

Red Rout Halts Above 38th Parallel

TOKYO, Tuesday, May 29 (AP)—The rout of Chinese-Korean Communist forces came to a gradual halt Monday after six days of headlong retreat. Wholesale surrender and staggering losses wiped out nearly all ground gains the Reds had made in two costly spring offensives.

Pursuing United Nations forces were driving four to 14 miles inside North Korea across the 125-mile wide peninsula. The Allied positions were about the same they occupied just before the first Red hammer blow the night of April 22.

However, field dispatches said 3000 Chinese were in action Monday night against U.S. troops on the central front, west of Hwachon Reservoir. That was roughly seven miles north of the old political boundary.

Frontline officers believed Chinese rearguards were attempting only to slow the Allied advance. They expected nothing more than a local enemy counterattack.

Other Red rearguards, including many North Koreans, tried to stop the Allied advances on both the western and eastern flanks of the battleline.

Senate - House Make Agreement On UMT Program

WASHINGTON, May 28—(AP)—A Senate-House conference committee reached agreement on a new draft bill today and laid the foundation for universal military training in the United States.

The compromise legislation would drop the minimum draft age from 19 years to 18½ and keep the selective service system going until July 1, 1955.

Under the compromise, a five-member commission on National Security Training would have general supervision of the UMT program. This authority would not extend to the specific details of military training.

The commission would be appointed by the President, but would have to be confirmed by the Senate. Three would be civilians with not more than two from any one of the major political parties. Two would be active or retired military men.
