Campus Interviews on Cigarette Tests Number 6...THE TURTLE

They had our slow-moving brother moving at too fast a pace with those quick-trick cigarette tests! A fast puff . . . a swift sniff . . . a quick inhale . . . a rapid exhale. Terrapin's head was spinning — didn't know if he was coming or going! But he slowed down to his own speed — decided there was no need to rush. After all, he figured, how could anyone possibly prove cigarette mildness so fast? And he was right, too! That's why we suggest: *The sensible test . . . the 30-Day Camel Mildness Test*, which simply asks you to try Camels as your steady smoke — on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste) we believe you'll know why . . .

More People Smoke Camels than any other cigarette!
