

Dorms ---

(Continued from page two)

pus freshman women this year heralding the return of greater frosh numbers.

Counseling Planned

Tied up with the College's policy of assigning part of the new dorm space to freshmen will be an extensive freshman counseling service now being planned. Present construction plans call for a suite for one counselor on each floor of each dorm unit. A typical counselor's suite will consist of living accommodations and a room for meeting with individuals and small groups.

According to Kenworthy, purpose of the Trustees' decision to place freshmen men in one group in the west dorm area is to "furnish satisfactory living conditions to they will get started in schol-

astic work in good shape, and be taught good academic and social habits through a comprehensive counseling system."

He indicated that a tremendous problem faces the administration selecting and adding a number of members to the faculty to teach the on-campus frosh next fall.
