

Marines Take Hills North Of Hoengsong

TOKYO, Saturday, March 3 (AP)—United States Marines punched into the hills north of Hoengsong Friday as other Allied troops fought off small but bitter Communist counterattacks along the 60-mile central Korean front.

There was no opposition as the Marines took Hoengsong itself, but they were stopped north of the ruined town by darkness and Communist fire.

Near Hongchon

Their drive put the Marines within 15 miles of Hongchon, key Chinese Red defense point.

On the east-central front, the U. S. Seventh division met stiffening Red opposition north of Amidong.

The U. S. Second division, west of the Seventh, fought from noon to nightfall for high ground north of the Hoengsong-Pangim lateral highway.

Elements of the Seventh Cavalry regiment held the high ground on the southern edge of Yongdu. From the hills its artillery pounded the town, which lies on a road to Hongchon, scene of the reported buildup for the next expected big Communist offensive.

Punch Toward Seoul

On the left (west) flank of the cavalry, the U. S. 24th division punched slowly but steadily ahead in the Yangpung area, 27 miles southeast of Seoul.

On the western flank of the allied line, elements of the U. S. Third division probed the outer defenses of Red-held Seoul.

Truman Sees Compromise With Labor

WASHINGTON, March 2 (AP)—The Truman administration today apparently decided on a cooling off period in an effort to end the labor leaders' "revolt" against mobilization policies.

The tip-off was cancellation of a statement by Charles E. Wilson, mobilization director. He had let it be known he would reply today to the attacks the union leaders made on him when they pulled their representatives out of the economic controls setup.

The administration appeared to believe the crisis could be compromised. President Truman indicated this yesterday when he said it is not very serious; just a disagreement.

The unions argue they have not been given enough voice in the program; that the program favors big business, and is unfair.

In the labor controversy, quiet also descended on the union front. The United Labor Policy committee scheduled its next meeting for Monday. It is composed of the AFL, CIO and railroad groups.

Aides of stabilization director Eric Johnston said they expect it will take ten days to two weeks to set up another wage board which labor may re-join.

Margiotti Bows Out Of State Service

HARRISBURG, March 2 (AP)—Charles J. Margiotti, long-time controversial figure in Pennsylvania politics, bowed out of state service again today to return to private law practice.

His departure from the Attorney General's office was a quiet one. It came about when Governor John S. Fine placed Deputy Attorney General Harrington Adams in charge of the office until newly appointed Attorney General Robert E. Woodside takes over his duties. He is expected to take the oath next week.

Russia To Propose All-German Council

BERLIN, March 2 (AP)—East European sources said tonight Russia will propose an all-German council to work out unification of Germany as its opening move in the Paris big four deputies meeting.

This idea has been advanced mainly by the East German Communist government in letters to the West German republic and the West German parliament in Bonn.

It fell on deaf ears because the Communist East demanded equal representation for its 19,000,000 population with anti-Communist West Germany, which has 48,000,000.

Nevertheless, the East German volkskammer (parliament) renewed the drive for such a council only today. A resolution was adopted urging East and West Germany to present a united front program to the Big Four. The proposals include a peace treaty this year, withdrawal of all occupation troops within a year after the signing, reuniting the nation, and disarmament.

The Big Four deputies, meeting Monday, are slated to outline what topics of East-West tension should be discussed by a possible Big Four foreign ministers' conference and not to decide policy matters.

But East German and satellite circles advanced the theory the Russians, headed by Deputy Forwill concentrate on German economic questions. It was announced officially in Bonn today that the United States, Britain, and France will give West Germany formal permission to set up a foreign office next Tuesday. This was based on an agreement by Chancellor Konrad Adenauer's cabinet to recognize responsibility for Germany's prewar debts. Revision of the occupation statute will modify a number of allied controls on West German political and economic activity.

Allied plans to rearm West Germans as part of the master defense against Communism have hit the Soviet Union like a body blow. Ending that move was a major aim of the Russians' original proposal last Nov. 3 for a new conference of the foreign ministers.

Lipman Reveals Threats In Fix

NEW YORK, March 2 (AP)—A story of threats of gangster-style shooting and drowning behind the college basketball fix scandal was revealed today with the 13th player arrest.

Both stories came from Louis Lipman, 26, a star of the Long Island university 1948-49 team.

He was released in \$1,000 bail on a charge of accepting a \$300 bribe for the Madison Square Garden game with Duquesne on Jan. 1, 1949. Duquesne won, 64-55.

Lipman told reporters that prior to that time he got into an argument with one of his teammates on a matter involved "in the scandal now going on."

"I wanted to get rough with one of the fellows," Lipman related, "and he said if I laid a finger on him he knew the right people who would put me in a sack and drop me in the river."

He did not identify the player nor the specific subject of the argument.
