been set up by WSGA for this year.

The State proposal on recreation and social facilities for dormitory men now reads: "To attempt to have better recreation facilities for men in the dormitories." A section on a centralized location for athletic equipment was thrown out because it already has been established.

On the basis that it was beyond the power of student government, the State plank urging that independent men now living in dorms be the first to get rooms in the new dorms was dropped.

Also thrown out was a plank on better registration procedures. Shade said yesterday that students now register in 15 minutes and that surveys show this is the fastest speed at which registration can be accomplished.
