

Myers Asks For Support At Elections

Pointing to the Democratic party of "new horizons," Sen. Francis J. Myers yesterday asked a street-corner audience for support in the November elections. Myers' motor caravan, touring the state, stopped at the corner of Allen and College avenues at noon. Several other candidates, including Prof. Arthur H. Reede, running for Congress, spoke briefly before Myers' main address.

Myers, running for reelection to the Senate against Gov. James H. Duff, said the Democratic party should have the backing of the country's younger people because it builds for the future.

Praises Democrats

"When the Democrats first took power 18 years ago, there were few opportunities for college graduates," Myers said. "The country was in the grip of a depression. Today we have some 63 or 64 million employed. Business has prospered under the Democrats; corporate profits after taxes are at an all-time high."

Quoting a statement by Governor Duff that "it is time we turned back," Myers said the Democratic party will not turn back, but will continue to go forward.

"We have built and will continue to build economic security, liberty, and freedom in this country and in the world as well," he said. "While the Republicans merely talked, we went ahead, passed measures, and won the cold war in Italy, France, and the Low Countries."

Myers expressed his regret that the Republicans would not come out and debate with him on his street-corner tour of the state. He said he had offered to stage a series of debates with Governor Duff but that the Republicans would make no statement.

"We believe you have a right to see your candidates, to question them if you like. I stand on my voting record, and challenge Governor Duff to show where I've voted wrong," Myers said.
