Mermaids Better Scores In Telegraphic Swim Finals

Bettering their scores in five out of nine events, the telegraphic swimming team completed the second and final meet in Eastern Regional and National competition.

One national telegraphic record was broken in Friday's meet, the 100-yard free style relay. Jackie Zivic, June Pallis, Marilyn Guillet, and Lee Ann Wagner comprised the team which cut last year's winning time of 55.3 seconds to an even 55 seconds.

In the 100-yard crawl, Zivic cut her first score of 1:09.7 to 1:08.5. Wagner and Guillet followed closely. The 100-yard back stroke found Yvonne Worrell bettering Mickey Barnett's first-place time in the last meet, cutting it from 1:35.8 to 1:24.25. Polly Globisch failed to equal her 29.8 in the 40-yard breast stroke. Anna Keller placed second and Louise Grossman third.

Zivic was able to reduce Worrell's time in the 75-yard individual medley relay from 57.55 to 57.35 with Globisch second in 59.5. In the 100-yard breast stroke, Globisch failed to improve her first meet score of 1:31.7, the time in the second meet being 1:32.7. The 40-yard crawl found Wagner placing first in 22.75, 7/10 of a second slower than in her first meet. Zivic was second in 23.2 and Guillet third with 24.1.

The 75-yard medley relay team composed of Worrell, Globisch, and Wagner was unable to better their first meet time of 48.05 taking 48.6 seconds in the second try. Barnett, Grossman and Zivic were second in 50.85.

What's back of that name for YOU?

Back of the name Western Electric are 130,000 men and women who help make your Bell Telephone service the world's best—at the lowest possible cost.

Where are they? What do they do?

They're in factories in 18 cities, making vast amounts of telephone equipment designed by their teammates at Bell Telephone Laboratories:

They're all over the map, buying all kinds of Bell System supplies from other manufacturers:

They're at 29 distributing houses, filling orders from Bell Telephone companies for apparatus and supplies.

More than 31,000 of them are in mobile crews installing intricate central office switchboards and equipment:

In doing this huge job—one of the most complex in industry—Western Electric people are contributing daily to the efficiency and economy of your Bell Telephone service:

HERBERT A. WITTMAN won \$1.00 with this letter

He says: "I have purchased several articles in your store and am completely satisfied with them. I think the service I received was excellent and the prices reasonable. Your line of clothing is also a very good one but I would like to offer a suggestion." Then he goes on to criticize in detail the physical setup in our store, our displays, and makes some very definite recommendations.

Herbert, I like your letter very much. You are complimentary (which always makes one feel good), you are critical, and you justify your criticism with very definite constructive suggestions. We knew when we read your letter that you are not only experienced in but possess a keen and broad conception of store operation, merchandising fundamentals and theories. Your recommendations would require too great a change to put into effect immediately, but we are making definite note for future reference and shall work to develop our store along the line you suggest. We are deeply indebted to you for your letter and hope we get many more like it.
