Pranksters May Be Clue To Painting Theft

A new angle on the theft of the \$1000 oil painting, stolen from the second floor lounge of Old Main last Thursday, is now being considered by the campus patrol. The possibility that the painting was taken as a prank or as part of an initiation by a student here at the College was cited by Capt. Philip Mark yesterday.

Captain Mark said that if such was the case, whoever had taken it was probably frightened by discovering the high value of the painting. However, he emphasized that College authorities were more interested in recovering the painting than in prosecuting the culprit and suggested that it be placed in a manila envelope and returned to him.

The fact that the painting was not hanging in a prominent place, that it was the smallest of the pictures, and that it appeared to be rather insignificant has led the patrol to adopt their present viewpoint.

The original idea that the painting was stolen by an art expert has been discredited by the fact that its value was partially destroyed by slashing it from the frame. However, this angle has not been abandoned and art dealers throughout this and other states have been alerted to be on the lookout for the picture.

The portrait, by William Glackens, was of a woman fastening her glove and was particularly valuable for the color scheme used by the artist. A collection of his works was exhibited in New York recently and was favorably received. This fact also adds to the value of the painting.

Science Topic Of LA Lecture

Speaking on the challenge of science to the person, Dr. John M. Anderson, associate professor and acting head of the philosophy department, will deliver the second talk in the Liberal Arts lecture series, in 10 Sparks at 8 p. m. today.

His subject will be "The Human Spirit and the Challenge of Science," and he will present the problem of determining goals through science.

Dr. Anderson received his bachelor of arts and master of arts degrees at the University of Illinois and his doctor of philosophy degree at the University of California at Berkeley.

He joined the faculty at the (Continued on page four)

Outstanding Senior Men

George F. Bearer

(This is the first of a series of articles concerning prominent senior men who have proved themselves outstanding in one or more fields of activity at the College.)

By Myrna Tex

Once again plans for Spring Carnival are being put into effect and George F. Bearer, co-chairman of the Carnival, is busy with final preparations and announcements.

Bearer, who claims Pittsburgh as his home town, has been active in many College activities and has shown himself to be adept at not only one phase of service, but at several. He feels that being president of Alpha Tau Omega fraternity, and serving as co-chairman of the Faculty Talent Show and the Spring Week Carnival, have given him the most pleasure and experience of all.

"I enjoyed these positions most," Bearer said, "because they gave me a chance to organize a program and execute it. They also afforded me the opportunity of work-

Hillel Foundation Holds Mixer

Hillel Foundation members and Newman Club will join in a mixer at the Foundation, 133 W. Beaver avenue, 7:30 p. m. today. The mixer is being sponsored by the Newman Club.

Heading the arrangements are Joe Conzola and Corrine Engelsing. Music will be provided by "The Blue Notes," and refreshments will be served. Candlelight dancing and special entertainment will be provided until 10 p. m.

All members of Hillel Foundation and Newman Club are invited to attend the mixer. Admission is free.

Dr. Ludwig Audrieth

Audrieth Gives Second Lecture

The "solvent system" concept, the Bronsted-Lowry definition and the Lewis electronic theory of acids and bases were developed by Dr. Ludwig Audrieth, in his second Priestley lecture sponsored by Phi Lambda Upsilon, chemistry honorary, last night.

"The nitrogen system of compounds" will be his topic tonight in the third lecture of the series on "Acids, Bases and Non-Aqueous Systems" in 119 Osmond Lab at 7:30 p. m. Donald S. Cryder, head of the department of chemical engineering, will be chairman.

Last night's lecture was a continuation of Monday evening's narrative inaugural on "The historical development of the acid-base concept and its philosophical aspects."

Dr. Audrieth first traced the advances in the field since 1775, from Lavoisier's original oxygen theory and Davy's hydrogen hypothesis. Liebig refined the latter idea and reconciled conflicting opinions about the nature of acid by emphasizing the replaceable hydrogen atoms.

The Arrhenius concept emphasized (Continued on page four)

Novel Booths Highlight First Carnival Friday

The first carnival in the history of the College will get under way on South Allen street at 2 p. m. Friday with all the carnival trappings, entertainment booths, games, refreshments and the usual barkers.

Originally planned for Spring Week, the carnival was rained out on the morning it was to be held. All-College Cabinet, sponsors of the event, then set the Carnival date for this Friday.

Animal Parade Previews Show

Horse-drawn vehicles will appear on State College streets Friday evening, but only as a parade to call attention to the Little International, annual student livestock show to be held on campus Saturday. Show planners have scheduled the parade to leave the campus at 6 p. m. to give a preview of some of the animals to be shown in the annual show.

At the same time, the State College Chamber of Commerce windows are filled with the cups, trophies, merchandise and ribbons to be awarded winners of the show, Samuel Ranck, publicity chairman, announced.

For the parade four wagons will haul some of the animals fitted for the show. The first will be reserved for music, the next for hauling sheep, the third filled with swine and the fourth loaded with beef cattle. Donald Clapper, assistant show manager, will lead "Sir Jewel," the College's purebred Percheron stallion, which was showed once at the International Live Stock Show at Chicago.

This year's show which is open to the public will be the first to be an all-day event. Preliminary judging of the many fitting and showing classes will begin in the morning, while the main events will be staged in the Ag Hill pavilion, starting at 1 p. m. James Work, show manager, said more than 80 head of swine, sheep, beef cattle and draught horses are being fitted for the events.

Good Weather

"The weather should be good Friday. However, in case of rain, we will have the carnival the same hours on Saturday," according to George Bearer, co-chairman of the celebration along with Abram Bosler. He added, "If it rains Saturday, we'll throw in the sponge. That will be the end."

Though the carnival is being put on by student organizations, everyone is welcome to come, townspeople, students, faculty and out-of-town visitors.

Hot dogs and cokes will be sold at the Carnival grounds. There will also be musical entertainment.

Organizations

"Organizations are reminded that they should start setting up their booths about 8 a. m. Friday morning," Bearer said, "in order that they will be ready to open at 2 p. m." Overhead lights for the carnival area are being loaned by the Alpha Fire Company and the necessary electricity will be provided by the West Penn Power Company.

"Since this is the first time a carnival has been tried here, the committee is especially anxious to make it a success and insure its becoming an annual event," said committee chairman Bearer and Bosler. They added, "The success of the carnival will depend on the cooperation of all the students and groups participating."

Cabinet Honors Senior Leaders

At a special meeting of All-College Cabinet last night, 59 seniors were unanimously approved for awards as outstanding members of the graduating class. Certificates of Merit will be presented to the seniors selected.

Terry Ruhman, senior class president, headed the committee for the selection of those to be honored, and was assisted by Lois Heyd, Janet Lyons, Donald Little, and Lewis Stone. Miss Lyons made the announcement to cabinet in the absence of Ruhman.

Men

Men to receive certificates will be David Barron, George Bearer, John Bengilan, William Bonsall, Abram Bosler, Harold Brown, Philip Cease, George Chapman, Joseph Colone, Daniel Cottone, Richard Curto.

James Dunaway, David Eldridge, John English, John Fast, Richard Hill, Dennis Hoggard, Vance Klepper, William Lawless, Donald Little, John Lowery, William McLain, Richard Morgan, Steve Perialas, Terry Ruhlman, Robert Sankey, George Schautz, Richard Schlegel, Elliot Shapiro, Norman Sims, Fritz Sipple, Milton Stone, Lewis Stone, John Tiley, Edmund Walacavage, Malcolm White, Thomas Yemm.

Women

Women picked include: Nancy Ault, Susan Bisse, Helen Dickerson, Jane Fouracre, Jo Fox, Betty Gibbons, Marjorie Gorham, Carol Hecht, Lois Heyd, Joanne Hobbs, Jean Hotman, Frances Keeney, Patricia Kinkead, Claire Lee, Janet Lyons, Jean Moore, Lorraine Munz, Nancy Parent, Lois Resler, Frances Welker, Patricia Wood, Selma Zasofsky.

IRC

The International Relations Club will discuss the Chinese situation at a business meeting in the north lounge of Women's Building at 7:30 p. m., today.

Skull and Bones, Parmi Nous Initiate 71 Activities Men

Two hat societies, Skull and Bones and Parmi Nous, will formally initiate 71 outstanding activities men at a joint banquet in the State College Hotel, 5 p. m. Sunday.

Parmi Nous, junior-senior men's hat society, tapped 24 men, and Skull and Bones tapped 47 men Monday, announced respective presidents Joseph Colone and John Krusen.

Parmi Nous

Parmi Nous tappers are Charles Beatty, Edward Belfield, John Bolger, Carmen Cialella, Gordon Drane, Stuart Dunlop, William

Fairchok, Calvin Folsbee, John Hagerman, Vane Lee Henry, Edwin Hoffman, Ralph Lewis and William Luther.

Ralph Mayle, Harry McCarty, Joseph Mireni, Donald Murray, Joseph Sarabok, Paul Q Smith, Eugene Solomon, John Storer, George Thomas, Richard Wertz and James Worley also have been tapped by the society.

Skull and Bones

Men tapped by Skull and Bones are T. Clayton Allen, Robert Anderson, Frederick Auch, Joel Bachman, James Balog, Herbert Beckhard, William Bickford, Karl Borish, Raymond Brooks, Leo Burns, Bernard Carbeau, Raymond Caton, Leo Curto, Gordon Davis, James Dunaway, David Eldridge, Mackey Emmert, Robert Gabriel, Arni Gerton, and Dean Harrison.

Others tapped were Dennis Hoggard, Robert Keller, Dean Kissell, Walter Kmak, Elliot Krane, Wilbert Lancaster, Donald Little, Wendell Lomady, James MacCallom, Harry MacMahon, Charles Margolf, William McLain, Roger Nestor, and William Prosser.

Jack Reen, Joseph Reinheimer, William Renshaw, Wilbert Roth, Ramon Saul, Donald Seipt, John Senior, William Shade, Norman Sims, Morton Snitzer, Wallace Triplett, George Vadasz, and Marlin Weaver will also be initiated.

Blue Key Taps 27 Men

Twenty-seven men were tapped by Blue Key, junior men's activities honorary, in an informal ceremony on the steps of Old Main on Monday morning.

Included in the list of tappers are Richard Heisler, Pelton Wheeler and Joseph Courtney, boxing; Werner Goldschmidt, Frederick Phillips and Jacob Schwab, basketball; Harry Kondourajan and Rudolph Valentino, general activities.

Jack Grossman and Howard Janowitz, cross country; Robert Fast, Robert Sharetts and John Wetzel, gymnastics; Donald Love, and Ted Williams, fencing; George Avery, Peter Graff and Donald Preate, football; Robert Free, Robert Habina and Neil See, soccer; William Gordon, Walter Vilsmeier and Henry Schoenfeld, swimming; and Herbert Axford, Robert Busch and Frank McKean, wrestling.

Formal initiation has been scheduled for next Wednesday, according to William Shade, society president.
