

## Hereford Preps For Show

NANCY HARTMAN, sophomore in the School of Liberal Arts, brushes "Spring Valley Benefactress," three-year-old Hereford cow, in preparation for Saturday's Little International Livestock show. Nancy, who has never before shown an animal, will show the Hereford in Saturday's competition.

## College Livestock Show To Feature 3 Herdsires

Herdsires of three beef breeds will be shown to the public for the first time in many years Saturday in the College's 1951 Little International Livestock exposition.

Three bulls, 2 Hereford, an Angus, and a Shorthorn, are being fitted and will be shown by students who are working part-time in the beef cattle barn, Daniel Pierce, show publicity chairman, said yesterday. This part of the show will award no prizes.

The bulls have been purchased within the last year by means of a special state appropriation for livestock improvement at the College. Students who will show the bulls are Philip Houston, Dwight Younkin, Adam Kois, Kenneth Sossong, Walter Welker, and William Waters.

The Angus, "Quality Bardolier B No. 2," was top bull in 1949 at the Iowa and Oklahoma State fairs, and high in his class at the International Livestock exposition in Chicago.

"Edelyn Royal Leader 101st," Shorthorn, was a member of undefeated three-bull groups wherever shown and top Shorthorn bull at the Wisconsin State fair in 1949.

The Hereford, "Hillcrest Larry 29th," is the son of the 1947 international Grand champion Hereford bull.

## Research Chemist To Give Lecture

"Some Aspects of the Fine Chemicals Industry" will be the subject of a lecture given by Roger A. Hoffman, research chemist on pharmaceuticals, at the 175th meeting of the central Pennsylvania section of the American Chemical society.

Hoffman will speak at 8 o'clock tonight in the Chemistry lecture room at Bucknell university.

The society was founded by a group of chemists which met at Northumberland in 1874, the centennial anniversary of the discovery of oxygen by Joseph Priestly.

## Murphy To Address Accounting Club Tonight

Charles E. Murphy, assistant staff manager of the Corporation Audit division, General Accounting office, will speak to the Penn State Accounting club tonight at 8 o'clock in 312 Sparks.

Murphy will center his talk on audit procedures used by the United States government. He will explain the necessary training and background for such jobs. The meeting is open to the public.

## KPK Meets Tonight

Kappa Phi Kappa, men's professional education fraternity, will meet tonight at 7:30 o'clock in 303 Willard hall.

Following the election of officers for next year, Prof. R. O. Gallington will speak to the group on "The Role of Industrial Arts in General Education."

## Soph To Attend Speech Tourney

Faculty members of the Speech department selected James Course, sophomore in civil engineering, to represent the College at the ninth annual Tournament of Orators sponsored by the New York Journal American.

Course, chosen by elimination contest from four other competitors, will deliver a six-minute eulogy to George Washington at the district contest to be held tomorrow at Fordham university. If he is not eliminated at that contest, Course will next speak at the final eastern division contest May 11 at the Metropolitan opera house. The eastern and western champions will then meet in Los Angeles, to determine the national winner.

Dr. Iline Fife, assistant professor of speech, will accompany Course to the district contest.

## 9 Degrees Given To FBLA Members

The Future Business Leaders of America at a meeting Tuesday night elected six members to supervisory degrees and three to assistant degrees, John Beiter, president of the club reported.

The members elected to supervisory degrees were: Shirley Richards, Nicholas Mellon, Joseph Gronick, Dorothy Green, Frank Pelkey, and Joanne Daubenspeck.

Assistant degrees were given the following: Evelyn Stuban, Barbara Waska, and John Barons.

There was also a panel discussion by four student teachers who talked on problems incurred during their student teacher experiences of last semester in the field of business and distributive education, Beiter said.

## Pearson To Lecture On Isotopic Research

Dr. Paul S. Pearson, biological section head of the Atomic Energy commission will speak on isotopic research tomorrow in 103 Agriculture.

Dr. Pearson will conduct two sessions, the first at 10 o'clock, in which he will discuss isotopic effects on tissues or the utilization of isotopes as tracer material in studies in animal nutrition and metabolism.

In the second session at 4:30 p.m. in 109 Agriculture, Dr. Pearson will show a film on radio isotopes. The meetings are open to all interested juniors, seniors and graduate students.

## Draft Status Muddled-Pros.

President Milton S. Eisenhower said yesterday that the draft status of college students is utterly muddled.

"There has been nothing but confusion for the past six months with the signals changing weekly," the President said while on a visit to Lancaster, according to the Associated Press.

He gave his qualified approval to the present plan of deferring some students on the basis of class standing and scores on aptitude tests which will be taken in the next few months.

## Denmark, Italy Offer Studies For Americans

Three foreign colleges are offering opportunities for five American graduate students to study abroad. The courses are offered through the Institute of International Education.

The government of Denmark, in an effort to increase mutual understanding between the U.S. and Denmark, has offered to finance a year's study in a Danish university next year for three Americans.

The Collegio Chislieri and the Collegio Borromeo in Pavia, Italy, are each offering a fellowship for an American graduate student for the academic year November, 1951 to July 15, 1952.

Candidates for the fellowships must have a Bachelor's degree.

Students accepting the Danish scholarships are expected to arrive in Denmark early in August 1951 for the orientation courses. Those who can prove they have some knowledge of Danish, Norwegian or Swedish, or medical doctors who wish to take part in specialized studies at a hospital or scientific institute, are not required to participate in the orientation courses. Study will begin early in September and will continue to the end of March, 1952.

Because the Italian colleges are residential, only men, preferably under 30 years of age, should apply.

Applications and further information may be obtained from the Institute of International Education, U.S. Student Program, 2 West 45th Street, New York, 19, N. Y.

Applications for the Danish fellowships must be filed no later than May 8, 1951. May 25 is the final date for applications for the Italian colleges.

## Veterans To Receive 2nd Check Refund

The second refund of veterans' book checks for the spring semester will be made at the Bursar's office, in Willard hall tomorrow, Richard H. Baker, veteran's affairs coordinator, announced yesterday.

## PSCA To Sponsor Old Time Auction

By MOYLAN MILLS

The "old-fashioned" auction which the Penn State Christian association will sponsor Saturday afternoon is an innovation in itself, but it will also feature some of the strangest talents, services, and items ever put up for sale anywhere.

Henry W. Yeagley, associate physics professor, has promised to hold the world on his head for the highest bidder. A live lamb, complete with a big, blue ribbon around its neck, will be auctioned off by Dr. and Mrs. W. L. Henning. Dr. Henning, professor of animal husbandry, said the lamb would be all set for lamb stew or chops.

Eisenhower "Surprise Package" President Milton S. Eisenhower will have a "surprise package" for one of the lucky bidders, according to Mrs. Eisenhower, speaking for her husband who is out of town. Antes Motor Sales company will donate a car to the proceedings and Hardy Williams, recently elected secretary-treasurer of the Athletic association, will auction himself off as a date to a high bidding female.

The auction, probably the first ever held on campus, is scheduled to take place 2 p.m. Saturday afternoon in the TUB. John Cox will be the auctioneer. Four categories are included in the affair. They are services and talents of professors and students, large "white elephants," small items, and surprise packages (continued on page eight)

## Craine Elected Council Head

The Chem-Phys council last night elected Bryson Craine president of the council and representative to All-College cabinet. Donald Furlong was elected vice-president and James Plyler, secretary-treasurer.

Students who will run for council in the elections to be held Tuesday and Wednesday will be elected according to the number needed in each of the six curricula. The numbers required for the council are: juniors, one in chemical engineering, two for pre-med, and one in physics; sophomores, one in chemical engineering, one in chemistry, one in physics, and two in pre-med; freshman, one in chemical engineering, one in chemistry, one in pre-med, and one in science or physics.

A change in the council constitution was made recently in which the council agreed to allow one year representation by a member of any Chem-Phys society having at least 30 active members of which 75 per cent are undergraduates.

Groups which will receive representation are the Penn State student chapter of the American Institute of Chemical Engineers, the Penn State chapter of the American Chemical society, and the Pre-Medical society.

Council appointed William Hockersmith to represent the council in the Alpha Phi Omega ugly man contest.

## Charter Granted To Radio Workshop

The Radio Workshop, organized April 5 under the direction of Professors D. R. Mackey and H. E. Nelson of the Speech department, has received a charter from the College and will be officially known as the Penn State Radio guild.

The aim of the guild is to meet, discuss, and decide problems of radio. Election of officers was held, and the positions are the same as in an actual broadcasting setup: station manager, Ronald Wahl; chief announcer, Paul Reinhardt; chief engineer, William Schott.

Since then, the group has divided itself according to its individual interests and the following group chairmen were elected: Production dept., Ray Galant and Pat Hathaway; Acting department, Shirley Gallagher; Script department, Julian Cook; and Public Relations & Publicity, Joan Eideman.

The group is open to anyone who has an interest in the management, performance, or non-performance aspects of radio. At the present time, there are about 50 students working in all fields of radio in the guild.

"The big turnout at the meetings shows a definite need for an outlet such as the guild to bring out the talents of these interested people," Ron Wahl, station manager, said.

Everyone is invited to attend the meeting tonight at 7 o'clock in 304 Sparks, he added.

## Gift Ballot To Appear In Collegian

The seven possibilities for the senior class gift will appear on a preferential ballot in Wednesday's Collegian.

Seniors may cast their ballots for the method of spending \$8000 in Old Main Monday through Friday.

The Senior class gift committee of Otto Grupp, William Barr, Jo Ann Esterly and Joseph Lenchner chose the best seven suggestions from all those submitted.

The suggestions include a grid-iron statue, an ambulance, a gate at the junction of route 322 and Pollock road, a student press, a scholarship fund, a campus radio station and a piano.

20 Year Scholarship Plan The \$8000 would be invested to accrue interest for 20 years for the scholarship fund. Beginning in 1971 the College would give the scholarships to children of members of the class of '51 with the highest averages and the most need. After 1991 the recipient would not have to be a child of a '51 graduate.

The money for a campus radio station would be used to run wires into living units and for operation expenses. If this plan were chosen, it could go into effect this spring.

Called Wired Wireless Called wired wireless, the system would have wires from the station to dormitories, fraternity houses and other living places. Any radio within 250 feet of the wire could pick up the broadcast.

Many schools of this size have set up their own stations which are under student jurisdiction.

A concert type grand piano for Schwab would cost about \$5000.

## Newman Club Holds Elections

John Feeney was chosen president of the Newman club at a business meeting Tuesday night. Other officers elected were Geraldine Lalli, vice-president; Bernadine Mietas, secretary; and James Duke, treasurer.

These officers will preside at the next club meeting to be held in two weeks.

About 15 members of the Newman club will represent the local chapter of Newman clubs at the middle Atlantic Province conference of Newman clubs at Temple university this weekend.

At the convention each club in the province will report on its activities for the past year and discuss plans for next year.

## Musicale To Be Held Tonight In Simmons

The Simmons Musicale will be held tonight at 7:30 o'clock in Simmons lounge.

Long-playing records to be played are Haydn's Symphony No. 101 in D Major (The Clock), Brahms' Variations on a Theme by Haydn, Prokofieff's Symphony No. 5, and Wagner's "Prelude" and "Liebstod" from "Tristan and Isolde."

The Musicale is open to students and faculty.

## NSA To Get Reports On Committee Activity

Reports of committee progress will be given at the National Student association meeting tonight at 7 o'clock in 233 Sparks.

David Fitzcharles, acting chairman, will give a report on the regional meeting held last week.
