

# Dairy Exposition Set For Today

The Penn State Dairy Exposition will open today with the parading of 72 dairy cattle in the stock pavilion, A. H. Imhof, assistant in agricultural journalism, said.

The show is being dedicated to Prof. Robert H. Olmstead, director of dairy extension, for his outstanding work in the Dairy Department of the College.

Olmstead has been with the Dairy Extension Department for over 30 years and has participated in many of the dairy expositions. The day's program will consist of the fitting and showing contest, an ice cream molding contest, a milking contest with the professors and coeds participating, and a banquet.

### 72 Cattle Shown

The 72 cattle are of five different breeds, including Holstein, Jerseys, Brown Swiss, Guernseys, and Ayrshires.

Sixty-nine dairy students, who have been working for weeks in preparation for the showing, will participate in the contest.

The ice cream molding contest will be judged on the texture, beauty, and composition of the mold. There have been some very beautiful molds in past years, Imhof said, and the competition promises to be keen.

### Banquet At LSA

The banquet will be held at the Lutheran Student Center at 7 p.m.

Over \$300 in cash prizes will be given away at the banquet. There will also be a large table full of trophies for the winners of the contests.

The Seafest Dairy will award several watches when the merchandise prizes are given out. Included in the merchandise are watches, magazine subscriptions, cow balm, Steward clippers, a feed cart, and barn scraper.

### Queen To Preside

Miss Jean Smucker, dairy queen, will preside over the exposition and award the ribbons and prizes to the winners at the banquet. Miss Smucker is a senior in home economics from Huntingdon.

Awards will be presented to the top three men in each of the five breeds of cattle and to the top three men in each division. The top men in the amateur and professional groups will receive trophies.

# Skull And Bones Taps 45 Students

Skull and Bones, senior men's honorary, tapped 45 men last night. These included sixth, seventh, and eighth semester students.

Sixth semester students include John Albarano, Robert Amole, Earl Baker, Milton Bernstein, Ronald Bonn, Donald Carlson, Harry Chapman, Harry Cover, Bryson Craine, Ray Evert, Peter Fairchok, Charles Falzone.

Clair George, George Glazer, Murray Goldman, Marc Kimelman, William Klisanin, Edwin Lefkowitz, David Lewis, Frank Lewis, David Margolf, Donald Maurey, Richard Mills.

Moylan Mills, Frederick Rodgers, Edward Shanken, John Sparhawk, David Stabler, David Weiner, Stanley Wengert, James Worth.

Seventh semester students are Gorman Fisher, and Alan Walford.

Eighth semester students include William Bonner, George Demshock, Bernard Gutterman, John Hrivnak, Joel Kranich, Joseph Lenchner, Nicholas Morkides, Darrell Rishel, Merrill Sporkin, Edward Sykes, Harold Wilson, and Donald Yenke.

A tap meeting will be held in front of the Lion Shrine on Monday at 7:30 a.m. In case of rain, the meeting will be held in the second floor lounge of Old Main at the same time.

### McCALL JOINS INFANTRY

Pvt. Richard L. McCall, who attended the College, has been assigned to the 8th Infantry Division, Fort Jackson, S. C., for basic training.

### Paul Kuhnle Awarded First Prize For Sign

Paul G. Kuhnle was awarded a \$5 first prize for his poster publicizing the School of Engineering Open House which will run from 1:30 to 8 p.m., today.

The two other architecture students who received the \$3 second prize and \$2 third prize were Edward W. Zimmerman and Emery A. Szalai. In all, 25 posters were designed by junior architecture students.

## Dream Scene

DAVE OWEN (left) as Charlie Johnson, Sonya Tilles as Liza Elliott, and Bob Amole as Randy Curtis, in the wedding dream scene of Player's production "Lady in the Dark." The show, completing its three-day run tonight, will begin at 8 in Schwab Auditorium.

### Stewart Asks Seniors To Correct Addresses

All graduating seniors should make certain that their addresses are correct in the Recorder's office so that each student may be reached in case of emergency, A. W. Stewart, chief recorder, said yesterday.

### Concert Scheduled For Mother's Day

The College Symphony Orchestra will present its annual Mother's Day concert tomorrow at 3 p.m. in Schwab Auditorium. Doors will open at 2:30 p.m.

The program is under the direction of Theodore Karhan, assistant professor of music, Barbara Thomas, and Lillian Lohrwill.

Included in the program will be: "Overture to Ruslan and Ludmilla" by Glinka, suite from the "Water Music" by Handel, eight Russian folk songs by Liadov, three dances from Smetana's, "The Bartered Bride," and "Lt. Kije," a symphonic suite by Prokofieff.

# Chem-Phys School To Hold Experiment

Cryogenics demonstration of liquid helium, hydrogen, and air will be the featured experiment of the School of Chemistry and Physics open house Saturday afternoon.

Authorities in chemistry at the College believe that this will be the first demonstration of liquid helium in the world. All three gases will be at low temperatures: helium at -452 degrees, hydrogen at -421 degrees, and air at -299 degrees. These unusual demonstrations will be conducted at 2:30 and 4:30 p.m. outdoors between Pond Lab and Burrows building.

## Larson Heads Science Group

Dr. Russell E. Larson, professor of plant breeding at the College, heads a committee of scientists making the first complete tabulation of all vegetable varieties in the United States, Canada, and U.S. territories.

Included in the tabulation are plant breeders, hybrid producers, and commercial sources.

The committee, named by the American Society of Horticultural Science, will compile the first complete record of the many varieties, hybrids and strains of all vegetable crops, listing their sources, characteristics, and other pertinent information.

After completion the list is expected to aid in producing many improved vegetables, Dr. Larson said.

Through a nationwide survey now under way, each committee member is tabulating the information on 100 varieties.

In case of rain, the demonstration will not be held, but samples of the liquid gases will be displayed in the low temperature laboratory in the basement of Pond Laboratory. Dr. John Aston, who has worked for 20 years on low temperature gases here, set up the laboratory, one of the few of its kind in the country.

Laboratories in Osmond, Pond, Walker, Textile Chemistry, and Frear will be open to allow visitors to view the techniques, demonstrations, and apparatus that various departments of the school will present between 2 and 5 p.m. and 7 and 8:30 p.m.

### Pictures Shown

Pictures of the heavens will be shown at 2 p.m. and every 20 minutes after that in the planetarium in 216 Osmond. Displays of astronomical instruments, aluminizing of mirror surfaces, and manufacture of telescopic parts will be shown as an additional feature in 5, 6, 7, and 8 Osmond. The observatory on Ag hill will also be open for inspection in the evening.

## let's go native...

Van Heusen brings 'em back alive for you... a bag-full of nifty new ideas in wildlife patterns. In completely washable cottons... or in lustrous rayon—with short or long sleeves. Good hunting, fellows, in Van Heusen jungle print sport shirts.

Cottons, Short sleeves—\$3.95  
Sheer cottons, Short and long sleeves—\$4.95 & \$5.95
