rank; and Roscoe R. Welch, professor of dairy husbandry extension, who joined the College staff in 1926.

Thomas S. Patterson, professor of engineering mechanics, will retire with emeritus rank on September 19 after 30 years on the faculty.

Retirement, effective August 31, also was approved for Clair W. Robinson, associate professor of geology and curator, Mineral Industries Museum. He has served on the faculty since 1916.

Promotions

Earl B. Stavely, professor of electrical engineering, was named assistant dean of the School of Engineering, replacing R. M. Gerhardt, effective July 1. He will also continue as a professor of electrical engineering.

Dr. Calvert C. Wright, professor and chief of the division of fuel technology, was named acting director of the Mineral Industries Experiment Station during the absence of Dr. Alfred W. Gauger, February 1 to July 31. Dr. Gauger is in South America.

William B. Shepperd, associate professor of electrical engineering at Oklahoma A. and M. College, was named associate professor of electrical engineering, effective February 1, while Robert J. E. Hemman, chairman of the electrical engineering department, Chicago Technical College, was named associate professor of engineering research in the Ordnance Research Laboratory, effective February 16.

The executive committee also approved four promotions. Doris A. Anders, home economics extension representative, was named assistant professor of home economics, replacing Lora Pinder, retired; Jean E. Craumer, assistant home economics extension representative, was promoted to home economics extension representative; Helen L. Kinsloe was promoted from assistant to instructor in bacteriology; and Benjamin L. Seem, instructor in corn-breeding, was promoted to manager of the Agricultural Experiment Station Foundation Seed Stocks.

Faculty Leaves

Sabbatical leaves were approved for Dr. F. F. Linsinger, vice-dean of the School of Agriculture and director of the Agricultural Experiment Station, for six months, beginning July 1, for travel and study; Joseph F. O'Brien, professor of public speaking, for the 1948-49 year, to work on a doctorate; Dr. Mason Long, professor of English literature, for the first semester, 1948-49, to write and travel; Arthur W. Clyde, professor of agricultural engineering, April 1 to September 30, to work in industry, testing his principles of design for farm machinery; and Nellie M. Stasukinas, home economics representative, July 1 to December 31, for travel in Scandinavian countries and to attend Swedish aircraft school.

Delegates Visit Model Convention

Members of the Intercollegiate Conference on Government will meet at 124 Sparks from 3 to 5 o'clock this afternoon to formulate final plans for their representation to the Model Political Convention to be held in Philadelphia this weekend.

The complete list of delegates to represent the College at the convention, will also be chosen at this time, according to Ray Britton, president of the organization. Charles Peet was recently elected head of the Committee on Foreign Affairs, and Joan Hester, clerk of the Committee on Governmental Organization to serve at the Convention.

Students from over 50 Pennsylvania colleges will be present at this annual Convention. They will discuss and approve what they think would be a good national platform. A chairman of the Convention will be chosen from among the representatives, and on the last day a non-partisan president and vice-president will be elected.

Bewildered Student's Sarcasm Backfires At Movie

George Schulz has not been in the United States very long.

He has been here long enough though to acquire definite tastes in American movies. Most of them he doesn't like.

Friday, a picture came to town that he was interested in seeing. He had read "Gentleman's Agreement" and now he wanted to see it on the screen.

Saturday evening found him buying his ticket at one of the State College theaters. He settled down, prepared to compare the movie with the book. It was not long before he found discrepancies. In fact he couldn't find anything in the movie that even reminded him of the book.

It was not until the picture was over that George realized what he had done. Without noticing it, he had gone into the wrong theater.

"And I was all ready to complain about the way Hollywood ruins a good book," he said.

Trustees Name Group To Select New President

James Milholland, president of the Board of Trustees, and acting president of the College, announced today the appointment of a special trustee committee to seek a successor to Dr. R. D. Hetzel, late president of the College.

Named to the Committee were: Kenzie S. Bagshaw, Hollidaysburg; George H. Deike, Pittsburgh; J. L. Mauthe, Youngstown; and Roger W. Rowland, New Castle. Mr. Milholland will serve as Chairman.

"This Committee will consider eligible candidates and then report its findings to the full Board of Trustees for final action by that body," Mr. Milholland stated today. No time limit has been set for submission of the Committee report.

"The Trustees are aware of the Commonwealth's growing need for the unique educational services of its Land-Grant College," the acting president said. "They are willing, therefore, to take as much time as is necessary to find

Students Mark Army Day; Present Equipment Display

Army Day will be observed today by students at the College by displays and demonstrations of Army equipment in the Armory from 9 a.m. to 5 p.m.

G. I. equipment and military demonstrations have been arranged for students by the College ROTC department. Exhibits of Army Air Force, Engineer Corps, Signal Corps, Ordnance Department and other ROTC activities equipment and training devices will be available for all interested students throughout the day.

The Engineer ROTC display includes a model of a typical timber trestle bridge, the basic engineer bridge, which is used for teaching purposes at the College. Map reading, terrain contour training models, aerial photog-

raphy reading and interpretation kits and mine detectors also will be available for inspection.

The exhibit of Army Air Forces equipment and training devices includes a Link Trainer which is used to develop proficiency of pilots' flight through simulated measures on the swivel-mounted trainer. Other training devices scheduled for exhibit are aircraft flight instruments and cutaway models to demonstrate the action of aviation equipment.

Various types of Army trucks now in use throughout the service will be demonstrated at the Ordnance department display. Other items of Ordnance equipment and weapons will be arranged in the Armory. The weapons display will feature the .45 calibre automatic pistol, mortars, machine guns, M1 Garand Rifle, the Thompson submachine gun and carbine. Details of motor vehicle operation and maintenance also will be demonstrated.

Signal Corps switchboard and other telephone equipment, tools used in telephone line repair work, field radios or "walkie talkies" will also be on display.

Let's Get together

PHILIP MORRIS is so much better to smoke!

PHILIP MORRIS offers the smoker an extra benefit found in no other cigarette. For PHILIP MORRIS is the ONE, the ONLY cigarette recognized by leading nose and throat specialists as definitely less irritating.

Remember: Less irritation means more smoking enjoyment for you.

Yes! If every smoker knew what PHILIP MORRIS smokers know, they'd all change to PHILIP MORRIS.
