

Give It A Chance!

The crux of the barber shop problem in State College seems to be that none of the barbers is willing to see if his business will fall off if he accepts Negro patronage.

The Daily Collegian and CORE earnestly believe that any one barber can even increase the volume of business in his shop at this time by opening his chairs to a non-discriminatory policy. Surely the plan at least deserves a trial.

"Why do you waste your time fighting for an issue that will benefit, at the most, only 20 or 30 students?" a barber asked yesterday. "And what assurance do I have that student support is behind this?"

The answer to the first question is as has been stated before. As long as one bit of discrimination exists in State College, certain citizens are denied rights to a public service only because the pigmentation of their skin differs from that of the majority. Other businesses in town have found that it is unnecessary.

Support of All-College Cabinet, influential campus and town groups behind the CORE program answers the other question emphatically.

It is not the desire of the backers of this CORE program to force the barbers into a situation that would injure their means of livelihood. All they ask is the chance to prove that discrimination does not exist among students and townspeople.

It is the duty of each person who believes that the program of non-discrimination can succeed, to stand up and be counted and tell his barber now!—BIF

My Twisted Tale

By Dave Adelman

A few days ago, last summer we think, a man dashed up to us as we were walking down an alley somewhere between Beaver and Water. That's as near as we can get to describing it because they couldn't seem to have a name. Anyway all the guys from the Althouse will know what we mean because they use it as a kind of short-cut to get on campus.

We say kind of because a scientific survey recently determined that .0136 seconds can be saved by using this short-cut. In other words it takes .0136 seconds longer if you don't use it. At any rate that's the alley we mean. This man (whaddya mean you don't remember any man) turned out to be Mr. Hoffman. He does something in the Registrar's office. Anyway Mr. Hoffman said to us, "See that sidewalk you're standing on?"

"That's not cement, you know?" "It isn't?" "It's concrete."

Upon hearing this we kicked it a few times and naturally discovered that it was concrete.

"Yes," said Mr. Hoffman, "concrete blocks. These were the first non-wooden sidewalks in State College. Years ago students used to tear up all the sidewalks in town after winning a football game. At first the townspeople themselves replaced them with other wooden sidewalks. After a while they complained to the College and the College replaced the wooden ones with these concrete things. This made the citizens happy, and the next thing you know some of them were tearing up the sidewalks themselves. Sometimes they didn't even wait for a football game."

We were reminded of this interesting bit of history recently

Editor's Mailcall

Letters to the Editor's Mail Call should be limited to 150 words so that contributors may be given space. The editor reserves the right to print in part all letters over that limit. Letters must be signed and the address and telephone number given. Names will be withheld from publication if requested.

A New Party Is Called

TO THE EDITOR: Many have been wondering if we were going to have a one-party system or if another party would be formed. I, too, have been wondering what was going to happen. In the more recent past, I have been asked by many students what I thought should have been done and what I was going to do personally.

I was of the opinion that my views in politics were over, but on a final analysis, I have come to the conclusion that if I could be of any help to Student Government, it was my responsibility.

A meeting was called for Sunday evening and it was decided that something had to be done. The first step was to organize a new party. Another meeting is to be held in 405 Old Main, 7 p.m. Sunday.

I have accepted the responsibility of temporary (and only temporary) chairman.

Now then, what can you do? Here is your opportunity to express your opinion and help to create a functional campus political party.

This is not to be a meeting of pressure groups or a special interest organization. It is to be one filled with the spirit of cooperation—for a Better Penn State. —Eugene M. Fulmer

Origin of Nittany

TO THE EDITOR: Enclosed is a clipping which appeared shortly before the Penn State-SMU game on the sports page of the Philadelphia Evening Bulletin and which I believe of interest to the readers:

Know where the name "Nittany" in Nittany Lions comes from? Actually in modern usage the Nittany Mountains near State College, but the original name was Nita-a-nee, a legendary Indian maiden whose romantic frustration caused her to leap from the peak of the mountain that her name now identifies. —Joyce F. Jacobson.
