Chinese War News Brightens As Nationalists Evade Red Trap

NANKING—The war news from China may soon take on a rosier outlook for the government. This is hinted, at least, in news dispatches from Nanking today. One report says a government force of 110,000 men has escaped from a Red trap and joined the defenders of Nanking about 100 miles from the capital.

Another story indicates that the Suchow garrison of 250,000 men is on the move again, after being bottled up by Red troops. Neither report is official. The skies have cleared in China and the Chinese Air Force is again striking at the enemy in steady attacks.

Spy Hearings

WASHINGTON—The House committee on un-American activities announced late yesterday that it has 12 more persons it wants to question in connection with spy activities in Washington. The committee questioned three persons at secret hearings yesterday.

Prof's Brother Gets Birthday Greetings From Psych Class

How polite can you get? That's what Professor Albert K. Kurtz might as well say about one of his applied psychology classes.

In the course of a recent lecture, Dr. Kurtz happened to mention that it was his brother's birthday. The polite class rose to the occasion and the strains of "Happy Birthday, Dear Brother" or filled the room.

It might be called a polite attempt to apply psychology.

Proceeds of the lecture will go toward the establishment of a Greek Catholic Orthodox Church in State College.
