J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

NO cock-of-the-walk was poor, sad, seedy Sheedy when he found loose dandruff on his comb. Now that he's a Wildrooter, he has something to crow about and so will you. Wildroot Cream-Oil gives you neat, well-groomed hair all day long without a trace of oil or grease. Makes it easy to keep that favorite chick in your coupe forever! It relieves annoying dryness and removes so much loose, ugly dandruff that you really have to scratch to find it! Peck on down to your favorite drug counter and bring back a hen full of non-alcoholic Wildroot Cream-Oil containing Lanolin. Always ask your barber for a professional application! And set on this thought—Wildroot Cream-Oil is again and again the choice of men who put good grooming first.
