

Coed Groups Discuss Govt. At Retreat

Members of WSGA, WRA, Panhel, and Leonides drew up a series of suggestions for improving women's student government at the WSGA retreat held Saturday in Hemlock cottage.

The constitutions of WSGA, WRA, and Leonides were amended during the morning sessions.

At the joint meeting of WSGA and WRA it was suggested that more publicity be given to the combined elections. This would include the publishing of candidates pictures and having them introduced at dormitory house meetings. It was also suggested that a board of nominations be organized to accept and screen petitions from candidates. This move would eliminate the need for an open meeting, which so far has not proved very effective.

WSGA Week

The possibility of holding a WSGA week as a followup to orientation week was also discussed. The purpose of a WSGA week, which would be held from Monday to Thursday, would be to explain and publicize women's student government. One day would be devoted to the explanation of each organization and Thursday night humorous skits about women's government would be held at the various house meetings.

Another suggestion concerned the promotion of a women's newspaper on campus. The paper would be published about once a month and would feature inter-dorm news. The organizations will investigate the cost of printing the paper and the possibility of forming an editorial staff.

Training Program

Members of the organizations decided that there should be a training program for leaders. Such a program, could be held late in the spring, just after the elections. The outgoing officers could instruct the incoming officers in their duties. Such a program would instruct the girls in parliamentary procedure.

The four organizations will be discussing these suggestions at their future meetings.
