

UN Believes Reds Want Peace Talks to Break Off

TOKYO, Friday, Sept. 28—(AP)—The Allies said Thursday they suspected the Reds of trying to goad the United Nations into breaking off attempts to negotiate an armistice in Korea.

'Heartbreak Ridge' Battle Resumed

U.S. EIGHTH ARMY HEADQUARTERS, Korea, Friday, Sept. 28—(AP)—Allied infantrymen renewed their assault on "heartbreak ridge" in eastern Korea Thursday, only yards from the top of its commanding peak. Men of the U.S. Second Division's 23rd Regiment and the French battalion inched up the stony slopes while 32 F-51 Mustangs and 24 Navy Corsairs smashed at Red artillery and mortar positions in the ridge area. In the air over northwest Korea, the greatest three-day jet campaign ever mounted ended with victory for the Allies. Thirty-four American Sabre jets fought a 25-minute dogfight with 50 Russian-type MIG's Thursday damaging two of the Communist jets, according to Air Force reports.

Reds Hold Peak

But at nightfall, the Communists still commanded the towering peak, which overlooks Red supply lines and an assembly point to the north.

New Charges By McCarthy Against Jessup

WASHINGTON, Sept. 27—(AP)—Senator McCarthy (R-Wis.) brought sworn charges today against Ambassador-at-Large Philip C. Jessup, accusing him of having been connected with six Communist front organizations. The charges immediately drew sharp demands for proof by some members of a Senate Foreign Relations subcommittee considering Jessup's renomination as a U.N. delegate. With Jessup in the audience, McCarthy testified for two hours under oath in support of his contention the Senate should refuse to confirm the diplomat's nomination. Jessup has served before as U.N. delegate. The Wisconsin Senator brought a 28-page brief of material re-

lating to Jessup's record. It was bound in a deep pink cover. He repeated charges today that Jessup has "an unusual affinity for Communist causes." He said the six organizations with which he claimed Jessup was associated had officially been declared Communist fronts and were "doing the work of the Communist party."

Jessup, who has repeatedly denied McCarthy's contentions, told reporters during a brief recess he was not worried about the Senator's charges against him.

Senate Will Attempt To Force Recess

HARRISBURG, Sept. 27—(AP)—The Senate, bogged down again on taxes, today threatened "no business" sessions next week to enforce its demand for a recess of the General Assembly until Dec. 10.

George VI Appoints Counselors of State

LONDON, Sept. 27—(AP)—King George VI today appointed a council of state, including his queen and his daughters, to act for him during the long period of his recovery from a lung operation.

The announcement from Buckingham Palace came a short time after Princess Elizabeth and the Duke of Edinburgh decided to go ahead with their Canadian tour, starting from Quebec Oct. 9.

The heiress presumptive to the British throne will share duties on the council with Queen Elizabeth, Princess Margaret, the king's brother, the Duke of Gloucester, and the Princess Royal, his sister.

Senate Votes on Exemptions

WASHINGTON, Sept. 27—(AP)—The Senate today overwhelmingly approved legislation to knock out tax exemptions enjoyed by the President, Vice President, and members of Congress—and thus to cut their pay—beginning in 1953.

The measure, if approved by the House, will eliminate exemptions on expense accounts allowed these officials.

The effective date would be Jan. 3, 1953. This would involve the last 17 days of the terms for President Truman and Vice President Barkley, but would not affect the present 82nd Congress.

The vote was 77-11. The measure was in the form of an amendment to the Senate's bill to increase taxes an estimated \$5,506,000,000 a year, on which the Senate opened its eighth day of debate today.

Senator Williams (R-DeI.), sponsor of the successful amendment, expressed belief that top governmental officials should give up these tax-free allowances when Congress is preparing legislation to tax everyone "until it hurts."

Truman Asks Iran For Oil Mediation

LONDON, Sept. 27—(AP)—President Truman stepped into the ominous oil controversy today with an appeal to Iran not to throw the British out of the Abadan refinery.

Qualified sources said the President also counseled the British against the use of armed force to protect property in Iran.

American policy in the past has held that force could not be justified unless it is needed to save British lives.

U.S. and Czechoslovakia Sign Trade Agreement

GENEVA, Switzerland, Sept. 27—(AP)—The United States and Czechoslovakia were freed of all trade and tariff obligations to each other today by the contracting parties to the general agreement on tariffs and trade.

The decision was a victory for the United States, which sought to end its trade concessions to the Communist country on the ground that relations between the two had deteriorated to the point where beneficial economic relations had been nullified.

Iran Premier Intends To Stay in Office

TEHRAN, Iran, Sept. 27—(AP)—Premier Mohammed Mossadegh, storm center of the oil nationalization controversy, told demonstrators today he intends to stay in office despite a boycott against him in Parliament.

Iran threatened to blow up the refinery, the world's largest, if the British do land at Abadan.

The British Cabinet met in urgent session and sent off a message asking Iran's Shah Mohammed Reza Shah Pahlevi to have his government revoke its ouster order. Under it, the 317 remaining British oil technicians must leave Iran by next Thursday.

After making the appeal to the Shah, the British Cabinet decided to stand pat on hopes for a reversal of the ouster.

The British claim the Shah favors a moderate course, but he was reported irritated over Britain's rebuff to Iran's proposal last week to renew oil negotiations on Iran's terms.

The State Department said it has advised Iran and Britain it is ready to give any help in finding a settlement of the oil nationalization controversy by peaceful means.
