'Rugs" became the key ball-carrier on the 1944 and 1945 Scott terms. first as fullback and then as left half. Proof of his ability to lash out like a bullwhip into opposing lines was the fact that sports writers awarded him high all-star honors in both his junior and senior years. NOT ONLY STATE SOUGHT HIM

Choosing from such schools as Penn. Tennessee. Alabama, Pitt, Kentucky, William and Mary, North Carolina State, Penn State and others that displayed an interest in him, was not easy for "Rugs," whose family left the choice entirely to him. What probably influenced greatly his selecting Penn State was his recurring homesickness as he accepted invitations from several southern colleges to visit them during the summer of 1946.

His liking for State's college-town character led him to choose it over Pitt, a big city school.

Roaring Rogel's grid accomplishments last season at California State Teachers College could fill many columns. It is sufficient to note that he was an integral part of the California powerhouse that registered the college's first undefeated and untied football season, that, as a freshman, he won a third-team berth on the Associated Press Pennsylvania all-star squad, and, most important, that he was selected by the C.S.T.C. team itself as most valuable player.
