

Reese Scores IM Victory To Remain In Title Race

Johnny Reese, of Phi Delta Theta, last year's 128-pound king, continued to be successful in his quest for the 135-pound title, in IM boxing last night, as he disposed of Dusty Rhodes, of Beta Theta Pi.

Dean Harbold, of Delta Upsilon, also established himself as a contender for the 135-pound crown, as he neatly trimmed Jack Donnal, of Phi Gamma Delta.

Theta Xi's John Pisano remained among the 135-pound hopefuls, as he survived a shakey second round to decision Max Williams, of Phi Sigma Delta.

Phi Kappa Sigma's Al McChesney captured another win in the same weight bracket, downing Dave Colton, of Tau Kappa Epsilon.

Rudy Reid, of Omega Psi Phi, hung up his third successive win of the campaign, winning by a TKO in the third round from Ted Gey, of Phi Kappa Sigma. It was a 145-pound bout.

At 155-pounds, willow-the-wisp Laz LeMon, of Alpha Phi Alpha, met a tough match in Dick Chominski, of Theta Kappa Phi, but managed to feint and clip his way past his taller opponent.

On the independent side of the 155-pound ledger, Jack St. Clair employed long, stinging hooks to the head, to down game, but out-classed Jimmy Fox.

In a 165-pound bout, Dick Dum, of Alpha Gamma Rho, continued his winning ways, by taking a hard-fought decision from Bill Brown, of Sigma Nu.

IM Results

Edinboro 58, Globetrotters 27; Draitees 36, Simmons Hall 7; Altoona 18, Bombers 16; Gunners 2, Night Hawks, 0 (forfeit); Beaver House 12, Flunkies 10; Cody Manor 25, Collegians 9; Hawks 14, Dogs 7; Pottsville 2, Rovers 0 (forfeit);

Intersquad Match Today Sets Wrestling Line-up

Wrestling coach Charlie Speidel will hold the first intersquad match of the practice season for his matmen this afternoon at Rec hall when an all-college inter-class tournament will be held in all weight classes.

Speidel said that he will match his men up in all weights as an aid in determining the starting lineup for the first match with Lehigh in Rec hall on Jan. 6.

A major rule change has been placed in the books for the coming season, but it is not expected to provide much trouble for the matmen.

Formerly, the weight classes were 121 pounds, 128, 135, 145, 155, 165, 175 and unlimited. This year, all weight classes up to unlimited have had their limits raised two pounds each.

Speidel said that most colleges were having trouble finding boys as small as 121 pounds, which last year's limit called for, since the average college student weighs

much more than 121. He said that the change has been coming on for quite a while.

Freshman coach Charlie Ridenour said that he still had several weights open, and said that he hoped more frosh would come out for the sport before the vacation began. The first frosh meet is also with Lehigh on Jan. 6 in Rec hall.

Cagers Prepare For Rams, W & J

Penn. State's 1950-51 basketball team, with two wins in its first three games, could come up with one of the best Lion cage records in years.

Following the 66-63 victory over a tall, veteran American university team Monday night, Elmer Gross, courtmen have shown evidence of being able to win away from home—a feat which has evaded Penn State basketball teams in recent years.

The Lions will get two stiff tests this weekend when they play Rhode Island State and Washington and Jefferson on Friday and Saturday respectively.

The summary:

PennState	FG	F	T	American	FG	F	T
Lamie, f	5	12	22	Mofatt, f	2	3	7
Moore, f	3	3	9	Morales, f	5	3	13
McMahon, c	0	4	4	Garshar, c	1	2	4
Panoplos, g	8	17	17	Ishman, g	3	5	11
Williams, g	6	11	11	Webster, g	8	2	18
Shuptar	1	0	2	Daly	3	2	8
Makarewicz	0	1	1	Baer	1	0	2
Totals	22	22	66	Totals	23	17	63
Score by halves—							
Penn State	23			American	38-66		
American	37			American	30-63

G.E. APPARATUS DEPARTMENT products range from giant turbines to aircraft jet engines

8 reasons why college graduates at G.E. find work that they like

"In seeking to place college graduates in jobs they will enjoy doing," M. M. Boring, manager of the Technical Personnel Divisions, said recently, "we at General Electric find our work made easy by the diversification of the company's business."

"We tell a newcomer to look around, to work in several different fields, to try to determine where he will be most satisfied. The company's eight Operating Departments, ranging from Chemical to Apparatus, from the making of lamps to the building of big turbines and electric locomotives, give him plenty of room for his search."

"Engineers, chemists, physicists, and mathematicians, as well as liberal arts graduates, all find work here that they can be interested in and can do with enthusiasm."

"Their ability to find satisfying jobs with us is, we feel, an important factor in keeping General Electric ahead in electrical research, engineering, and manufacturing."
