Men Must Dance With Men; Few Coeds At CA Club

The C. A. folk-dancers are being plagued by the College ratio problem. It is no strange sight for a male member of a square dance to look and discover a fellow man as his enchanting partner. A simple and delightful solution to this partnerless problem would be the attendance of more women at the Circle and Square Dance club.

This newly-formed club sponsored by the Penn State Christian association meets every Thursday at 7 p.m. in 100 Horticulture.

Lenore Staats, director of the program said attendance for the club has been larger than expected, but, unfortunately, the majority of those attending have been men. Plaid cotton shirts and jeans for the men, and full cotton skirts for the women are the usual attire for the square dance set.

Music for the dances has been provided by records, but an attempt will be made to present guest dance callers at future meetings. Besides folk and square dancing, the group has learned four or five dances from other countries.

Campus Interviews on Cigarette Tests

Number 9...THE MARSH HEN

"For a while they had me swamped!"

Seems like this confused fowl got mixed in a metaphor and was almost turned into a guinea pig. The story goes she got caught in a welter of quick-trick cigarette tests... one puff of this brand, then a puff of that... a sniff, a whiff — a fast inhale and exhale. And then she was supposed to know all about cigarette mildness! Is that the way to treat a lady?

And is that the way to judge a cigarette? We think not. That's why we suggest:

The sensible test — The 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste) we believe you'll know why...

More People Smoke Camels than any other cigarette!
