

Leonard Directs Business Research

Dr. William N. Leonard, who was named professor and head of the department of economics on Sept. 1, has been appointed director of the Bureau of Business Research at the College.

The Executive Committee of the Board of Trustees also approved the appointment of Dr. George L. Leiffler, professor of economics, as assistant director of the Bureau

Dr. Leonard succeeds Dr. Carl W. Hasek, who retired with emeritus rank on July 6, and who organized the Bureau eight years ago.

The Trustees also approved ten other appointments. They are Dr. David W. Russell, professor of education and head of professional field service in the School of Education; Arthur M. Wellington, professor of education and psychology.

Dr. Laurence LeSage, associate professor of romance languages; Robert M. Knoebel, associate professor of industrial education; Dr. Martin Lessen, associate professor of aeronautical engineering and engineering mechanics; Donald S. Pearson, associate professor of electrical engineering.

Gerhard E. Ehmann, associate professor of geology; Dr. Jessie McVey Rossman, associate professor of home economics; and Dr. Margaret O. Harris Zook, associate professor of clothing and textiles, part-time.

The Board of Trustees has also established the rank of post-doctoral fellow. James Milholland, acting president of the College, explained the rank would be reserved "for scholars who had received the doctorate and who would be appointed in teaching and research for one year and might be reappointed a second year."

12 Men Occupy Warnock Home

The old residence of former Dean of Men, Arthur R. Warnock, is now being occupied by male students, according to Russell Clark, Director of Housing at the College. This is only a temporary arrangement, he added.

Friday, 12 students from Tri-Dorms moved into the home, located below Pollock road, west of Grange Hall and the Temporary Building. Dean Warnock had occupied the residence from 1919 until August of this year, following his retirement.

The students were moved due to the elimination of six double rooms in Watts Hall. Workers began the construction of a new building adjacent to the dormitory. This operation was planned for the end of the first semester in February, but the contractors, being ahead of schedule, decided to begin work immediately.

The old Warnock residence was used earlier in the semester to temporarily house freshman coeds.

Judging Award

The highest rank ever held by a Penn State student in inter-collegiate livestock judging was awarded to H. Sprague Wingard this week when he placed third in competition at Kansas City, Mo.

Wingard placed second in swine judging, and fourth in horse judging.

3700 Freshmen Raise College Total to 14,732

A freshman class of 3730 students enrolled this semester at Penn State's various extension points throughout the state, Dean of Admission R. M. Gerhardt reported today.

Breaking the College record, 2769 men and 961 women bring the grand total registration for first semester to 14,732. 1687 students go to the seven Penn State centers; Altoona, DuBois, Harrisburg, Hazelton, Pottsville, Swarthmore, and Behrend near Erie.

The class at Mont Alto, including forestry students and students enrolled under the NROTC program, totals 169; the College Center has 74 men. A total of 531 freshmen are attending classes on campus.

Thirteen State Teachers Colleges claiming another 1050, are located at Bloomsburg, California, Cheney, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Lock Haven, Mansfield, Millersville, Shippensburg and Slippery Rock.

Another 229 freshman enrolled at Gannon, Keystone, Lycoming, St. Francis, and York Junior College.

In addition to these 3199 first semester students off-campus, 554 second and fourth semester students are at off-campus centers.

Centers Slate Artists' Series

Four outstanding artists' concerts will be presented to the freshmen at the College centers this year.

The first of these will be the Holbrooks acting out scenes in the lives of great theater characters.

The Crawford-Namora Trio will present a program of exotic songs and dances.

Art Hodes, who entertained College students in 1946, will again perform in the style that makes him one of America's top jazz pianists.

The last concert will be an opera repertory group in selections from famous Broadway comic operas.

Phi Sigma Sigma recently initiated Ruth Abbey, Marjorie Alsberg and Jean Shtasel.

Averages Take Upward Swing in All Groups

Scholastic averages at the College are on the upgrade according to a list of fraternity and group averages recently released by the office of the dean of admissions for the fall and spring semesters of last year.

The averages for all main groups on the campus increased from .06 to .10 during the spring semester as compared with averages from the fall semester.

The all-college average increased from 1.35 for the fall semester to 1.44 in the spring semester. The highest group averages on the campus went to a sorority, Beta Sigma Omicron, who held the honors both semesters, and upped their average from 2.11 to 2.17 during the second semester.

Independent men made the greatest increase, .10, by jumping from 1.28 to 1.38; while the one decrease, registered by Alpha Zeta, the top fraternity was from 2.06 to 1.95. Independent women independent women increased their average from 1.51 to 1.57.

Other groups showing increases were all-college men, 1.31 to 1.40; all-college women, 1.57 to 1.63; fraternity men, 1.40 to 1.46; fraternity women, 1.69 to 1.76; and all fraternity, 1.47 to 1.53.

Women dominated the men academically in all comparisons. A sorority took highest honors; and fraternity women, all-college women, and non-fraternity women topped the same respective men's groups. Also fraternity men and women ranked higher than non-fraternity men and women.

Conservation Program Urged

College officials yesterday asked student and staff cooperation in the conservation of heat and electricity and of water, which is pumped by electricity.

It was pointed out that coal has not been received at the College power plant since the coal strike began more than a month ago.

The power plant now is using coal reserves stored during the late summer for winter use, Geo. W. Ebert, director of the physical plant, explained. He estimated that the reserve on hand would not last more than six weeks.

Suggestions for saving electricity include reducing the number of lights in use in corridors and rest rooms. Lights not in use should be turned off.

Heat can be conserved by closing windows at night. Steam in buildings will be turned off at 5 p.m. each day.

The cooperation of the 4,500 students living on campus can result in a great saving of coal, Mr. Ebert said. Deans and other administrative officers have been requested to enlist the cooperation of their staff members in the conservation program.

Students Vote--

(Continued from page one)
Lamaster, and Harriett Strickler. Sophomore women — Eugenie Deger, Mary Lou Transue, and Nancy Jane Worthington.

Engineering

One man will be elected in each of the six departments of the School of Engineering, for which voting will be held in the main lobby of the Main/Engineering building. Candidates are:

Aeronautical engineering—John Frantz and Eugene Griffin. Industrial engineering—Milton Bernstein and Karl A. Miller. Mechanical engineering—Melvin Bickel, Frank Cressman, and William Hewton.

Electrical engineering—Richard Gordman, R. J. Phillips, Raymond E. Markle, David K. Mitchler, and David M. Smith.

Architectural engineering—Gifford Albright and John M. Godusick.

Civil engineering — Samuel George and Lawrence Schniepp.

Home Economics

In Home Economics, one freshman and one sophomore will be elected. Balloting will be conducted in the main lobby of the Home Economics building for the following candidates:

Freshmen—Joanne Conner, Sylvia Powers, and Betty Jane Rex. Sophomores—Donald Biles, Edward Davis, Earl Dufenhorst, Vivian Hartenbach, Pat Robinson, and John Scott.

Mineral Industries

Mineral Industries students will elect one senior and four sophomores. Candidates in voting in the main lobby of the Mineral Industries building will be:

Seniors—A. M. Arey, L. Carewell, R. Cooper, J. Cox, W. Haney, R. Menzie, F. Schnars, J. Shakley, C. Whitlow, and J. Woy.

Sophomores—F. R. Johnson, M. Rehburg, Ed Ricci, D. Rothenberger, J. Ruffner, Samuel Sanders, F. Schane, R. Smith, W. Warncke.

Chem-Phys

Two students in chemical engineering, one in pre-medical and one in sciences will be elected to the Chemistry and Physics council in voting in the main lobby of Os-

mond laboratory. The candidates: Chemical engineering — Charles Amend, Philip Armstrong, Charles Brewer, Eugene Chylak, Bryson Craine, Thomas Douglass, Jack Eisenman, David Fix, Donald Furlong, Jack Haines, Norman Hartsock, W. E. Hockersmith, Charles King, Robert Luckesavage, Morris Manning, Thomas Rodriguez, John Schnering, Thomas Swan, Jesse S. Tarleton, Philip J. Vandergriff and Edward Walden. Pre-medical — David Bronstein, George Kline, James Miller, and Joseph M. Skutches. Science—Cosmo Fazio and Mary Jo McCoy.
