Lions Use System For Numerals

In order that fans may more closely follow the Lions on the field, Collegian prints the following numbering system used on Penn State jerseys.

- Tens ... Wingbacks
Twenties ... Blocking Backs
Thirties ... Fullbacks
Forties ... Tailbacks
Fifties ... Centers
Sixties ... Guards
Seventies ... Tackles
Eighties ... Ends

Stars and Stripes
Pre-war stars with a year of postwar football behind them form the basis of the current Lion grid machine.

Our Worthy Scot

It's Season No. 22 coming up for veteran coach Bill Jeffrey, who came to Penn State on a trial basis in 1926 and stayed to produce one of the most amazing records in intercollegiate soccer. Over one stretch of 65 games, his teams went undefeated.

Lions Have Poundage

The Lions' 1947 football team packs plenty of weight. The starting line averages 203 pounds, while the backfield falls under 200 pounds only when 169-pound wally Triplett is stationed in the wingback spot. Johnny Nolan, co-captain and tackle, at 228 pounds is the heaviest man on the starting eleven.

"Dancing with a Deb" GREAT RECORD! \*

IT'S CAMELS WITH ME!

The platter that's causing plenty of chatter in juke circles is "Skitch" Henderson's latest instrumental—"Dancing With a Deb." Boy—what a record!

It's obvious "Skitch" has had plenty of experience in tickling those ivories, and he follows that experience rule in smoking too. "I smoked many different brands and compared," says "Skitch." "My choice from experience is Camel."

Try Camels. Compare. Let your own experience tell you why more people are smoking Camels than ever before!
