US, China Must Decide on Plan For Formosa

The United States and China must decide soon on a policy toward Chiang Kai-Shek and the defense of Formosa. A report reached Manila that the United States might support Chiang with arms, but Washington later discounted the report, indicating caution on Chinese policy.

Chiang meanwhile is setting up his island defenses in anticipation of a communist attack from the mainland. The chief threat, however, seems to be from the Formosans who have a dislike for the Nationalists.

Hard Coal Talks Resumed

The United Mine Workers Union has resumed hard coal negotiations in New York. The 78,000 union miners in the Pennsylvania anthracite fields have been working a three-day week like their brothers in the soft coal region.

Kesdekian Produces Saroyan for Thesis

Would you consider producing a play if everything, including the design and most of the construction work, were left up to you? Then you're no exception. But Mike Kesdekian is.

Mike, a graduate assistant in the dramatics department, is presenting his thesis production, "The Beautiful People," tonight and tomorrow night at Centre Stage; and other than a little of the construction work and the acting, all the work that has gone into the production has been done by Mike.

Decides on Saroyan

Mike decided to use Saroyan's "The Beautiful People" last spring and made some of the plans for the production during the summer, but Mike began actual work on the production six weeks ago and since then it has been a night and day job.

He has had more than a little experience in theatre work. Last year he appeared in two Players shows. He was the Conjure Man in "Dark of the Moon" and General Biddle in "John Loves Mary." He also worked with the Players in connection with "Glass Menagerie" this fall.

During the past summer Mike was design technician at the Mountain Playhouse, Jennerstown, Pa.; and he has done part-time work with the Hedgerow Theatre, Moylan, Pa.

Little Theatre Actor

While an undergraduate at West Chester State Teachers College, Mike was active in the Little Theatre. Another group with which he

Riley Selected Mil Ball Queen

Margaret Riley, junior in journalism at the College, was selected queen of the Military Ball Friday night by the respective heads of the three ROTC units.

Capt. J. H. Jacoby, master of ceremonies, presented Miss Riley with a silver crown inscribed with her newly won title. Other contenders for the crown were: Lois Kenyon, Marjorie Kepler, Eleanor Morisuye and Ruth Schultz.

Each of the finalists was given a bouquet of roses and a compact set.

Judges for the contest were Col. Ben H. Chastaine, USA; Capt. John L. Woodbury, USN; and Lt. Col. John E. Stewart, USAF. Finalists had been chosen by neutral members of the ROTC at Lehigh University.

An honor guard from the Quarterdeck Society, Pershing Rifles, and Scabbard and Blade formed a sabered arch through which the five finalists paraded to the bandstand.

Additional Directories

Additional copies of the Student Directory were placed on sale today at the Recorder's Office in Willard Hall, at the College. A. W. Stewart, chief recorder, said a reprint had provided an additional 100 copies, which will go on sale this morning at 25 cents per copy.

Pre-Registration Begins For Spring Semester

Students To Apply For Vacation Jobs

All students who expect to remain at the College and who wish to work during the Christmas vacation should contact the Student Employment Office as soon as possible, said Allan M. Reece, director of Student Employment.

Jobs are only potentialities, however, and therefore the students should not plan to stay because of possible employment. Jobs will probably be on a day-to-day basis.

Contacts both in and out of the office during the vacation will be made by phone as the TUB will close at 5 p.m. on December 20. It will reopen at 8 a.m. on January 4.

Students Urged to Complete Forms At Specified Hours

First phase registration for the Spring semester got under way yesterday and will continue until the end of the week.

2 Students Injured; Cars Collide on Ice

Two male students of the College were injured, one seriously, when their car skidded on the ice on Route 45, east of the Houserville intersection, and crashed into another car about 4 a.m. Sunday.

Fred W. Meyer, Jr., 21, a sophomore in civil engineering, was reported as still in an unconscious state at Centre County Hospital late Monday afternoon, suffering a possible skull fracture, lacerations of the scalp and abrasions about the face.

College Plans Skating Rink

The College has appropriated \$400 to build ice-skating facilities on the New Beaver practice field, according to Robert Fast, one-man Cabinet committee on ice-skating.

The department of physical plant will construct the banks during Christmas vacation if the weather is suitable. The cost involved is mainly for labor.

It will take a three or four day cold snap to freeze the ground to a sufficient depth to hold the water long enough to freeze, however. Two or three floodings are necessary to obtain a skating surface.

Fast is working out a system of policing and rules for the rink. When the weather cooperates, ice skating will be scheduled for the evening under the lights. No charge will be made for the facilities.

Moderate temperatures last winter prevented skating, although snow banks were constructed during Christmas vacation. The best skating in recent years was in 1938 when students enjoyed 31 days of skating weather.
