

Faculty Briefs

Orvel A. Schmidt of Minocqua, Wis., has been appointed to the staff of the department of forestry at the College. Dr. Lyman E. Jackson, dean of the School of Agriculture, announced Thursday.

Schmidt, who is a graduate of the University of Michigan, will teach courses in logging, lumbering, and milling. He has had wide experience in industrial work and comes to Penn State from the Nekeosa-Edwards Paper Co., Port Edwards, Wisconsin.

Dr. Haskell B. Curry, professor of mathematics at the College, will address the Faculty Luncheon Club at the Hotel State College on Monday noon. His subject will be: "A Visit to The Netherlands."

Dr. Winona L. Morgan, professor of home economics at the College, addressed the Western district conference of the Pennsylvania State Education Association, home economics section, which was held in Indiana, Pa., last Friday. Dr. Morgan's topic was "New Emphasis in Human Relations."

Six faculty members of the history department at the College attended the 16th annual meeting of the Pennsylvania Historical Association in Erie on October 22 and 23.

They were Dr. Paul J. Selsam, Ira V. Brown, James E. Gillespie, William H. Gray, Philip S. Klein, and Dr. Wayland F. Dunaway, professor emeritus.

Dr. S. K. Stevens, a former member of the history department at the College, was elected president of the association for a three year term. Dr. Selsam was elected first vice-president and Prof. Klein was re-elected secretary.

French Film

French 4 and 5 students have been advised that only limited seating space is available for the showing of the French movie, "Les Miserables." The film, complete with English sub-titles will be shown in 305 Sparks at 9 a.m. Saturday.

Pollock Made One-Way Road

Vehicles, making deliveries to campus buildings, have been asked to discontinue parking on the south side of Pollock Road.

The request was made today by George W. Ebert, director of the department of the physical plant, in letters to local delivery agencies.

Ebert explained that "when one way traffic is established on Pollock Road, east bound between Burrowes and Shortlidge Road, on November 1, it will be impossible to permit vehicles to stop at any time on the south side of Pollock Road. Any parking on the south side will not only impede traffic, but in the case of construction trucks, will halt it completely."

Ebert also requested the Dean of Women to ask students living in Grange Memorial Dormitory and McAllister Hall to advise their parents and guests of the new regulations and request them to stop on the north side of the road.

The one-way traffic on Pollock Road, which becomes effective on Monday morning, will provide parking accommodations for about 100 cars. Bumper - to - bumper parking will be permitted along the north side of the street.

College Receives Research Grant

A grant of \$3,500 has been made to the College by the Research Corporation, New York, for continuation of research in the theory of distillation.

The project, started a year ago with a \$5,000 grant from the Research Corporation, is under the direction of Dr. Arthur Rose, associate professor of chemical engineering.

Dr. Rose has been working for the past 10 years on distillation research, studying the most efficient methods to distill various products.

MI School Holds Gem Display

A display of birthstones in natural crystal forms and finished gems is a feature of the current rotunda exhibit in the School of Mineral Industries at the College.

Introducing the exhibit is a summary of the history of the stones, dating back to ancient times, and

an explanation of the origin of popular belief regarding them. The legendary special virtues of the stones, connecting the mystic bond between the stones of the month and the person born in that month, will also be explained. The exhibition is in addition to the permanent gem exhibit in the main corridor of the building which contains approximately 600 gems and gem materials.

Bombs Away

Bombs will be falling fast and furiously over Bellefonte Airport at 1:30 p.m. Sunday, when the Penn State Flying Club has its spot-landing and bomb-dropping contest.

The public is invited, but warned to take cover when the bombs (paper bags filled with lime) start falling!
