STATE COLLEGE, PA., TUESDAY MORNING, MAY 8, 1951

PRICE FIVE CENTS

Riding Club Takes Horse Show Trophy

The Riding Club's Annual Horse Show saw Penn State capture the trophy given to the winning team.

Using College-owned horses, Penn State's riders accumulated 831½ points out of a possible 900. Mrs. Milton S. Eisenhower presented the challenge trophy to the College team.

Penn Hall came in second with a score of 804½ points and Grier School, near Tyrone, placed third with 461 points.

Each of the team riders could receive a possible score of 100 points for each of the three phases of the event. Only the scores of the top three riders from each team were counted in the final results, making the total possible score of 900.

Margaret Warner, president of the Riding Club was the highest individual scorer with 289 points out of a possible 300. Miss Warner rode White Star. Edna Grabiak, riding Gretchen, placed second with 282 points. Patricia Seman, on Roman soldier, came in third with 274½ points and Dana Manaham, on Tufelstanz, finished fourth with 272 points.

A feature of Saturday afternoon's show was the exhibition held by six mounted policemen from the Wyoming Barracks. Figure eights, side-stepping, and a simple dance step were executed by the horses.

Modified three-day Olympic rules governed the intercollegiate competition.

Debate Team Closes Season With 2 Contests

The College men's debate team will close its season with two inter-squad contests tomorrow and next Tuesday and Wednesday.

Members of the team will compete at 7 tomorrow night in 305 Sparks in an inter-squad address reading contest. Each speaker will be allowed four minutes to give extemporaneous address reading. The two first place winners will receive silver gavels.

Next Tuesday and Wednesday at 7 p.m. in 305 Sparks, the team will compete in an inter-squad public speaking contest on the question "What steps, if any, should be taken towards forming a new international organization."

First round eliminations will be held Tuesday and finals will follow on Wednesday. Participants will have a ten-minute time limit. The two winners will receive gold gavels.

This year's national intercollegiate debate question was "Resolved: That the non-communist nations should form a new international organization."

Both inter-squad contests will be open to the public.

Building Ban May Affect Future SU

The recent government edict by the National Production Authority to control luxury dwellings, "may or may not" affect the College's proposed Student Union building, Physical Plant Director, Walter Wiegand said yesterday.

Director Wiegand explained that he "doesn't think" the NPA ban will stop plans for the SU building but added that the matter is quite "uncertain" as yet.

The NPA ruling curtails all future construction costing over \$35,000. It also stops building of big apartments, factories, and public buildings requiring more than 25 tons of steel.

With the critical nature of the steel situation increasing, only schools and hospitals are likely to get the NPA approval necessary for future construction.

FOX TO SPEAK

John A. Fox, instructor in aeronautical engineering, will speak on "Non-Linear Vibrations" at 3 p.m. today in 102 Engineering A.

MacArthur's Korea Peace Bid Blasted

WASHINGTON, May 7 (AP)—Secretary of Defense Marshall told Senators today that Gen. Douglas MacArthur's peace appeal to the enemy last March destroyed for the time being any chances of a Korean War settlement.

He said the United Nations was preparing an announcement of preparations to discuss a war settlement when MacArthur issued a statement on March 24 that he was ready to talk peace terms with the Red commander in Korea.

"In view of the serious impact of Gen. MacArthur's statement on the negotiations of these nations," Marshall said, "it became necessary to abandon the effort."

Marshall made this statement after declaring that MacArthur's war plans would risk an all-out war with Russia, expose Europe to attack, and perhaps split the free world into two camps.

But he hinted this country will hit Red China by air and sea if the Reds strike at American forces outside Korea, presumably those in Japan and with the 7th Fleet off Formosa.

He said he did not believe that bombing Chinese bases in Manchuria will bring victory in Korea. And he added that while MacArthur never violated military campaign directives—he did violate orders against public statements.

Marshall told the joint Senate committees:

1. The U.S. is discussing with UN allies a possible naval blockade of Red China's coast.
2. The administration opposes Red China's entry into the UN or giving the Communists control of the island of Formosa.
3. MacArthur was fired because his "basic differences of judgment" with the President, himself, and the Joint Chiefs had caused them to doubt his command decision.

Prexy Eisenhower Goes The Limit

Prexy Milton S. Eisenhower had his first day off in ten months Sunday and he put the time to good use.

Fishing with Dr. Carl P. Schott, dean of the School of Physical Education, and George M. Harvey, assistant professor of physical education, the Prexy bagged his limit of ten for the day.

Included in the Prexy's haul was an 18-inch trout.

Changes Read To WD Council

By DAVE JONES

The West Dorm Council last night heard and approved the first reading of four amendments to its constitution and turned down a fifth. The amendments will be referred to the election districts and will be read a second time at the council's meeting next Monday night.

Those amendments approved would:

1. Include council officers in the voting membership of the council and allow them to retain three district offices.
 2. Allow executive committee

Brewster Will Head Political Science

Dr. R. Wallace Brewster, professor of political science at the College, has been named head of the Department of Political Science. The change will take effect July 1.

The appointment was approved at a meeting of the Executive Committee of the Board of Trustees Saturday.

The change was in accordance with a rotation system which was put into effect three years ago when Dr. M. Nelson McGeary was chosen department head for a three-year period. Dr. Brewster will replace McGeary.

Sabbaticals were approved for Dr. John Ferguson, professor of Political Science, John D. Lawther, professor of physical education and Dr. Isador M. Sheffer, professor of mathematics, all for the fall semester of 1951-52.

Leaves Of Absence

Leaves were also granted to Dr. Alexander H. Zerban, professor of mechanical engineering, July 16 to June 30, 1952; Dr. John M. Kelso, associate professor of engineering research, August 1 to July 30, 1952; Dr. John A. Sauer, professor and head of the Department of Engineering Mechanics, July 1 to August 31, 1951; Dr. George E. Murphy, associate professor of education and director of the Reading Clinic, July 1 to June 30, 1952; and Dr. Wayne A. Lee, associate professor of marketing, May to June 20, 1951.

Ferguson will conduct research on arms control at the United Nations in New York and in Washington. Lawther will conduct a basketball coaching project in Mexico. Sheffer will do research.

Zerban, a commander in the

U.S. Naval Reserve, will return to active duty with the Navy, and Kelso will conduct research on radio propagation at the Chalmers University of Technology, Gothenburg, Sweden. He will be involved in an exchange project with Prof. Rune Lindquist, of Chalmers University of Technology, who will conduct research at Penn State.

Will Visit Japan

Sauer will be one of 15 engineers to go to Japan on an engineering education mission, while Murphy will participate in a citizenship project to be sponsored by the Carnegie Foundation at Teachers College, Columbia University.

Lee will serve as an economic consultant with the fruit and vegetable branch of the Office of Price Stabilization, Washington, D.C.

The Executive Committee also approved extensions of one year to leaves for James F. Keim, associate professor of agricultural extension; Dr. Paul R. Beall, associate professor of speech; Kalman J. DeJuhasz, professor of engineering research; Dr. Charles A. Rupp, professor of mathematics; and Dr. Paul H. Wueller, professor of economics.

Engineering Dean To Leave College Next September

Dr. Harry P. Hammond, dean of the School of Engineering, will retire with emeritus rank on September 1. He will be succeeded by Dr. Eric A. Walker, director of the Ordnance Research Laboratory and head of the Department of Electrical Engineering, President Milton S. Eisenhower announced yesterday.

Dr. Walker, formerly associate director of the Harvard Underwater Sound Laboratory, came to the College when the Navy Department established the ordnance research laboratory here in 1945. He has served as director of the laboratory and has also held the position of professor and lead of the Department of Electrical Engineering since that time.

Succeeded Sackett

Dean Hammond came to the College in September, 1937, when he succeeded the late Robert L. Sackett as dean of the school. At that time enrollment in the School of Engineering was about 1000, including off-campus freshman. Today the number of students has passed 2500. In addition to the enrollment increase the research program in the School of Engineering has enlarged during Dean Hammond's 14 years at Penn State.

In recognition of Dean Hammond's accomplishments he received two outstanding awards while at the College. In 1945 he was the recipient of the Lamme Award, the highest honor in the field of engineering education. Last year he was presented the James H. McGraw Award in Technical Institute Education by the American Society for Engineering Education.

A native of Asbury Park, New Jersey, Dean Hammond attended the University of Pennsylvania where he received a bachelor of

Dance Group To Present Spring Show

The Modern Dance Group will present its Spring Recital in White Hall 8 p.m. tomorrow, Thursday, and Saturday.

The concert, which is part of the Combined Arts Festival, will consist of three sections. The first is a Biblical Suite including "Twenty-third Psalm" and "Go Down Moses," — group numbers; "Jeremiah's Lamentations," a solo by Miss Dorothy Briant; and "Solomon's Prayer," a solo by Betty Jane Strom.

"Alice In Wonderland"
The second part will consist of sketches from Alice in Wonderland including "Jabberwocky," "Mad Tea Party," "Tweedledee and Tweedledum," "Lobster Quadrille," and "Jack of Hearts." Joan Wiley, portraying the part of Alice, will open this section with the solo, "Alice's Dream."

The third section, "Dances Across Canvases," will depict interpretations of pictures through dance. These include "Manhattan Skyline," "Pastel Portraits," and "Steel Jungle," group numbers; "Nuance," a duet by Phyllis Sones and Miss Briant; and "Perspective," a solo by Michaline Claysmith.

Group Members

Members of the group are Phyllis Auerbach, Roselyn Beard, Ethel Brady, Michaline Claysmith, Eugenie Deger, Bernadine Fulton, Sonia Goldstein, Pat Hale, Dorothy Hemphill, Sally Jones, Peg Mayberry, Marilyn McComb, Katherine Nicoll, Phyllis Sones, Betty Jane Strom, Florence Tieta, Pat Wertz, and Joan Wiley.

Shanken Elected Committee Head

Edward Shanken, president of the Liberal Arts Student Council, was elected president of the Inter-Student Council Committee at its meeting last night.

Other members of the committee are David Stabler, Agriculture; Ralph Egolf, Education; Millard Rehburg, Mineral Industries; Charles Falzone, Engineering; Bryson Craine, Chemistry and Physics; Betty Anders, Home Economics; and William Mihalick, Physical Education.

Mack To Give Priestley Talk

Dr. Pauline Beery Mack, director of the Ellen H. Richards Institute, will deliver the second of the silver anniversary series of Priestley lectures 7:30 tonight in 119 Osmond Laboratory.

Dr. Charles W. Stoddart, dean emeritus of the School of Liberal Arts will introduce Dr. Mack, who will discuss "The Contributions and Potentialities of Household Chemistry."

Dr. Mack has been director of the Ellen H. Richards Institute since its organization in 1940. The studies of the institute include chemistry of foods and nutrition, chemistry of textiles and detergents, and chemistry and physics of household equipment and materials.

From her work with this organization, Dr. Mack has developed her theories in the calcium chemistry of bone density, for which she was awarded the Garvan Medal last year.

Committee Named For Class Night

Herbert Stein and Walter Miller will head the committee for class night to be held June 10 in Recreation Hall, John Erickson, senior class president, announced yesterday.

Leonard Abrams, David Ludwig, David Schuckler, Barbara Sprengle, and Ella Louise Williams are also on the committee.

Elections for men's honors will be held later this month. The honors include spoon man, barrel man, cane man, pipe orator, and class donor. Women's honors are bow girl, sinner girl, fan girl, mirror girl, class donor, and class poet.

The class valediction will speak, and the class gift will be formally presented.
