Rush On Customs

The amazing thing about freshman customs is how quickly this controversial question was settled on the official level.

It was done so quickly as to give the impression that the decision to establish freshman customs next Fall was forced through All-College Cabinet to prevent organized opposition from materializing.

LAST NOVEMBER HAT SOCIETIES council set up a committee to investigate establishment of customs. Little more was heard until the middle of March, when a plan was placed before Tribunal, which would enforce customs.

Little more than a week later Cabinet moved by an 18 to 3 vote to adopt customs.

Looking back, two interesting points emerge: 1. When Tribunal held an open hearing—a very brief one—which was to precede its taking action, persons who appeared expressed opposition to the customs program of Hat Societies council. Consequently, Tribunal put off action, stating that there had not been enough time for proper consideration of the issue.

Nothing further was done by Tribunal. No further consideration was given. Two days later, the program was pushed through Cabinet.

2. Of the 22 members of the old Cabinet, 16 will be graduated this Spring. Only six of them will be on campus next Fall when customs go into effect. Thus a group composed largely of people who will not be here during the customs period was responsible for passage of the program.

ONE THING IS CLEAR—THE question never was aired sufficiently to obtain the composite student viewpoint. Frankly, we doubt that the students as a whole would have supported the

There are strong points in opposition to customs, but we question whether these ever were considered seriously by the student law-

It is not too late to consider them now. It is not too late for the new Cabinet—which will to some extent be responsible for customs to reconsider the program.

It is not too late to ask the students to give their viewpoint on customs.

The new Cabinet should make reconsideration of this question one of its first actions. It is not too late to modify the customs program, or, if the student body so desires, to throw it out completely.

Safety Valve

Letters to the Editor should be addressed—The Daily Collegian, Box 261, Boro. The writer's name will be withheld upon request, but no letter will be printed unless it is signed.

Concern On Lorch

TO THE EDITOR: The reasoning of the College Board of Trustees in the recent dismissal of Dr. Lee Lorch is a matter of deep concern and confusion to me.

Unless a better explanation of the College's stand is forthcoming, it is manifest that this action is the result of a highly prejudicial attitude. This becomes particularly obvious in the light of Dr. Lorch's excellent activities in various student welfare groups, his competence and cooperative ability; these having been attested to by his colleagues.

Hence there is good reason to be skeptical of the College's action. If they can, let them account for their stand.

-Philip Shuchman

Four Faculty Members Get Leaves of Absence

Four faculty members at the College have been granted leaves of absence, James Milholland, acting president of the College, announced recently.

Dr. Robert W. Stone, head of the department of bacteriology, was granted a sabbatical leave from July 1, 1950 to June 30, 1951. He will study at the Enzyme Institute at the University of Wisconsin.

Feature Contest Is Discontinued

The "feature tips" contest to have been sponsored by The Daily Collegian is being dis-continued because of space limitations.

Collegian wishes to thank those persons who have shown interest by sending "tips" to this newspaper.

Warm Weather Should Increase Student Jobs

With the advent of warm weather, students should be able to find odd jobs around town, Allan M. Reece, supervisor of Student Employment, said yes-sylvania for the State Department of Health. terday.

He said that many people will wish to get started on garden-ing and home repairs, and urged students interested in employ-Old Main.

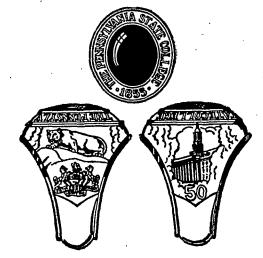

Harold R. McCulloch, assistant director of agricultural extension, will attend a special extension school at Ft. Collins, Colorado, this summer. Next year, Mr. Mc-Culloch will visit other land-grant colleges to study extension programs.

Prof. Norman R. Sparks, head of the department of mechanical engineering, will depart on sabbatical leave granted in three installments. During the periods June 15 to Aug. 14 in 1950, 1951, and 1952, he will work on the revision of a text on mechanical engineering.

Prof. R. Rupert Kountz, associate professor of sanitary engineering, granted leave from Aug. 1-31, 1950, will make an industrial
