

Committee Says Bradley Not Compelled To Speak

WASHINGTON, May 17 (AP)—Senate investigators decided 18 to 8 today that they cannot compel Gen. Omar N. Bradley to reveal what was said between President Truman and his advisers at a meeting which led to the ouster of Gen. Douglas MacArthur.

By this action, the Senate Armed Services and Foreign Relations committees upheld their presiding officer, Senator Russell (D-Ga.), who ruled that Bradley was within his rights in refusing to disclose the conversation. Bradley had declared that his value as a confidential adviser to the President would be ruined if he talked.

Made Decision

Truman said he had been thinking of firing MacArthur off and on for the past year—but hadn't made a decision until the General offered on March 24 to talk peace terms with the Red commander in Korea. The President referred to this offer as an ultimatum. Administration men have taken the view it threw a monkey wrench into a settlement attempt Truman himself was planning at the time.

Acheson Urges Caution

In the now-famous meeting, Truman said Secretary of State Acheson urged caution on the grounds the ouster would pick up a political fuss. But he added that, after hearing all the arguments, Acheson agreed with the others that MacArthur had to go.

Truman said the Senate inquiry group did exactly right in upholding Bradley's refusal to talk about the meeting. He added the decisions and actions taken were his own and his conversations with his advisers and staff were his own business.

Farm Employees Not Subjected To Wage Controls

WASHINGTON, May 17 (AP)—The government today exempted about three fourths of the nation's farm workers from wage controls.

The Wage Stabilization Board ruled that farm employers may raise wages freely so long as the increases don't boost pay rates above 95 cents an hour.

Pay increases also may be given to bring hourly rates beyond 95 cents an hour, provided the increase does not exceed ten per cent of the top wage level paid during the calendar year 1950.

Such pay increases beyond 95 cents an hour but within the 10 per cent limitation may be given automatically without board approval.

William M. Hepburn, a public member of the Wage Board, told reporters that the new rule exempting farm workers below the 95 cent hourly level freed from 75 to 80 per cent of all farm workers from stabilization rules.

The ruling was a unanimous decision of the public, industry and labor members and was the first major action of the newly-constituted Wage Stabilization Board.

It was emphasized that today's action was not intended in any way to encourage employers to increase wages of farm workers earning less than 95 cents an hour. Hepburn said that the board merely felt that pay increases for such workers would not materially interfere with wage stabilization.

Rossi Wins Prize For Ad Project

Richard Rossi, a senior in the Department of Journalism, was the recipient of the \$25 first-prize presented by the Interstate Advertising Managers Association for best newspaper plan and copy of an advertising project.

Joan Eidelman, a senior, and Joan Hoffman, a junior, received second and third prizes respectively of \$15 and \$5. Fourth prize, also of \$5, was won by Robert Leyburn, a junior. Honorable mention certificates were awarded to Edwin Singel, Eugene Raup, and Carol McKinley. All the students are advertising majors.

M'Arthur, Taft Challenged By Pres. Truman

WASHINGTON, May 17 (AP)—President Truman challenged Gen. Douglas MacArthur and Republican Sen. Taft today for advocating policies he said would put the United States in "an all-out war in China all by ourselves."

"One week of all-out war," the President asserted, "would cost us 10 to 20 times" more per week than the administration proposes to spend under its new \$60,000,000,000 defense budget.

KOREANS FEAR MacARTHUR IDEAS

HOUSTON, Tex., May 17 (AP)—The Korean foreign minister said today his people fear that General Douglas MacArthur's proposals might bring Russia into the war.

"They all agree as to the efficacy of these," Minister Yung Tai Pyun said, "but what the people fear is that these tactics might provoke the Soviet Union into war."

Later Truman remarked to reporters that World War II cost \$450,000,000,000 and another world war might easily cost \$600,000,000,000.

"Never was there a time when the right decisions were more necessary than at this time," he went on in his extemporaneous address.

"The hardest thing in the world are the real facts," Truman said, while the "easiest thing in the world to do is to garble and confuse the facts."

"There's a great deal of that going on in the country right now," the President said sharply.

Law Scholarship Deadline Extended

The deadline for filing applications for the \$2100 per year Root-Tilden scholarship, offered by the New York University School of Law, has been extended to the end of May, Dean Russell D. Niles has announced.

Chief Justice Drew of the Supreme Court of Pennsylvania will interview candidates for the scholarship in the chambers of the chief justice at the court in Pittsburgh on June 12, 13, or 14, Dean Niles announced.

The scholarships will be offered each year to enable 20 young men "who show promise of becoming outstanding lawyers," to attend the law school.

Britain Bids To Save Oil Concession

LONDON, May 17 (AP)—Britain made a new bid through diplomatic channels today to save her rich oil concession in Iran—a coveted prize in the East-West cold war.

The Labor government, after a week's consultation with the United States, dispatched to Tehran a firm note which informed sources said offered to send a high level mission to talk over possible compromises that would avert nationalization of the huge Anglo-Iranian Oil Co.

The note was reported to: 1—Brand as illegal Iran's nationalization of the company, whose concession was due to run until 1993.

2—Assert such a move is impractical because Iran lacks the know-how to produce, refine, and market the oil.

The informed sources said the note contained no hint that Britain would use force, if necessary, to protect the 8000 Britons and the multi-million dollar properties of the company in southern Iran.

A national front deputy, Abolhassan Haerizadeh, told Iran's parliament in Tehran today that British pressure on Iran would touch off World War III. He is a member of the little party which engineered passage of the nationalization law and seated the party leader, Mohammed Mossadegh, in the premiership.

Red Strike Related

WASHINGTON, May 17 (AP)—An AFL official told the House Un-American Activities committee today that the Hollywood union strife of the mid-1940's was part of an almost successful communist plan to win control of the motion picture industry.

But the "back of communist power" has since been broken in the movies, declared Roy M. Brewer, international representative of the International Alliance of Theatrical and Stage employees (IATSE), AFL.

Red Forces Stage All-Out Offensive

TOKYO, Friday, May 18 (AP)—Chinese and Korean Communists furiously attacked along the entire Korean front Thursday night and paid a tremendous price in blood for some initial gains.

It was another all-out Red offensive against the United Nations forces along an 80-mile-wide front. It mounted steadily in scope, with 400,000 Reds stacked up deep for the big push.

One American officer estimated Red dead exceeded 10,000 for Thursday alone.

First impact of the assault tore a big hole in the South Korean Republican ranks on the east-central front. Americans rushed up to plug the gap as elements of 96,000 leading Chinese poured through. The Korean Republicans were threatened on the east and west.

The Chinese also threw heavy attacks late Thursday night against American positions on the central front southeast of Chunchon and on the perimeter above Seoul in the west.

In both cases they were beaten off after hours of blasting by American artillery and night-flying bombers.

The Reds were spotted dragging 68 big guns up to that front north of Uijongbu however. Allied planes knocked out six of them.

UN Urges Embargo

NEW YORK, May 17 (AP)—The U.N. political committee, disregarding Soviet objections, recommended today a world-wide strategic embargo against arms and war supplies for Red China. The 60-nation general assembly is expected to give it final approval tomorrow.

Forestry Society Holds Field Day

The Penn State Forestry Society held its second annual field day at Greenwood Furnace last week-end.

Events scheduled for the day were wood chopping, log sawing, fly casting, log birling, archery, and tobacco spitting. A picnic supper was served, and spring games, such as softball, volleyball, badminton, football, horse shoes, and cool, soft grass were played.

Robert Huber was field day champion as he proved most accurate in fly casting, cast the longest distance, 59 feet, and won the log birling contest.
