Senate Committee Reminds Students About 50% Rule

The Senate Committee on Academic Standards warned students who may come under the 50 per cent rule or under school action involving dismissal for scholarship deficiency to transfer to a curriculum more suitable to their ability.

The student also was advised that if he has considered taking a psychometric test provided by the College, he should do so now, not after he has been dropped.

Reminder of Ruling

Along with this warning comes a reminder of action taken last May by the College Senate which restricts the reinstatements of students who have been dismissed by scholarship deficiencies.

A letter to faculty advisors states that "a petition for reinstatement by a student who has been dismissed for unsatisfactory scholarship shall be acted upon by the Committee on Academic Standards only upon the recommendation of the Dean of the School in which the student petitions to enroll.

Reinstatement Rare

"A student may be reinstated only in rare instances in which there is sufficient evidence of extenuating circumstances to justify such action in the opinion of the Committee. It should be emphasized that a change of attitude on the part of a student is not an extenuating circumstance."

Trustees Restrict Student Licenses To Ease Traffic

In an effort to alleviate the campus parking problem, the Board of Trustees of the College has prohibited further issuance of operating and parking permits to most undergraduate drivers.

Following the recommendation of a faculty and staff committee appointed by President Hetzel to study campus traffic regulations, the Board has restricted undergraduate students in the use of cars on campus as follows:

1. Driving on the central campus roads is prohibited during the hours from 8 a. m. to 5 p. m. Monday to Saturday noon, except physically handicapped students who are certified by the College Health Service may be granted special operating and parking permits.

2. Cars may be used by students for special class or laboratory work if arrangements are made with the office of the Campus Patrol by the faculty member in charge.

3. Student car operators, including commuters, may park only in West Parking area and a student parking area on East Campus to be designated.

Exchange Calls For Used Books

Jane Weigle, chairman of the Student Book Exchange, located in the east wing basement of Irvin Hall, is issuing a call for books on Lower Division subjects such as philosophy and economics.

Many books are still available, although stocks are smaller than usual because the exchange was not open at the end of the summer semester to collect books.

Sponsored by the All-College Cabinet, the exchange is entirely student operated, backed by neither college appropriations nor advisors.

Members of the Book Exchange committee are Jane Weigle, Joanne Hobbs, Eleanor Kelly, Jo Kelly, Ann Lantz, Frank Rugh and John Zora.
