Welcome To Summer College

We're glad to be here with you and we'll be with you for the next six weeks to keep you informed of what you're doing or what you might do, and what's happening.

Most of us will be kept pretty busy with classes and school work, but even for the most studious of us, a few free moments crop up during the week. Realizing that not only the "non-studying rowdies" like entertainment, the College has prepared a program for us that will provide diversion at all times of the day during all parts of the week.

Softball, dancing, movies, golf, group singing, concerts, tennis, swimming, lectures, and church services will be available for all of us.

The campus will be a busy place this summer. Conventions and conferences will be moving in and out of town, buildings will be started, continued, or completed through the session, and the marching feet accompanied by singing cadence will be audible during classes.

It will be hot, or hot and wet, or just wet, and some of us will fall asleep in spite of ourselves and glaring professors during afternoon classes. Some of us may even spend a few afternoons "studying" out at one of the local lakes during class periods.

Hot afternoons will drag, cool evenings will go all too swiftly, friends will be made and left. It's all Penn State, we know we'll like it!

Safety Valve . . .

Here on the editorial page, we have an old custom. The custom is called "letting the reader talk for a while." This custom is worked by encouraging the reader to send in letters to

New Chaplain

The announcement of Reverend Luther Harshbarger's appointment as College Chaplain will come to the many students who have worked with him during the past two years as a very pleasing development.

During his short tenure as Executive Secretary of the Penn State Christian Association, he has gained the respect and support of the entire student body in his endeavors.

One who is constantly cognizant of the student welfare as his prime job, Reverend Harshbarger has made a deep niche in the minds of students.

His future as College Chaplain cannot but be successful. The lone defect in the new plan is that double duty as chaplain and secretary of the PSCA may require a little more time at the desk and a little less with the student body as the friend and guide he is.

Gazette . . .

Monday:
Social dancing class, section 1. Registration, fee: \$2.50 for 10 lessons. Room 101 White Hall, 7 p.m.

Tuesday:
Social dancing class, section 2. Registration, fee: \$2.50 for 10 lessons. Room 101 White Hall, 7 p.m.

the editor which we print under the title of "Safety Valve."

We like to get letters for safety valve, because we like to have people who are not on the staff write to us. We like to get letters.

If you have any like, gripe, or just plain statement, that you would like to pass on to the student body, we would be glad to aid you.

For those with opposite views from those of the editor, please include two copies (one to mutilate).
