

Students To Attend Conclave On Gov't

Eight student leaders will be delegates to a student government convention sponsored by the National Student association this weekend at Muhlenberg college, Allentown.

The delegates will be the newly elected All-College officers: James Worth, president; Harry Cover, vice-president; and Thomas Jurchak, secretary-treasurer. Also attending will be David Olmsted,

senior class president; Joseph Haines, junior class president; William Bair, sophomore class president; Gerald Maurey, freshman class president; and Edward Shanken, Liberal Arts student council president.

William Klisanin, NSA chairman, will present a platform for cooperative techniques in student government in the discussion on "How Student Government."

Kondourajian To Speak

Harry Kondourajian, All-College vice-president, will participate in the panel discussion, "Why Student Government?" He will also address the panel, which will be composed of representatives from the administrations, faculties and student governments.

In the afternoon there will be a panel discussion which will break up into small discussion groups. Specialized meetings for student government presidents, class presidents, and others will be held in the evening.

On Sunday each college will set up a display. The College's, set up by Klisanin, will be a breakdown of All-College cabinet and some Penn State publications, including those published by the student government, the Penn State Christian association, the Interfraternity council, Panhellenic council, Women's Student Government association, Collegian and Froth.

Perkins To Attend

H. W. Perkins, assistant dean of men, also expects to attend.

About 175 delegates from 24 schools will attend. Some of the participating colleges are the University of Pennsylvania, Temple university, Muhlenberg college, Lehigh university, Seton Hill college, Pennsylvania College for Women, Bryn Mawr college and Beaver college.

Glenn To Chair Panel

Dr. Herbert R. Glenn, College Health Service director, will be chairman of the panel discussing "Administrative Problems of Health Services in Large Educational Institutions" at the annual meeting of the American College Health association in Chicago Thursday.

Oddities, Fascinating Buildings On Ag Hill

By BETTIE LOUX

The School of Agriculture can claim more buildings to its credit than any other school on campus, for there are 15 major structures on Ag hill devoted to classroom and practical work in agricultural engineering, economics, education and chemistry, forestry and wood utilization, agronomy, animal, dairy and poultry husbandry, botany, horticulture, and pre-veterinary.

One of the oldest of these buildings is the Agricultural Education building, originally erected as the experiment station in 1888. In the basement is a wild-life museum of stuffed birds and mammals.

A respiration calorimeter, used for animal nutrition research, is in the basement of the Agriculture Building. This calorimeter is the only one in the world providing for direct measurement of heat production of large farm animals.

Dairy Research

Research in methods of producing ice cream and milk products is carried out in the Dairy building. Display cases show products that are derived from milk, such as lactic acid, poultry feed and albumin. Brightly-colored penholders, buttons and buckles made from Kraft's Casophane—a plastic made from the casein of milk—are shown, in addition to wood made from rennet casein.

Teaching and research in farm machinery and power, electricity

age, and farm water systems are conducted in the Ag Engineering building.

Looking much like a Roman coliseum from the outside, the Stock Judging pavilion is used for shows of farm animals, etc.

The greenhouses west of the Dairy building are used for class work in breeding and propagating flowers. The night temperature is kept at 60 degrees, and it varies during the day according to the amount of sunlight.

Herds of purebred Angus, Hereford, and Shorthorn cattle are housed in the beef cattle barns for class work and experiments in feeding, breeding and management. The sheep barn houses several hundred sheep, seven breeds in all.

Five breeds of dairy cows—Holstein, Brown Swiss, Guernsey, Jersey, and Ayrshire are housed in the barn across from the Dairy building. Over 300 head of registered animals provide facilities for practice in cattle judging, feeding and management.

The poultry plan has facilities for housing 3200 chickens, brood-

'The Linesman'

Statue Senior Gift Suggestion

"The Linesman," a statue in red Swedish granite, is one of the seven possibilities for the senior class gift.

The Statue sculptured by William Zorach was made for the Olympic games in Los Angeles. It is a little larger than life size, "Dahlov," a bronze sculpture by Zorach, is now on display in the balcony of the lobby in Old Main.

H. E. Dickson, professor of Fine Arts, has called the statue a major work by a major artist. It will cost \$5000.

An ambulance has also been suggested as a class gift. It would be used by the infirmary and for emergency cases.

Seniors will cast preferential ballots next week to choose their class gift from a list of seven possibilities chosen by the class gift committee of Otto Grupp, William Barr, Jo Ann Esterly and Joseph Lechner.

The other suggestions are a gate at the intersection of route 322 and Pollock road, a grand piano for Schwab, a campus radio station, a student press and a scholarship fund.

Nat'l Home Week Program Planned

"Our Responsibility Toward Children and Youth" is Pennsylvania's theme for National Home Demonstration week, starting Sunday and running to May 5. Homemakers taking part in the agricultural and home economics extension program will help observe this special week, according to Miss Lydia Tarrant, in charge of home economics extensions in Pennsylvania.

Sixty-four of the 67 counties will hold a spring homemakers' day. Committees for these days have planned programs around the theme for the week.

Besides participating in talks and discussions, homemakers will exhibit some of the work they have accomplished through their participation in extension.

ing 12,000 chicks, hatching 35,000 eggs yearly, and grading and shipping 30,000 dozen eggs each year. Twenty-five hundred turkeys are also reared.

The Horticulture building contains offices for the Departments of Agricultural Economics and Rural Sociology, and Poultry Husbandry. On the top floor are the photographic studios of the Ag school.

Patterson Hall

Patterson hall, one of the oldest buildings on campus, was named for one of the early superintendents of farms, William C. Patterson. It was originally constructed as a creamery, and now houses the Agricultural Library.

The recently-completed Plant Industries building contains laboratories and classrooms for work in crops, soils, fruits and vegetables, ornamental horticulture, and floriculture.

3500 Men Apply For Draft Test

Nearly 3,500 students at the College have applied for the Selective Service qualifications test, but, 2,000 other students eligible for call under the Selective Service have not yet filed application forms.

Although the Selective Service representatives spent three days at the College to assist the students with the forms, the forms are still

H.S. Pupils To Attend Press Talks

Students associated with high school publications throughout the state will attend the State High School Press convention being held at the College tomorrow.

The conventions began in 1931 and have been held at the College annually since then.

Registration of the convention delegates will be conducted at the Daily Collegian business office by members of Theta Sigma Phi and Sigma Delta Chi, women's and men's national journalism fraternities.

President Milton S. Eisenhower will address the students at the opening convocation tomorrow morning at 11 o'clock in 121 Sparks. John Dalbor, Norma Gleghorn, and Edwin Singel, presidents of the College journalism and advertising fraternities, will welcome the delegates.

Various discussion groups will be conducted to consider problems confronting high school publications.

Prof. Franklin Banner, head of the Journalism department, will be chairman at the general closing session Saturday afternoon in Schwab auditorium. At this time several awards will be presented: Sigma Delta Chi certificates of merit for excellence in news; Alpha Delta Sigma certificates for excellence in advertising; and two freshman scholarships to the Department of Journalism.

Professor Banner will give a short personal experience talk, "Safari into South African Jungles." Musical entertainment will be provided by several groups at the College.

Male Ugliers Gain Fame

Potential Boris Karloffs on campus now have a chance to attain recognition greater than any offered by honoraries or hat societies.

Alpha Phi Omega, service fraternity, is sponsoring the "Ugly Man" contest as part of the annual Spring Week festivities. The entire College will be able to vote for the "Ugly Man" on Spring carnival night, May 17. The winner will receive his prize the following night at Senior ball.

At other schools, where the contest flourishes, it has been the custom to nominate only the most outstanding men on campus. Therefore, contest chairman William Slepik has asked every fraternity, sorority, student council, and dorm council at Penn State to nominate its most outstanding member.

Women's organizations may nominate any outstanding man. All nominations must be made by sending the man's picture and name to the Student Union desk in Old Main no later than 5 p.m. Tuesday.

available through the Local Board in Bellefonte or the Local Board in the home community of the student, it was explained. Each man, however, must call in person at the office of a Local Board in order to obtain the forms. The Board in Bellefonte is open daily from 8 a.m. to 12 noon and 1 p.m. to 5 p.m., but is closed on Saturday and Sunday.

It was reported by Mildred C. Wetzel, of Local Board 44, Bellefonte, yesterday that during the three days the Board members visited the campus, a total of 3425 cards were issued to students. Since that time some students went to the office in Bellefonte, she said.

According to officials at the College, there are nearly 5400 non-veteran men enrolled on the main campus, indicating that about 2000 men students have yet to file applications. It is estimated, however, that 900 of these are non-veteran graduating seniors.

While Washington continues to debate the manner in which the qualifications test will be employed, students throughout the country are being advised to file applications for permission to take the test which will be given in hundreds of cities, including State College, on May 26, June 16, and June 30. The student, however, must specify the date and city where he desires to take the test on the application.

It was pointed out again yesterday by Dr. H. K. Wilson, dean of men at the College, that students should not overlook the importance of filing application for the test. Students now deferred under the ROTC programs and who are under 18 years of age should enroll for the test if they have hopes of seeking deferment under the Selective Service Act, he said.

Men who are enrolled as college students and are under 26 years of age, regardless of whether they are graduates or undergraduates, are advised by the regulation to apply for the test.

Student Gives NSA Report

A report on the regional National Student association convention at Swarthmore was given at the NSA meeting last night by David Fitzcharles, acting NSA chairman.

Fitzcharles, substituting for Murray Goldman as sub-regional chairman, and William Klisanin, NSA chairman and regional vice-president, represented the College at the convention.

The next regional conference will be held June 10-12 at Camp Hilltop, near Donnetown. The purpose of the conference will be to train next year's NSA leaders. Panels and small groups will discuss current issues.

Letters have been sent to the Pennsylvania legislature to find a convenient time for the absentee voting committee to present its petition legalizing absentee voting to the legislature.

Leonard Wargo, chairman of the Work, Study and Travel Abroad committee, reported that the pamphlet "Work, Study, Travel Abroad, 1951" is on sale at the Student Union desk in Old Main.
