

Two Students Quizzed In Final Exam Leak

A two-day investigation by the Daily Collegian into leaks in the final examination system yesterday resulted in apprehension of a graduate student and an undergraduate.

Dean Ben Euwema of the Liberal Arts school told the Collegian yesterday that Harry D. Duckett, stipend scholar and graduate student, will be informed that unless he shows good reason for not being dismissed, his dismissal will be recommended by the Liberal Arts office.

Alfonso J. Passeri, seventh-semester chemical engineering student who was apprehended Wednesday when he attempted to sell part of the Spanish 2 examination, told the dean of men yesterday that Duckett had sold the examination to him for \$25.

Graduate Student

Duckett is not a regular member of the faculty. He is listed by the College as a graduate student without faculty rank. He holds the title of stipend scholar and teaches one Spanish 2 class.

The investigation also revealed that six examinations in the Economics and Commerce department had been obtained by students. New examinations have been made up, according to Dr. William N. Leonard, department head. Duckett and Passeri were not known to be connected in any way with the leak in these exams.

Board To Act

A four-man board—Dean of Men H. K. Wilson; G. L. Haller, dean of the School of Chemistry and Physics; Wilmer E. Kenworthy, director of student affairs; and Neil See, chairman of Tribunal—will decide what action will be taken on Passeri.

Passeri implicated Duckett yesterday morning in an interview with Dean Wilson and Seth W. Russell, assistant dean of the Liberal Arts school. Taken into custody Wednesday evening, Passeri first denied through an hour and one-half of questioning that he knew the person from whom he said he bought the exam for \$10.

Dr. R. J. Clements, head of the Romance Languages department, issued the following statement yesterday: "The department is saddened to hear these charges against a graduate student, teaching his first class, and with a hitherto excellent record. We hope that at even this late date these charges may prove unfounded. In any case, we are grateful for the Collegian's conscientious efforts in ascertaining that part of an examination was divulged to students. Needless to say, the entire examination is being rewritten."

During the questioning, Passeri, a student in the Spanish 2 section taught by Duckett, said he had more than a passing relationship with his instructor. He said he had coffee earlier in the day with Duckett at the TUB before Duckett, who is to leave for the National Guard in a few days, drove to his home in Clearfield.

In selling his test on the "open market," Passeri told prospective

Childs Chosen By Fellowship

Dr. Wylie J. Childs, associate professor of metallurgy at Lafayette college, has accepted an invitation to represent the Penn State Bible Fellowship during Religion-in-Life week, Feb. 19-22.

Dr. Childs was graduated from Rensselaer Polytechnic institute in 1943 in the metallurgical engineering course. In 1948 he received a Ph.D. degree, then went to Massachusetts Institute of Technology, where he did research in physical metallurgy.

He has been an associate professor at Lafayette since 1949. Dr. Childs is a member of the American Institute of Mining and Metallurgical Engineers, the American Society for Metals, the American Foundryman's society, and Sigma Xi and Tau Beta Pi societies.

First Inkling Issue Delayed

The first issue of Inkling, a photo-lit magazine, will be delayed until further efforts are made to have the magazine subsidized by the College, Samuel Vaughan, editor, said yesterday.

Vaughan quoted a letter, dated Jan. 13, from Ben Euwema, dean of the School of Liberal Arts, who said that unexpected changes in the College's financial conditions would not enable him to underwrite the publication of Inkling.

Dean Euwema had been contacted early during the fall semester about the subsidy, Vaughan said.

Because of the nature of the magazine, Vaughan said, it may not be a commercial and financial success at the outset. Therefore, he added, a subsidy would carry the magazine over a critical period.

The student end of the work is finished, Vaughan continued. A staff, format, printer, and sources for material are set, he said.

Vaughan said Wilmer E. Kenworthy, director of student affairs, who had also been contacted about the subsidy, was still very interested.

Trustees Meet In Harrisburg

The board of trustees will hold its regular January meeting in Harrisburg tomorrow. The board's executive committee will meet there tonight.

On the agenda for the session will be the proposed increase in the Daily Collegian's student assessment from 75 cents to \$1.10 per semester, given final approval by All-College cabinet last night.

The board will elect officers for the coming year and a new executive committee.

The new governor, John S. Fine, will attend his first trustees meeting. He is a member of the board by virtue of his office.

Standing committees of the board will meet this morning and tomorrow morning.

Cabinet Approves Increase 2nd Time

By MOYLAN MILLS and BUD FENTON

All-College cabinet last night approved for the second time a 35-cent increase in the Daily Collegian's student assessment by a 19-4 vote.

The recommendation will be presented to the board of trustees, meeting in Harrisburg today and tomorrow.

Other major business transacted at the meeting included the inauguration and seating of the new freshman and sophomore class presidents, report of the Orientation week committee, and the appointment of Owen London as chairman of a committee to investigate the handling of the student handbook by cabinet.

The assessment increase had previously been approved by cabinet last week. It had to be approved by a two-thirds vote at two successive meetings of cabinet in order to be presented to the trustees.

Voting against the measure were Raymond Miller, Engineering student council president; Robert Sharets, Chemistry and Physics student council president; Huber Stevens, Home Economics student council president; and Harold Leinbach, Interfraternity council president. All-College

President Of Bucknell To Address Graduates

Dr. Horace A. Hildreth, president of Bucknell university and former governor of Maine, will address the mid-year graduating class at commencement in Recreation hall, 10:30 a.m., Jan. 27.

About 600 students will receive undergraduate and graduate degrees at the ceremony. President Milton S. Eisenhower will preside.

Commencement will open with an organ prelude played by George Ceiga, assistant professor of music. The academic procession will then enter.

College Chaplain James T. Smith will deliver the invocation, after which Dr. Hildreth will speak. Degrees and military commissions will then be conferred.

Eisenhower To Speak

President Eisenhower will deliver the charge to the graduates, and the entire group will sing the alma mater. The benediction will follow, with the recessional concluding the ceremonies.

Dr. Hildreth, principal speaker at the commencement, was born in Maine, 1902. He was educated at Bowdoin college, where he received an A.B. degree in 1925, and at Harvard law school, which gave him an LL.B. degree in 1928. In 1945 Bowdoin conferred an LL.B. degree on him, as did the University of Maine in 1946.

Elected Governor

He entered law practice in 1928, and was elected to the Maine house of representatives in 1940. In 1941 he was elected to the Maine senate, and became president of that body in 1943. In 1945 he was elected governor. He held the post until 1949, when he became president of Bucknell.

Graduating seniors receiving Army commissions will be Wallace Maurer, Charles Mebus II, Henry Schoenfeld, Donald Sloughy, and Anthony Stabile. Navy commissions will go to Richard Pulling, Thomas Reese, and Richard Willse.

Air Force commissions have been awarded Joseph Bedell, Gordon DeGroat, Robert Hartley, Dean Henderson, Alvin Olson, Orville Schwager, Wilbur Stauffer, and Gerald Stewart.

Honor Students

Honor students in the School of Agriculture are Carl Campbell, Paul Cosgrove Jr., Michael Dufala, Richard Mummert, Meredith Orr, and Charles Stine.

Education honor students are Lois Burrell, Norma Fehr, David McNelis, John Offner, Alvin Olsen, Malvin Wance, and Charles Wilt. Engineering honor students are Harold Bowditch, Terence

New Alumni Rates Good Until Jan. 27

The Alumni association's offer to graduating seniors of a reduced membership rate, \$2 for a year, will be in effect until Jan. 27.

Speaking of the advantages of membership, Ross Lehman, assistant executive secretary of the association, said, "The Alumni association with its membership of 11,000, is a link between the alumni and the college."

"The College needs the alumni influence to aid its program not only on campus but in community life. On the other hand, alumni need the well-regarded name of the College and the benefits of its good education in a profession," Lehman said.

'Life' Completes Run

"Time of Your Life" ends a five-week run at Center stage this weekend.

Tickets, priced at 90 cents for tonight's performance and \$1.25 for tomorrow night's, may be purchased at the Student Union desk. Curtain time is 8 p.m.

112th Sq. Not Yet Called Up

Col. George L. Haller of the 153rd Air group told the Daily Collegian last night that the 112th Aircraft Control and Warning squadron has not been ordered into federal service.

Colonel Haller, who is dean of the School of Chemistry and Physics at the College, made the statement after the Air Force announced yesterday afternoon that it will call up more reserve and National Guard units. The 112th is the State College unit of the Air National Guard's 153rd group, which Col. Haller commands.

The colonel said that no one knows whether the unit will be mobilized in the future. "For the present, however, the 112th has not been called," he said.

The colonel said he believes all units to be called up now have already been notified although he is not certain of the fact.

The present Air Force call will affect about 150,000 men. It is part of a planned buildup to a total strength of 971,000. Ten National Guard wings have already been federalized.

Who's In News Release Slated

"Who's In The News, 1950-51" edition, will be available to those students whose biographies appear in the booklet beginning the first week of the spring semester, Art Benning, editor, said yesterday.

Distribution will be handled by Student Union in Old Main. Copies of the booklet will be mailed to seniors who will be graduated this month.

The booklet will also be distributed to fraternities and sororities, administrative offices, publications, leading newspapers in the state, and colleges and universities throughout the nation, Benning added.

AIM Post-Game Dance

Tickets are now on sale at the Student Union desk in Old Main for the dance to be sponsored by AIM in Recreation hall following the basketball game with Gettysburg tomorrow night.

Dr. Horace A. Hildreth

DP System Formulated

William Klisanin, chairman of the local National Student association, yesterday announced plans for the formulation of a committee to bring displaced persons to State College for study under a new job assurance plan.

Under this plan a DP must be assured a job for one year in the community before being allowed to enter school, after which he may matriculate if he is financially able.

The Committee will be composed of the sponsoring organizations of the World Student Service fund on the campus, including NSA, PSCA, the Newman club, and Hillel foundation. All-College cabinet and the Chamber of Commerce will also be asked to participate.

Luther Harshbarger, PSCA executive secretary, and Klisanin, expressed hopes of bringing 25 DPs here.

Last Collegian

Today's issue of the Daily Collegian is the final one for this semester. Regular publication will be resumed Feb. 6.

Members of ASCE Eligible For Contest

Junior and senior members of the American Society of Chemical Engineers are eligible to enter a technical report contest, Wilbur Hankey, president of the society's student chapter, announced yesterday.

The papers, limited to approximately two thousand words, should be based on the writer's own experiences in an engineering project which he has investigated, constructed, or inspected. Deadline for the completed report is Feb. 3. Additional information can be obtained from the engineering bulletin boards. Prizes of \$15, \$10 and \$5 will be awarded.

International Relations Club Elects Officers

Leonard Kolasinski was elected president of the International Relations club for the spring semester last Monday night.

Other officers elected at the meeting were Ralph Pekkala, vice-president; Miriam Kugelmann, secretary; and Max Einkenkel, treasurer. Frank Flannely is retiring president.

President Robert Davis did not vote.

Millard Reyburg, reporting for David Ludwig, chairman of the Orientation week committee, announced the orientation period for new students next semester would begin Jan. 31. President Milton S. Eisenhower will open the program that day with an address in Recreation hall at 8 a.m.

Gerald Maurey, freshman class president, and William Bair, sophomore class president, were inaugurated. Richard Mills, Merlin Miller, and John Moyer were appointed to the male activities card committee.

William Klisanin was appointed representative to the Penn State-in-China committee to replace Joseph Arnold, who has left school for the service.
