

# Your PSCA Contribution

*Serves Students Individually  
Promotes a Better Penn State*

We, the undersigned, heartily support the program of the PENN STATE CHRISTIAN ASSOCIATION, and urge all students and faculty members to contribute liberally in this concerted drive to raise funds to finance the program

The Penn State Christian Association has been closely associated with the Dean of Men's Office for many years. Its functions, services and specific programs help to implement the total objective of this College. Its effective programs have been available to students of Windcrest, Campus Dormitories and various town areas. This Association has a definite place on the Penn State Campus and has been a contributing factor in aiding with social, religious and moral problems of student groups and individuals.

May I personally ask that you support its financial drive so that in turn it may be in a position to support you?  
—D. A. DeMarino

The Penn State Christian Association needs no introduction except to new people on the campus. It has been an important student and faculty activity for a long time and will continue to be a vital factor in campus life. Because of this I know everyone who can will support it in every way, including the provision of the much needed funds to carry on its work. I hope this support will not only be enough to continue the present program, but will make possible growth and development.

—James Millholland  
Acting President

The Penn State Christian Association is a vital force working for the realization of "The life more abundant" on this campus. Through its varied, worthwhile, and interesting activities and projects, the needs of many students are met. It is a privilege to endorse the Penn State Christian Association Financial Campaign since it creates the funds whereby the C. A. program is made possible.

—Pearl O. Weston

I want to encourage the entire student body to contribute as much as possible to this annual Penn State Christian Association Fund Drive. Through out the years the P.S.C.A. has made tremendous contributions to All-College activities. With the extra large student body its naturally necessary to increase the scope of the organizations' program. This necessitates a larger fund quota than ever before attained; but I'm sure you, students and faculty alike, will give your most sincere support in making this a very successful year for OUR Christian Association.

—Ted Allen
