Executing A Policy

Action of Alpha Kappa Psi, which removed the restrictive clause from its national constitution this fall, should point the way for other organizations which are open only to members of the "Caucasian race."

IT ALSO SERVES to remove the stigma which fell on the local chapter last winter when its charter was approved by the College senate committee on student welfare, with stipulation that the restrictive clause be removed. The professional commerce fraternity's discriminatory clause raised a great deal of furor and caused widespread concern on campus.

Now that the discriminatory clause has been removed, we hope its removal will have concrete results and will not merely mean that the clause will be replaced by a tacit agreement to exclude all but "Caucasians" from membership.

Continuing the discrimination policy would make a farce of the fraternity's action, and would create a cynical attitude toward moves by other groups to wipe out restrictive clauses. Apparently the local chapter is in agreement with the intent of the national's action. We hope that it will take every step possible to implement the new policy.

A Real Battle

If Hat Society council would really like to pep up the customs program, we suggest it make a genuine battle of the tug-of-war scheduled for Friday.

IN OTHER YEARS, the battle was staged to determine the length of customs. If the frosh won, customs ended right then and there. If upperclassmen were successful, customs would continue.

This packed plenty of interest into the outcome and gave the frosh something tangible to shoot for. It also gave both sides a chance to sweat off any animosity rather than taking it out in riots and hazing.

The customs spirit, it is generally agreed, has been pretty dead in the past few weeks. Perhaps this is a reaction against the flare-ups of a few weeks ago. Freshmen and hatmen both seem content with their efforts to date—the frosh with their uprising and the hatmen with their pep rally.

NOW BOTH have let the program lapse to the point where Hat Society council feels more action is appropriate. Tribunal also would like to get into the show, having announced that dresses may be ordered for men breaking the dating regulation. Though this is extreme, if not ridiculous, it is a good indication that Tribunal recognizes the recent apathy.

Hatmen's council could set up a rousing and popular finale to the languishing customs program by letting the freshmen work for their release, instead of presenting it to them for being good boys.

—Herbert Stein—

Time To Reflect

This is Pennsylvania Week. It is a time set aside for the study of our commonwealth, its government, its resources, its services.

BUT IT IS MORE than that. Knowledge is not enough. Objective analysis is as important as sound observation. It is a time for construction as well as inspection.

It is only when we, as students and as citizens, know and recognize both the virtues and the faults of any organization affecting us, that anything can be done to improve it.

The "our country, right or wrong" philosophy is outmoded. It is time for a new credo:

"Our country (or our state, or our school); may it ever be right. But when it is wrong, may we be the first to recognize it and call attention to it."

—Lee Stern

Safety Valve . . .

Bothered By Band

TO THE EDITOR: There is a time and place for everything. I readily agree to this statement. The area next to the Temporary classrooms is not the place to have band practice while classes are in session. Some musical organization insists on being as loud and blaring as possible on Wednesday afternoons from four to five o'clock.

I am sure it is not their intention to disturb these classes, but that is what they are accomplishing. I certainly hope they cease this practice as they are creating a large amount of resentment.

—Distracted Student

BLUE KEY, 120 Willard, 7:30 p.m.

COLLEGE PLACEMENT

Further information concerning interviews and job placements can be obtained in 112 Old Main. Seniors who turned in preference sheets will be given priority in scheduling interviews for two days following the initial announcement of the visit of one of the companies of their choice. Other students will be scheduled on the third and subsequent days.

Union Carbide and Carbon will interview PhD candidates in organic, physical, analytical and organic chemistry, chemical engineering, mechanical engineering, physics and metallurgy on Monday and Tuesday, Oct. 30 and 31. S. S. Kresge company will interview January graduates in arts and letter and commerce and finance on Thursday, October 26.

Aluminum Company of America will interview January graduates in chemical engineering, metallurgy, mechanical engineering, industrial engineering, and electrical engineering on Friday, October 20. The priority system will not be in effect for this announcement.

Proctor & Gamble company would like to have all mid-year graduates in chemical engineering, mechanical engineering, electrical engineering, industrial engineering, and civil engineering at an M.S. or B.S. level, and chemists at all levels file preliminary applications for interviews. Preliminary forms are available at College Placement service in 112 Old Main. All applications must be filed no later than October 26.

STUDENT EMPLOYMENT

For information concerning the following jobs applicants should stop in 112 Old Main.

Graduate student in organic chemistry for about 10 hours work per week.

Nominations Scheduled For Student Councils

Preliminary nominations for student council elections will be held from Oct. 23 to 27. Elections are scheduled for Nov. 1-2 from 9 a.m. until 12 noon and 1 to 5 p.m.

The seven schools holding nominations for positions of freshman and sophomore representatives are Chemistry and Physics, Education, Engineering, Home Economics, Liberal Arts, Mineral Industries, and Physical Education. Junior and senior representatives to the councils will be elected in the spring.

Requirements for an all-college average of one or over do not apply to freshmen, since they have no average.

Nomination requirements for the schools are as follows:

Chemistry and Physics

Sophomores must have 1.0 all-college average, and students may nominate themselves by placing their names on the bulletin board in Osmond laboratory. Two freshmen, one in pre-med and one in chemistry, and four sophomores, two in chemical engineering, one in chemistry, and one in pre-med, will be elected.

Education

All-college average of 1.2 is required, and students may nominate themselves at the dean's office in Burrows building. Two freshmen and two sophomores will be elected.

Engineering

Self-nominations may be turned in to the departmental offices, and a 1.0 all-college average is required. Five freshmen and six sophomores will be elected. One freshman will be elected from each of the following departments: electrical engineering, mechanical engineering, civil engineering, industrial engineering, and aeronautical engineering. One sophomore will be elected from each of these departments: electrical engineering, architectural engineering, industrial engi-

neering, mechanical engineering, civil engineering, and aeronautical engineering.

Home Economics

All-college average of 1.0 is required, and students may nominate themselves at the dean's office in the Home Economics building. Two freshmen and four sophomores will be elected.

Liberal Arts

Four freshmen and eight sophomores will be elected. Freshmen must have twenty-five signatures of students in the School of Liberal Arts. The list of names for self-nomination must be turned in to the dean's office in Sparks building.

Sophomores do not need signatures, and they may nominate themselves at the dean's office. They must have a 1.5 all-college average.

Mineral Industries

All-college average of 1.0 is required and students may nominate themselves by placing their names on the bulletin board in the Mineral Industries building. Two freshmen and four sophomores will be elected. The freshmen must be in their first semester and sophomores must be third semester.

Physical Education

All-college average of 1.0 is required. Two freshmen, one man and one woman and one sophomore man, will be elected. The freshmen and sophomores are nominated by an appointed committee.
