TV Institute Stages 'Big Show'

Last week, the College was host to the Fourth Annual Radio and Television Conference. A large number of radio and TV wheels from all parts of the state and the East attended. A large number of Penn State summer students did not.

In this column last week, we urged all to hear the Korean ambassador, Dr. You Chan Yang, talk on the attitudes of his country toward the present cease-fire negotiations in Korea. If the ambassador had spoken on that subject, as advance publicity indicated he would, it would have been the experience of a life-time for students.

True enough, he did not. His talk was mostly concerned with radio today, and with the sorry plight of his own people. But those who went were not cheated. The ambassador's talk was still one worthy of listening to.

And disregarding the Korean entirely for a moment, the Institute offered a variety of other speakers who lead discussions and gave talks on everything from tape recorders to the Pittsburgh Pirates.

All of these talks were interesting, well planned, and thought provoking. The speeches on television, especially, were very applicable in a time when the whole country is television-minded.

Any student who missed these lectures and discussions has no one but himself to blame for his loss.

The ambassador's speech was well-attended, true enough. Not enough seating was available for all who came to hear the little Korean talk. In fact, many were turned away. That the ambassador did not choose to honor Penn State with his views on the world affairs was his mistake. What better place than a large College to express your side of the story?

Dr. Nelson of the speech department, and any others who aided in this venture, are to be congratulated. For any small points that went wrong there were a hundred that went right.

Credit Due For Recreation Support

Much credit is to be given to students and townspeople alike for the excellent reception they have given to the summer recreation program.

Under the direction of C. M. "Dutch" Sykes, once again the summer program is off to a flying start. And it is your continued support that will keep this fine program going.

How can you help? Well, the recreation director has spent much time and effort in seeing that the summer students have something to do every night.

There is something in the program for every student.

So attend the programs and show "Dutch" and his co-workers that we really appreciate the good job they are doing to keep us out of the doldrums here at Penn State.

Heavens knows there isn't much to do in this town on nights, but with something going on every night in the summer recreation program, there should be an activity to suit every taste.

—Bob Schooley

Little Man On Campus By Bibler

"I'm not surprised. Worthal . . . You're flunking psychology you know."

Gazette . . .

SUNDAY, JULY 22

7:30 p.m. Vesper Service. Address by the Rev. J. Ray Houser, St. Marks Lutheran Church, Williamsport, Pennsylvania. Schwab Auditorium.
