Repair Work in Old Main Almost Done

Alterations and repairs on seven administrative offices in Old Main will be completed by next week, the department of physical plant has disclosed.

The old office of the bursar is being repaired for the department of accounting and the office formerly used by accounting is being made ready for the director of housing.

The office of the dean of men and the division of Intermediate Registration will move into the space formerly occupied by the recorder. The office of Arthur R. Warnock, retired dean of men, will be taken over by the payroll department, while the old payroll office will become the headquarters of the food service department.

The old college placement office is being converted for use by the student government and veteran's counselor service. College placement will move into the office of the Dean of Admission in the first floor lounge.

New Bluebook System Planned

Advance scheduling of blue books for the major courses in the School of Chemistry and Physics was recently approved by the executive committee of the School and will go into effect at the beginning of next semester.

Under the new system the occurrence of two major blue books on one day will be avoided. Professors will be asked to submit dates desired for their blue books so that a tentative schedule can be worked out for the semester. If a professor does not give the advance date, he will be required to fit his blue book time into the previously announced schedule. If it is found necessary for a blue book to be given at night, no blue book may be scheduled for the following day.

This pioneer project originated among the student council group of the Chemistry, Physics School. Jack Senior, representing the physics department; Herbert Blough, pre-medical; and Harry Lawroski made up the special

committee which worked out details for this new scheduling plan. Professors in the Schools of Liberal Arts and Engineering teaching math courses and certain engineering courses are cooperating to make this project a success.
