# Proposal To Seat Chinese Reds May Cause Dispute

LAKE SUCCESS—India's formal proposal yesterday to seat the Chinese Communists in the United Nations is expected to cause a bitter fight at the assembly session opening today.

General MacArthur's charge that Communist China furnished "substantial if not decisive" military aid to North Korea was read yesterday to the Security Council. Russian delegate Jacob Malik protested.

## UN Forces Gain

TOKYO—Navy fliers in Korea have reported that the Marines have entered Yongdungpo, a suburb of Seoul. Another Marine column is preparing to cross the Han river near the Kimpoo airfield. Korean Communists are moving troops into the Seoul area, but are being attacked by American planes.

In the Pohang area, the battleship Missouri is credited with breaking up an enemy attack on Sunday. Heavy shelling from the Big Mo at point blank range did it.

## Council Adjourns

NEW YORK—The 12-nation North Atlantic council adjourned yesterday without reaching agreement on plans for unified European defense. It announced that proposals for a unified military force would be warmly welcomed, but final decisions were put off until several council members have a chance to consult with their governments.

## Girls' Average Leading Boys'

Penn State's coeds have more "gray" matter than the College's male students, according to information recently released by the dean of admissions' office.

The brainy coeds worked their way to a 1.62 average for the second semester of last year while their brawny brothers trailed along with a meager 1.44. The composite average, 1.48, marked a substantial increase over the previous semester's all-student average.

Leading the pack was Beta Sigma Omicron sorority with a neat 1.95 average. Close on its heels was Delta Theta Sigma fraternity with a 1.89. Third in line was Kappa Kappa Gamma sorority, closely followed by Alpha Zeta fraternity, the leader last semester.

In a further breakdown of the results, sorority women led independent women by 1.74 to 1.55. Independent men led fraternity men with a 1.46 average to the fraternities' 1.39 average. The combined average of fraternity men and women and the combined independent average both practically matched the 1.48 all-student average.

## Regional VA Sets Payment Schedule

The schedule for subsistence allowance payments to veterans has been announced by the regional office of the Veteran's administration.

For veterans who enrolled before yesterday, subsistence allowance will be paid in early October. For a veteran enrolling yesterday or later, payment will be deferred until Oct. 31, when one check will be issued to cover the entire allowance due for both months.

All veterans were reminded that this schedule can be followed only if a properly completed certification is submitted to the College, and then sent to the Veteran's administration within stated time limits.

## Frosh Customs --

(Continued from page one) their new 'way of life' before really cracking down.

The usual procedure seems to be for a group of hatmen to corral four or more frosh, and put them through their paces, much to the amusement of the crowd that always gathers, and to the frosh themselves.
