

MacArthur Favors Use Of Nationalists

WASHINGTON, April 5—(AP)—Gen. Douglas MacArthur kicked over the administration traces again today by applauding a Republican leader's demand for the use of Chiang Kai-Shek's Nationalist troops to open a second front against the Communists in Asia.

He declared the demand made by Rep. Martin of Massachusetts, Republican leader of the House, is logical and in accord with the American tradition of "meeting force with maximum counter force."

The Administration is opposed to use of Chiang Kai-Shek's troops, now penned up on Formosa. The official position here is that they are needed for the defense of Formosa. Officials also say they want to prevent a spread of the present war beyond Korea.

In a letter to Rep. Martin, MacArthur declared:

"It seems strangely difficult for some to realize that here in Asia is where the Communist conspirators have elected to make their play for global conquest, and that we have joined the issue thus raised on the battlefield; that here we fight Europe's war with arms, while the diplomats there still fight it with words; that if we lose the war to Communism in Asia the fall of Europe is inevitable. Win it and Europe most probably would avoid war and yet preserve freedom. As you point out, we must win. There is no substitute for victory."

This placed MacArthur squarely in conflict with the theory held by administration officials that Europe, not Asia, is the major theater in the world-wide conflict with Communism.

MacArthur's letter was in reply to a letter from Martin, asking for the general's reaction to Martin's Brooklyn speech Sept. 12. At that time the Republican leader called for a second front on the Chinese mainland and use of Chiang's forces to set it up.

Adams Completes Educational Film

Dr. Clifford Adams, professor of psychology at the College, has completed work as educational collaborator for "Make Your Own Decisions," a new 16mm sound motion picture released this month.

As educational collaborator, Dr. Adams supervised production of the picture. He assisted script writers and production crews.

Dr. Adams is in charge of marriage counseling in the School of Education.

Numerous articles on this subject have been written by Dr. Adams. Two other Coronet films have been released for which Dr. Adams was educational collaborator.

Besides his post on the College faculty, Dr. Adams is also consulting psychologist on marriage problems for the Pennsylvania Civil Service commission.

He has been regional consultant for the American Institute of Family Relations. He has held this post since 1945.

The other two films Dr. Adams supervised are "Improve Your Personality" and "Planning For Success." Both of these films have been used in an educational capacity at the College.

Ag Engineer Society To Hold State Meeting

The Pennsylvania section of the American Society of Agricultural Engineers will hold its annual statewide meeting today and tomorrow at the College.

President Milton S. Eisenhower will be the principal speaker at a dinner to be held Saturday evening, ending the meeting. Alumni, students, and faculty members will attend the dinner.

Charles G. Burress, extension specialist in agricultural engineering, will preside at the meetings as chairman of the section.

Technical discussions on many mechanical aids in agriculture, recent research studies, and other new developments, will feature the program. Most of the research, teaching, and extension staff at the College will take part.

Israeli Planes Bomb Syrians For Revenge

TEL AVIV, Israel, Aug. 5—(AP)—Israeli war planes bombed Syrian troops southeast of the Sea of Galilee tonight in retaliation for the killing of seven Israeli policemen there. An official Israeli spokesman said the bombing was successful and that the Syrians did not return the fire.

(A Syrian army spokesman in Damascus said eight Israeli planes took part in an hour-long attack. Syrian armed forces struck back with heavy fire, he said, and possibly damaged two Israeli planes. He added there were no Syrian casualties.)

The Israeli spokesman said in announcing the attack that the Syrians had taken up fortified positions after invading a demilitarized border zone.

He described the bombing as a successful retaliation for the "cold blooded murder of seven Israeli policemen in this area yesterday."

"Positions bombed included the El Hamma police station within the demilitarized area and also a number of fortified positions a few meters inside Syrian territory proper, from where the Israeli policemen were fired on and killed," the spokesman said.

21 Republics OK Program

WASHINGTON, April 5—(AP)—The American Foreign Ministers conference virtually finished its work today by approving all points of a broad military and economic program designed to protect this hemisphere against aggression.

Briefly, this is what the 21 American republics voted to do:

Each country will build up its armed forces. Special units of these forces may be used both to protect the western hemisphere, and to support United Nations efforts elsewhere. Approval was unanimous on this touchy question.

Internal security will be strengthened by controls over spies, sabotage and communist activities in general.

Latin America will do all it can to increase production of vitally important raw materials needed for the rearmament program.

In return, the U.S. will grant them loans and long-term contracts to help certain domestic development programs, will try to keep scarce items moving south of the border, and whenever possible will consult with other countries when quotas and prices are fixed.

Home Ec—

(Continued from page two) men on Friday morning, April 13, Dr. Grace M. Henderson, dean of the School of Home Economics at Penn State, will serve as leader. Saturday afternoon, Dr. Schaal will conduct a meeting of the club representatives to summarize the sessions. A dinner for club representatives will be held Friday night.

Theme for the two-day program will be "Children and Youth in Our Homes." The theme was taken from the White House conference.

Exhibits, lectures, films, and demonstrations will be especially helpful to the club representatives planning programs for their communities, Dr. Henderson explained.

Argentines Claim Two Atom Finds

NEW YORK, April 5—(AP)—Argentina claims two discoveries in new ways to make Atomic power.

This is revealed in the verbatim report of Dr. Ronald Richter, as made to the Argentine press March 25, the day after President Peron announced the Atomic news. The report was received here today.

Dr. Richter does not explain either discovery, because of Argentine security orders. But he makes a number of broad, scientific statements which hint at his work. None of these contains anything which on its face is impossible.

One of the most surprising statements is that an A-Bomb would not explode if placed in his Argentine reactor. This assertion is not explained, but seems to mean that the A-Bomb materials would not react in the usual manner. This statement is brought in as an almost casual illustration of Richter's claim that his reactor is completely different from the American reactors.

He says Argentina can make an atom bomb, with the implication that he means by his new methods.

He says twice that American atomic scientists already may have found some of the facts which he is keeping secret, and that the Americans keep them secret for security reasons.

Big 4 Deputies Appear Closer To Agreement

PARIS, April 5—(AP)—A Western embassy official said the Big Four Deputy Foreign Ministers appeared closer tonight to agreement on the agenda for a proposed conference of their chiefs than at any time since they began meeting here March 5.

However, there are still some pretty wide gaps to be filled, this informant added, to complete the list of topics.

United States, British and French deputies were guests of Russia's Andrei Gromyko at luncheon in the Soviet embassy today. No announcement was made of what took place, but an authoritative source said "They covered a great deal of ground" in a frank, four-hour talk.

The discussion, conducted in English, substituted for the scheduled formal meeting at the Rose Palace.

Recalling that at least twice before the delegates have made progress following luncheons, one observer said it might be a good idea if they eliminated formal gatherings and talked only after food and drink.

The Western Powers and Russia are not too far apart on several issues which both sides feel the foreign ministers should discuss.

Both sides have been making what each described as "concessions" on minor points for two weeks now. However, there are subjects on which they continue apart.

Rearming West Germany still is the big issue.

The West says West Germany's rearmament is important to Western defense. Russia says West German rearmament will increase world tension.

Reds Convinced West Wants War

GERMANY, April 5—(AP)—A former Russian Army major said tonight the Kremlin is beginning to convince the Russian people that the West wants war.

Gregori Limkov, who fled his post in East Germany as a military administration officer, said efforts of the Western radio to reach Russia's man on the street are not strong enough to stand up under daily barrages of Soviet propaganda.

Spies Get Death Penalty For Wartime Treachery

NEW YORK, April 5 (AP)—A wartime husband and wife atom spy team was sentenced to death today—the first Americans in the nation's history so doomed for such treachery.

They are Julius Rosenberg and his wife Ethel, who ferreted out A-Bomb secrets for a Russian-bossed international spy ring.

Military courts have sentenced native American spies to death in the past but a civil court never has.

A third defendant, radar expert Morton Sobell, was convicted with the Rosenbergs. But he escaped the death penalty and got 30 years in prison instead.

In a grave but stirring lecture, sentencing Judge Irving R. Kaufman said the Rosenbergs' treason in his own opinion—led to the war in Korea.

The result, he added, has been 50,000 American casualties already. Moreover, he said, their crime may yet doom to flaming atomic death millions more innocent citizens.

"By your betrayal you undoubtedly have altered the course of history to the disadvantage of our country, Judge Kaufman told the Rosenbergs.

The death sentence, Judge

Kaufman said, must "demonstrate with finality that this nation's security must remain inviolate—that traffic in military secrets, whether promoted by slavish devotion to a foreign ideology or by a desire for monetary gains must cease."

He set the week of May 21 for the executions.

However, both Rosenbergs have said they will appeal their jury conviction of last week. Such an appeal could delay their execution for many months and might even save their lives if successful.

The third defendant, Morton Sobell, 34, drew the maximum prison sentence—30 years. Judge Kaufman—admitting Sobell's lesser guilt—nevertheless recommended that he not be paroled and that he serve the full term.

Judge Kaufman put off until tomorrow the sentencing of Mrs. Rosenberg's brother, David Greenglass, 29-year-old former Army sergeant.

He confessed his part in the traitorous wartime spy plot and became a star government witness against his sister. His witness stand evidence was a dramatic highlight of the trial, pitting as it did brother against sister.

Cabinet—

(Continued from page one) oratory. Last year's carnival was located on South Allen street.

Orientation Report
More than 700 men and almost 600 women have enrolled for the fall semester, David Ludwig, chairman of the Orientation week committee reported.

Committee appointments went to Earl Baker, and Ronald Thorp, elections committee; Nancy George, Robert Sharetts, Clarke Young, and Harry Kondourajian, chairman, service key committee; Charlotte McIntire, Emerson Jones, Richard Bard, Marlin Brenner, and Ludwig, chairman, outstanding seniors committee.

Florenz Fenton was appointed editor of the student government publications, and Robert Leyburn business manager.

Bard was reappointed chairman of the lawn display committee. Others appointed were Joan Wentzel, Miss George, and Harold Leinbach.

James Worth, chairman of the activities card committee made a final report to cabinet on the card file which has been set up in the dean of men's office.

Worth asked cabinet to send letters to all campus organizations, requesting them to send membership lists in to Student Union desk so that the files may be completed.

Soccer—

(Continued from page one) today.

The team arrived at La Guardia field at 7:05 a.m. yesterday after making stops in Zurich, Rome, Paris, Shannon, and Newfoundland. The Lions spent 20 hours sightseeing in Rome.

Jeffrey described the play of the Iranian teams as excellent. The Nittanians won one of the three games played with teams from three Iranian cities.

Boxing—

(Continued from page one) far.

Both men stood toe to toe and slugged for all they were worth throughout the three rounds. Two of the judges gave the bout to Orsak, while the third voted for Albarano.

Marino Loses Decision

The other Penn State entry, 125-lb. Sam Marino dropped a unanimous decision to Frank Echevarria of Idaho.

The Idaho champion is current Pacific Coast conference and Northwest Invitational titlist. Marino used effective counter punching in the first two rounds, but tired in the latter stages, as the more experienced Echevarria kept boring in. Echevarria is not a newcomer to the tourney having lost to Minnesota's Neil Ofsuth in last year's preliminaries.
