

# Radar Added to Secret Russian Shipments

## Former Major Causes Action In Congress

### House Committee Hears Former A-Bomb Head

WASHINGTON — Former air force Major George Racey Jordan added radar to his list of secret material which he has charged went to Russia during the war. The Russians managed to get a plane with radar equipment to their country, he said yesterday, after he had barked them by tearing radar out of four other planes.

Jordan created a furore and started a congressional inquiry in a broadcast last week when he told of atomic shipments to Russia. Today the House Committee on Un-American Activities will hear retired General Leslie Groves, the man who ran the atom bomb project.

### Consul Leaves China

MUKDEN, China—Consul General Angus Ward and his staff left communist-held Mukden by train yesterday for Tientsin, a north China sea port. From there the entire party will be taken to pan.

### Atomic Workers Strike

OAK RIDGE—Nearly 2000 construction workers in atomic energy projects are now out on strike. The atomic energy commission has sought Federal aid to end the walkout which started two days ago.

## Information Available On Fellowship Project

Students at the College will have a chance tomorrow to obtain information concerning participation in the summer project of the Lisle Fellowships next year.

Those who receive this fellowship participate in a project to be held this year in New York and Colorado, set up to give laboratory experience in human relations and adult living.

### Moser

Students interested in the program can speak with Miss Marjory Moser, traveling representative of Lisle Fellowships, who will be at the Penn State Christian Association offices, 304 Old Main, tomorrow afternoon.

She also will be present at the PSCA roundtable meeting tomorrow evening at 7:30. Persons interested may either go in person to the PSCA office or telephone to apply for a fellowship.

The fellowships were established in 1936 to promote better interfaith and intercollegiate understanding and relations. About 50 students will represent some 20 colleges in this year's summer program, which will continue for six weeks. Basis for selection is the "sincere desire" to participate; the program is open to any student.

### Elaborate Plan

Miss Moser will elaborate on the plan of the project at the roundtable meeting. Rev. Edwerth Korte, pastor to Lutheran students on campus, will be guest speaker and will discuss "The Meaning of Christmas."

Purpose of the fellowships is to give students who participate a way to work out common problems in human relations and to

prepare them for leadership in a world community. Each unit offers cooperative group living, academic credit, guest leaders, personal, and group integration, and skills for developing group and community living. All expenses are paid by the Lisle fund set up for the fellowships.

### Student Directories

The supply of student directories, which was exhausted yesterday during the first day on sale, will be replenished within the next day or so with the receipt of 800 additional copies now enroute from the printer.

Upon arrival the entire shipment will be placed on sale to students at the Registrar's office in Willard Hall.

## Police Probe House Thefts

State Police and Campus Patrol officers are following every possible lead in the investigation of the fraternity house robberies which occurred early Monday morning, Capt. Philip Mark of the Campus Patrol, said late yesterday.

Due to a vague description and absence of any clue, investigation of the theft is difficult and several leads which have already been traced proved false. However, investigating patrolmen have avowed their determination to apprehend the thief.

The robbery occurred about 3 a.m. Monday morning when a

thief brazenly strolled through Alpha eta, Sigma Nu, and Phi Delta Theta, taking wallets left lying on dressers.
