Night Editor: Red Keller; Copy Editor: Paul Poorman; Assistant Night Editor: Sally Miller; Assistants: Jo Reist, Dick Kolbenshlag, Ray Galant, James Spangler.

Ad Staff: Bob Leyburn, Ed Shanken, Frank Cressman, Joan Harvie, Judy Goldberg, Eleanor Kalson, Doris Groomes, Reddie Morgan.

## Help For Students

One of the agencies that will benefit from the forthcoming Campus chest drive is the World Student Service fund.

WSSF has as its purpose the distribution of material and intellectual aid from students in the United States to pupils in nations devastated by war.

Last year the WSSF held its own campaign on the campus in which it raised \$1232.84. The money was used in part to help 16 pre-tubercular students in Greece regain their health by spending four months at a WSSF rest center. The rest was used to pay half of the maintenance expenses of a cooperative student hostel in Calcutta, India for refugee students who otherwise literally would have lived on the streets.

Money given the WSSF is used for medical aid, emergency food and clothing, community centers and self-help hostels, aid to refugee and displaced students, educational supplies and for maintenance of rest centers for physically sick students.

THIS YEAR the WSSF drive has been combined with other drives on campus into the Campus chest campaign. The chest campaign will begin this Saturday and last until the following Friday.

Under the plan devised, the WSSF will receive 10 per cent of the funds gained by the Campus chest. If the chest reaches its goal of \$14,000, the WSSF will receive \$1400, or just slightly more than last year.

So when the solicitor asks you for your contribution, don't hesitate. Remember the work done by the WSSF for persons of your own age, who are not so fortunate. Wherever they are, the persons who benefit from your generosity will thank you.

— Joe Brey

## Unsettled Woods

An administration official yesterday announced that plans for using a section of Hort woods as a parking lot have been "laid away." He said that excessive cost and "other reasons" prompted the action.

THIS ANNOUNCEMENT will be welcomed by those who are concerned about the future of the wooded area. No part of Hort woods is in immediate danger of being leveled.

Still, the important issue — that of setting aside the woods as a permanent nature preserve — is far from settled. The administration statement admits that removal of a portion of the woods was considered and it gives no assurance that some such action will not be considered in the future.

Action by students and alumni is still essential if the woods is not to go the way of less valuable areas on campus. Some argue that to designate the woods as inviolable would be to hamstring the administration in its planning. They neglect to note that there are other areas which can be utilized in new expansion programs.

HORT WOODS was not erected in a day. Neither will it be readily replaced if the administration decides to chop it down.

— John Ashbrook

## Safety Valve . . .

### Playing Games

TO THE EDITOR: "The purpose of customs is to achieve school and class spirit." Certainly that spirit which the hatmen and other upper-classmen felt was so necessary, should, after more than a month, be evident on campus. But for some reason it has failed to appear. Whose fault is this failure?

Now hatmen are again trying to enforce the freshmen regulations. This time the frosh do not take the nonsense in the same humor as they had. Things like customs soon become very tiresome. After all, nobody comes to college just to play games with boys in black hats.

• Letter Cut

— Sidney Ziff

### Destructive Freshmen

TO THE EDITOR: The report of damage to Thompson hall which appeared in the Collegian for October 24 was extremely revolting to most of the men on campus. I'm sure it strikes home particularly with those men who, like myself, are on the waiting list to get into the hotel-like accommodations of the new dorms. Why not put these characters, who can't help being destructive, out in Pollock circle where not much more destruction can be done.

— Karl C. Thomas

## COLLEGE PLACEMENT

Shell Development company will interview 1951 graduates in physical and organic chemistry and chemical engineering at the PhD level, and January M.S. candidates in chemical engineering on Thursday, Nov. 2. The priority system will not be in effect for this announcement.

Linde Air Products company will interview January B.S. and M.S. graduates in mechanical engineering, industrial engineering, electrical engineering, and chemical engineering on Tuesday, Oct. 31.

Shell Oil company will interview 1951 PhD candidates in physical chemistry and chemical engineering, January M.S. candidates in chemical engineering, chemistry and mechanical engineering, and January B.S. candidates in chemistry on Thursday and Friday, Nov. 2 and 3. The priority system will not be in effect for this announcement.

Sperry Gyroscope company will be on campus Monday, Oct. 30. They are interested in midyear B.S. graduates in electrical engineering who are in the upper half of their class; 1951 PhD candidates in electrical engineering and physics; M.S. candidates in electrical engineering and physics who graduate not later than June 1951. The priority system will not be in effect for this announcement.

Curtiss-Wright corporation, propeller division, in Caldwell, N.J. will interview midyear graduates in aeronautical engineering, electrical engineering and mechanical engineering at the B.S. and M.S. levels on Tuesday, Nov. 7.

## Little Man On Campus

By Bibler

"All right — let's EVERYBODY yell —"

## Thespians—

(Continued from page one)

It was while studying in New York two years ago that he had a touch of the "big time." He was put in an advanced class along with Bill Callahan who danced the lead in "Call Me Mister," and Kathryn Leigh, star of "Allegro." Woollever might have gone places from there, but for various reasons he returned to school in the fall.

### Thespian Success

At Penn State, he tried out for Thespians immediately, and rose rather quickly. About staging dances for Thespians, Woollever says, "The big problem is that you don't have time. I have to work out most of the steps as I go along." He's fairly happy with the dances in "Some Punkins," however, and for a dance director that's about equal to wild joy in an ordinary human being.

### Dram. Officers Named

Two dramatic groups at the College have named officers for the 1950-51 season.

Players elected Charles Williams, president; Richard Pioli, vice president; Ruth Johnson, recording secretary; Kathryn Scheetz, corresponding secretary, and Nicholas Morkides, treasurer.

Officers of Theta Alpha Phi, dramatics honorary, are Charles Schulte, president, and Ruth Johnson, secretary-treasurer.

## UN Day—

(Continued from page one)

of Old Main could not be granted because the flag was not made to be flown from a pole.

Kenworthy said that the day was the project of several classes who were writing themes of the UN.

All bells in the borough rang yesterday at 11 a.m. and most Centre County churches featured special prayer sessions for the continuing success of the United Nations.

## Prof Nominated

Dr. Conrad Fernelius, professor and head of the department of chemistry, was one of the men nominated for regional director of the third district of the American Chemical Society at recent meetings in Chicago.

Dr. Fernelius and Emil Ott, director of research of Hercules Powder Co., the other nominee, will be placed before members in the Pennsylvania, Delaware, and Ohio areas in November for election of one for a 1951-53 term.

## Rabbi Kahn To Speak

Rabbi Benjamin Kahn will begin a series of lectures on "Basic Concepts of the Jewish Religion" tonight at 7:15 o'clock at the Hillel foundation. These lectures are open to anyone wishing to attend.
