## Supports Editorial On Gift TO THE EDITOR:

I find myself quite concerned about the letter in Saturday's Collegian submitted by the senior class gift committee chairman and the senior class president.

First of all, I am wondering where those men received their information that \$5000 was the figure requested for the campus radio station. Certainly they never received this information from the radio station committee. This figure was discussed only in connection with setting up the system on campus, not with the setting up of a system that would include the fraternities. If the committee had thoroughly completed the job they were supposed to carry out, that of selecting and investigating possibilities submitted by the senior class for the senior class gift, it would have discovered that the total cost of establishing the station was much more than \$5000.

Furthermore, I see no justification for a small committee making a decision as to where the senior class gift should go after the class as a whole has already made a decision. A majority vote is a majority vote and is hardly subject to a change by a small committee whose only function is to investigate and select possibilities for the Senior gift.

I am wholeheartedly in favor of the memorial idea suggested by the committee, but it would probably be much better as an All-College loan fund set up from the proceeds from the Spring Carnival rather than as a senior class fund from the money allocated to another purpose by the class itself.

In closing I would like to state that the radio station committee firmly supports the editorial by Mr. Fenton.

—Emerson Jones, All-College secretary-treasurer (retiring) and co-chairman of the radio station committee

# Beginning Of 'New Era' Closes

Today brings to an end, at least for the Collegian, the first year of a new era for Penn State.

The cry of "new era" was heard many times at the beginning of the school year last fall but gradually as we moved in to the body of the '50-'51 semesters, we forgot that we really were part of the change.

With a new President, recently re-titled "Prexy," a new football coach, freshmen on campus for the first time since the war, and finally Air Force men marching to a singing cadence past the women's dorms, we skipped merrily along becoming adjusted to the new things almost automatically.

New buildings appeared where none had been before and even now large holes are marking the campus waiting to spring up into more new buildings.

Almost as soon as the great post-war evolution period has passed, a new kind of evolution must be made. We must adjust to a new bigger feeling about the College. We are expanding. We have been expanding for years but the expansion is not complete.

The new development is being slowed down a bit by the United Nations war and the new draft (although the addition of 700 more women to the campus population will not be considered slowing down by all) but we are taking all conditions in stride as we move along.

We have been living in a changing environment, the environment will change more during the summer, and more changes will be encountered when we return next fall.

"It's all part of the game" but it is fun growing with the College and it will be much more fun if we remain aware of it as we move along.

—Bud Fenton

West Dorms. Unlike the form distributed by the College, the poll was unofficial. The distribution was sporadic. One adviser is known to have told his men not to bother with the pledge because it didn't mean a thing.

Under these circumstances, it is difficult to understand why the signing of this pledge has been made a prerequisite for living in the West Dorms.

# First WD Complaint

When it was first announced that a student-faculty committee would set up a priority system to select West Dorm residents we commented that no matter what decision was reached, there would be complaints.

Well, we'll be first in line. One of the chief faults of the system set up by the committee is the fact that one of the requirements for residence in the West Dorms is that students must have filled out a pledge circulated by the council.

The pledge was circulated among independent men simply as a poll that would indicate how many men would be interested in living in the

### "That Will Be \$2, Please"

Those sad forms dragging slowly up and down the Mall these days are a species known as graduating seniors. Like false Sextus, "With haggard face and laggard pace," they make their final trips across the swamps of alma mater. And deep are their thoughts, sombre their recollections.

Let us look into a senior's memory of Penn State.

**"Mind Went Blank," Bus Stripper Says**

Charged with disorderly conduct because he took off a heavy winter suit in a crowded, sweltering bus late yesterday, Joe Burns pleaded temporary insanity because of the heat in Police Court here today.

"If you had been wearing one of the new Palm Beach suits," Judge Solomon Wise sternly told Burns, "you would not have made such a spectacle of yourself."

Judge Wise gave Burns the option of paying a \$29.95 fine or spending the \$29.95 for a new Palm Beach suit.

As a safeguard against possible future mental lapses, Burns chose two Palm Beach suits from the handsome selection of checks, stripes and smart solid colors at JACK HARPER'S.

"Oh, boy," Burns grinned, "these new, smooth, lightweight Palm Beaches are like wearing no suit at all. And I'd really be crazy not to love the new patented Fiber-Lock method that bounces out wrinkles and locks in smooth feel."
