U. S. EIGHTH ARMY HEADQUARTERS, Korea, Saturday, Sept. 22—(P)—Three Allied tank columns smashed boldly into the Reds' rusty "iron triangle" Friday and blasted everything in sight. Then they pulled back for the night.

The coordinated armored thrust on the central Korean front was aimed at Pyongyang, 29 miles north of parallel 38, apex of the old Communist build-up triangle.

**Red Strongpoints Hit**  
Field dispatches reported it accomplished its first objective—to shoot up all Communist strongpoints and then withdraw.

Resistance varied. The Chinese Reds fought like demons against two tank-tipped forces. There was only light opposition to the third force.

**Hill Battles Diminish**  
In eastern Korea, the bloody 5-week-old "battle of the hills" diminished to sporadic patrol clashes. Both sides appeared spent from the bone-wearying struggle up and down the steep, muddy slopes.

The action on the central front—called "operation cleaver"—was described as a heavy armored raid, rather than an offensive.

An allied patrol on the flank of this column was pinned down and called by radio for help from two other patrols. The Reds kept the relieving units at bay for five hours, but they finally broke through to the isolated patrol.

# Four on Raft Pleasure Bent

NEW MADRID, Mo., Sept. 21—(AP)—The raft Lethargia with its unmarried collegiate foursome was heading down the treacherous Mississippi slowly today as veteran fishermen expressed concern over it.

The raft, skippered by 24-year-old Mary Ellen McCrady of Washington, D.C., pulled up at Hickman, Ky., last night after taking off down the Mississippi from Cairo, Ill., earlier in the day.

The mixed foursome, now say it's no sociology study they're on but a good time vacation trip. Others aboard the raft, which left New Kensington, Pa., June 10, on the float trip to New Orleans, are Milton Borden, 30, New Bedford, Mass., Don Brown, 23, of the University of Michigan and Geraldine Garcia, 24, of Boston.

# NATO Conference Gets Praise, Blasts

PARIS, Sept. 21—(AP)—Results of the North Atlantic Treaty Organization's meeting in Ottawa drew a mixed reaction of praise and criticism today from the Western world it was created to defend.

A foreign office spokesman in London disclosed that Britain already is using the conference as a lever in an effort to persuade Egypt not to scrap their 1936 mutual defense treaty.

But government circles in Cairo stressed that the Egyptian attitude toward the new command would be determined by whether the new defense system would help Egypt get rid of British troops.

In Greece, Foreign Minister John Politis declared the invitation to join in the "mighty alliance of the West constitutes a historic milestone" in Greek Affairs. He said it would have good results on all phases of Greek life. Premier Sophocles Venizelos said the news gave Greece "a feeling of security."

But in Paris the influential newspaper, Le Monde, said the Ottawa meeting "merely raised problems, instead of solving

# Gen. M'Arthur, Family Visit Allentown Fair

ALLENTOWN, Pa., Sept. 21—(AP)—Gen. Douglas MacArthur brought his son to a Pennsylvania county fair today to give the boy a glimpse of rural Americana.

Fourteen-year-old Arthur, still a stranger in his native land, ate it up—including a hefty helping of Pennsylvania Dutch cooking.

"A county fair is one of the best features of American life," the former supreme commander of Allied powers in the Pacific declared.

"I was determined that Arthur see one before he starts school this month. I'm glad he saw the best."

That brought a cheer from the nearly 100,000 persons in the grandstand and on the fair grounds.

The General's son had two buddies for the afternoon, the two youngsters of Pennsylvania's Governor, John S. Fine, Donald, 10, and John, eight.

All three boys pitched into a lunch of Pennsylvania Dutch sauerkraut, pork and mashed potatoes provided for them at the fair grounds. The private luncheon for the MacArthurs and a handful of others was given by Howard Singmaster, Allentown industrialist and president of the Allentown fair.

The MacArthurs were accompanied by Gen. Courtney Whitney and the General's former pilot, Lieut. Col. Anthony Storey. All returned to New York in a private car as the guests of C. A. Major, president of the Lehigh Valley Railroad.

# Two Senators Debate Question of Higher Taxes

WASHINGTON, Sept. 21—(P)—Republican and Democratic Senators clashed sharply today on the country's ability to stand higher tax raises than Congress contemplates.

Senator Humphrey (D-Minn.) told the Senate that the nation is "strong enough to sustain the burden" of a new \$9,000,000,000 tax bill.

He led the Administration fight into its second day to boost the Senate's \$5,506,000,000 tax measure to \$9,000,000,000.

**260 Billion Dollar Debt**  
Senator Millikin (R-Colo.) retorted that prosperity did not seem to be reflected in a \$260,000,000,000 public debt and a deficit in the next fiscal year that might reach \$30,000,000,000.

The House bill, previously passed, calls for about \$7,200,000,000 in new taxes.

President Truman wrote Vice President Barkley yesterday that the government needed a new tax bill approaching \$10,000,000,000 to balance the budget and combat inflation.

**Not One More Cent**  
To this, Chairman George (D-Ga.) of the finance committee replied:

"Not one more cent as far as I am concerned."

That George statement was in comment to a reporter.

Humphrey spoke seven hours Thursday and two hours yesterday in pushing the Administration view.

Humphrey said he knew "these are not happy times"

But he was encouraged by these developments:

(1) Corporation profits in the first quarter of 1951 reached the record annual level of \$23,000,000,000 after taxes; (2) the Federal Reserve Board has revealed that individual savings reached the peacetime record of \$21,000,000,000 a year during the second quarter of 1951; (3) a joint Commerce Department-Security and Exchange Commission report forecast that business would spend \$25,000,000,000 on plants and equipment this year, a new record.

## Czech Extradition Demands Refused

FRANKFURT, Germany, Sept. 21—(AP)—Communist Czechoslovakia demanded today the extradition of the 31 "Freedom Train" refugees from West Germany, but ran into a quick rebuff.

The U. S. high commission denied a charge that American occupation authorities helped engineer the spectacular escape Sept. 11.

Making it clear the official reply would come from the state department, the commission noted that, under American policy, political refugees are not returned to countries "where their freedom and even lives would be in jeopardy."

The train itself, consisting of the locomotive, three passenger cars and a baggage car remains in West Germany. Two Czech soldiers who were aboard it, a sergeant and a private, were returned to Czech authorities at the border yesterday.
