

### We the Women

By Marjorie Mousley

Everyone has pet peeves and we're no exception. Instead of just griping we decided to put them in print along with suggestions on how they can be remedied.

One of the peeves that makes our blood boil even in this freezing weather always happens between 10 and 11 o'clock at night. After hoarding those precious monthly 11 o'clocks, we have returned to the dorm to find the one and only lounge open at that time completely filled with people actually sitting on even the single chairs.

Three other lounges are empty according to orders from the high command. It doesn't take a Sherlock to solve this one. Very rarely are the other lounges used at all and certainly two lounges would be more than enough to take care of the coeds who want to study.

With cold weather keeping everyone indoors and with more eighth semester girls with regular 11 o'clock permission the problem will increase this semester. How about it, High Command? Let's have at least two lounges open for 11 o'clock dates.

While we're on the subject of lounges there's another little peeve involved. Sunday afternoons and weeknights often finds all four lounges being used by sororities or other groups for teas and such.

It is rather inconvenient to entertain visitors or parents while standing in the hall. One lounge should be open for the coeds who live in the dorm and are really entitled to priority on their use.
