

Put Up - Or Shut Up

Get the soap boxes out—the time is drawing near for budding campus politicos to begin electioneering.

While the great majority of students yawn and nod knowingly whenever the subject of student government is brought up, there are small groups of interested Penn Staters who are scouting for prospective leaders to run for office in this Spring's elections.

Fortunately, there will be no repetition of last year's elections when one group felt so strong it lost the fight to a fledgling group which went all-out to win. The new party gathered a fine group of candidates and then proceeded to noon. go from door to door while the party in power drank prematurely to victory it never achieved. The blow was too much and the old party went out of existence.

This year's elections will be a different story. Another new party has been formed by several campus bigwigs in the interest of making this election a good old-fashioned knock-down drag-out fight. Each party is trying to induce capable persons to come to its meetings.

Tomorrow evening both parties are having clique meetings which are open to all students. Since there are no primaries held before elections, the only way to be assured of good candidates is to go to the clique meetings where the candidates are chosen.

It is your own advantage to see the best candidate put up for the president of your class next year. Disinter—est on your part this Spring is no excuse for gripes next
