

Registration

Recent dissonance of clashing athletic events and registration—both originally slated for today in Rec Hall—has cleared, but it left an unhappy wake.

Today's Rec Hall sports fare is safe and intact, free from the necessity of laying out the wrestling mat atop a registration table.

However, many students' personal plans, at best, were disrupted by the necessary last-minute registration change from Friday and Saturday to Thursday and Friday.

BECAUSE MOST transcripts—one of the few official records of whether a student has passed a course—will not be available till Monday, school staffs have been left with two outs: a) calling the department that offered the course, b) relying on the student's belief that he passed the course. If the latter backfires, this produces a problem in the event a flunked course is prerequisite to one already slated by the student for this semester.

The natural upshot of all this is a need for closer cooperation between different offices when originally scheduling events as diverse as registration and wrestling and boxing meets in the same building.

Perhaps the best solution this time—and one bearing consideration in the future—would have been to displant Rec Hall with centralized, spic-and-span Willard Hall as chief registration center.

Blasts Boogie

TO THE EDITOR: I was very disappointed with the Penn State student body recently. I am referring to their booing at the boxing matches.

In the first place, it's about time these students realize that they aren't professional referees or judges in sports, and secondly, they should begin to act like college students and not like a bunch of jerks when attending the sports events.

Penn State students leave a foul taste in the mouths of all people that engage in sports here, because of their incessant booing and name-calling.

I am an alumnus of Michigan State, the team that was booed recently, and I'm darned proud of it. I'd like to be just as proud of Penn State, but I won't be until the students realize that in sports, or any events—win, lose or draw—we have an obligation to the participants.

That obligation is to treat the participants of the opposing team like human beings and not like a bunch of wild animals.

—Lynn Skory
