The King is back!

And the guy who broke the bank at Monte Carlo had better hide his head because the odds he faced were never as great as those stacked up against Penn State's personable Bill Jeffrey, the guy who broke England's heart.

For in coaching America to za 1-0 victory over England in World Cup competition in South America, the Edinburgh Scotsman had to beat the country that made the game. He accomplished what many consider as one of the greatest feats in soccer history and the greatest upset since Truman.

Yep, it was a neat little trick and you'd expect the County Edinburgh Bagpipe Brigade as well as any Scotchman who ever wore the plaid, knee socks, and tam to turn out to

welcome their native son returned home. But the conquering hero skit is not for the modest Jeffrey who managed to sneak unheralded into New York at a post mid-night hour.

Still, "Bagpipe Bill" has done his part. For a few short days 1949 can now sit back in his comfortable State College home and let the experts try and figure out how he did it.

'I've never gotten as big a kick out of anything as I didsitting there in a cold sweat-after the game had ended with the realization that we had won. We felt that our soccer was inferior to that of the British team, and, I'll have to admit it, only an optimist would have given us a nickle for our chances before the game.

Afterwards, when Jeffrey could tear himself away from the bedlam which was the American dressing room, he went over to the British side-which was about as quite as an Irish wake. He was approached by the trainer who said with a tear in his Cockney voice,"Well, Jeff, you beat us. It was one of those things, I guess. We just couldn't click.*

Jeff found that despite his status as a veteran coach, who probably knows more about the game than the guy who invented it, you can always learn more.

"Many of the things I learned in South America I'm going to try to teach to our fellows this fall." As Jeffrey explains it the game played in the States needs to be more challenging

-or in his own words: "We need more offensive continuity." "Drive-drive and when you've got them back on the." heels don't let up for a minute.

According to Jeffrey, the game played by foreign teams is a wonder to behold. They are cunning, deceitful, and use every trick in the book. They are not even averse, at times, to exhaling a lungful of garlic-sodden breath into

an unwary opponent's face. "We played our first game at Curitiba against a pre-tourney favored Spain," said the 57-year-old Nittany mentor. "We were beaten in the final 10 minutes by a 3 to 1 score."
