn State" which you will be hearing so much about can only be brought about by your united efforts.

And what can you do about it? Get to know as many of your fellow class members as you can without regard to so-called special inferests such as independents and fraternity groups. Make a point of looking at the name tags, and above all, don't forget the "hello" spirit.

Your student government is putting on a special program Thursday evening of Orientation Week in an effort to acquaint you with the numerous extra-curricular activities at the College. Choose the activities you are most interested in and ask all the questions you can think of.

Remember, education is not based entirely upon textbooks and classrooms. The best way to learn how to work with people are develop leadership qualities is to go out and work for the activity in which you are most interested.

One of the Finest

While on a summer tour of the United States we had the opportunity to visit some of the outstanding colleges in the country. For the most part they were brief visits but it gave us the opportunity to evaluate the attractiveness, landscaping,

and general appearance of the various campuses.

Among the schools we saw were Northwestern. Oklahoma University, Southern Methodist. University of Texas, University of New Mexico, UCLA. University of California, University of Southern California, University of

One Man's Meat We Miss the Dinks

By Men French

Another Orientation Week is about to beau put also, we arean dinks are till missing. There is be no "Button trouble agoing applying agent week no "Button trouble agent in the area till no Institute on Campils have been of Orientation Week this year will be applicated of Orientation Week this year will be applicated to the campus after about the incoming sociomores, we hid a nearly welcome to Bean State. We think you like it here sure that you get orientated to the campus and water sure that you'll excuse us if we shed a test for the absence of freshinan dualons, it seems like a lot of was a serious thing that struck fear into the heart of every bewildered fresh.

So that you may be aware of what you are missing, we will attempt to reconstruct freshinan customs.

ne Fresh Dating
Judicial set the women's customs and Tribunal
set the propodure for the freshman men but both
had several identical rules. All freshman were denied dating privileges during the first several
months, were required to attend all athletic events
and class meatings, and ware required to observe

months, were required to attemp all additive syells and class meatings, and ware required to observe certain dress customes.

The women were large green bows in their hair (green was the freshman color) and namegards with name and home town in large letters.

The men had it worse. They had to wear the traditional green dink, a black bow tip, white sacks and roll up their trousers to the kness. They also had a large namecard to wear around their necks. Freshmen were not permitted to shoke on campus except when using an unvarnished corn cob pipe. Matches and a copy of the Student Handbook were required possessions at all times.

Each Frosh was to know the location of all buildings on campus, the Alma Mater and other College songs, and what was playing at the local theaters. Only the side entrances to Sparks and Old Main could be used by the first year men.

Members of Tribunal and hat men struck fear into the freshmen hearts as these upperclassmen into the freshmen hearts as these upperclassmen into the freshmen hearts as these upperclassmen

Members of Tribunal and hat their struct lear into the freshmen hearts as these upperclassmen were responsible for enforcing the customs. A vio-lator would plead his case before the Tribunal Board and if he was declared guilty he would be sentenced to wearing a large sandwich sign describing his offense.

If the offender had been caught in the act of would be sentenced wearing a dress and makeup as well as his sign or maybe he was forced to wheel a baby buggy arcund campus. Other punishments were given out to fit

Customs would end around Christmas time with the traditional Frosh-Soph battle. Sometimes it was a tug-of-war, beating matches, or snowbell fight. If the Sophs won the customs were continued for an-other month while if the Front won, customs were ended then and there.

Freshman customs may have been childish, foolish or harsh but they did accomplish one thing that is lacking from campus now rechool spirit. This semester will be the proving ground. Can a grown-up Orientation Week program instill the spirit that provided in the days of sustances? prevailed in the days of oustoms?

Mevads. University of Utah, Colorade University, and Iowa State.

There are many factors which govern the attractiveness of a college campus which we did not consider in this informal survey. Disregarding location and available facilities, it is the opinion of this casual visitor that only one of these campuses, that of the University of Tayas, can begin to compare with the pleasant surroundings which prevail here at Penn State.

We are not making any attempt to impress the newcomers with the beauty of the campus. Your presence here will prove that fact to you. It is more important that you should be reminded that during your stay here you will all have equal opportunity to help seep this sampus "one of the finest." You can best do your part by keeping off the grass and making use of the resuse sontainers provided for the dispass of papers.

After all, its new your called "Life" —LGF
