MANILA, Oct. 1—(AP)—Death, violence, and charges of political terrorism mounted in the Philippines over the weekend, six weeks in advance of the Nov. 13 elections which Communist Huks are striving to disrupt.

Defense authorities, who have served notice they will call out 10,000 Army reserves to preserve order during the congressional and provincial elections, placed the blame for most violence on Luzon island to Reds.

### Leaders Kidnapped

In the latest violence two Liberal (administration) party leaders in Bulacan Province, just north of Manila, were kidnaped Sunday night by Huks.

The beheaded body of one was found about 30 miles north of Manila on the eastern fringe of the Candaba swamps. The other is still missing.

### 25 Political Killings

This brought an unofficial tally of political killings on Luzon to 25 since Sept. 14. As many more have been kidnaped.

Military authorities in Pampanga Province, in terror-ridden central Luzon, reported 20 poll clerks and election inspectors were kidnaped last Friday. The action was attributed to Huks.

**Draft Quota Upped**  
HARRISBURG, Oct. 1—(AP)—Selective Service headquarters today increased Pennsylvania's November induction quota from 1730 to 2002 men. The increase was attributed to a similar boost in the national quota for that month.

# Unemployment Aid Increased

HARRISBURG, Oct. 1—(AP)—Maximum unemployment compensation benefits went up today to \$30 for 26 weeks under a new state law.

The new top levels and minimum levels of \$10 for 13 weeks went into effect following announcement by Gov. John S. Fine's office that the chief executive of the State had signed the legislation.

The maximum of \$30 is a boost from \$25 while two more weeks have been added to the pay schedule. The minimum levels go from \$8 to \$10 and from nine to 13 weeks.

Fine also signed a measure to impose a one-third of one percent tax on the capital of foreign corporations.

The measure imposes the tax on all corporations chartered outside the state who do business here. Exempted from the provisions of the act are foreign insurance companies.

Other bills signed by Fine: Boost the salaries for commissioners of first class townships by \$200 a year.

Give a \$200 increment increase to school teachers who hold masters' degrees.

# U.S. Accused Of Plotting New War

TOKYO, Tuesday, Oct. 2—(AP)—Red China's top military man accused the United States Monday of undermining the Korean truce effort and preparing for a new war, but the Communists still kept silent on Thursday's Allied demand that the armistice talks be resumed at a new site.

### War Roundup

U.S. EIGHTH ARMY HEADQUARTERS, Korea, Tuesday, Oct. 2—(AP)—Allied infantrymen, pushing forward in an autumn offensive partly cleared a Communist ridgeline on the Korean central front Monday and inched forward in hand-to-hand combat in the east.

The air war raged on Monday with U.S. Fifth Air Force headquarters announcing one Russian-built MIG-15 shot down and three more damaged in a series of dogfights over North Korea's MIG alley. No Allied losses were reported.

The attack on the United States was a passing reference contained in an order of the day by Gen. Chu Teh, commander-in-chief of the Chinese Red Army. Chu also charged that the U.S. had "invaded" Formosa and counseled his soldiers to "stand firm and alert at your combat positions."

His order, broadcast from Peiping, was part of the Reds' celebration of the second anniversary of their Chinese regime.

# Panhel to Discuss Informal Rushing

Informal rushing, which begins Oct. 12, and service keys for council members are among the items on the agenda. The question of permitting first semester freshmen women to visit in sorority suites is also scheduled for discussion.

# UN Delays Iranian Debate for 10 Days

NEW YORK, Oct. 1—(AP)—Britain succeeded today in getting the United Nations Security Council to take up the British-Iranian oil dispute, but Iran won a 10-day postponement of debate to permit a high-ranking Iranian to fly here to present her case.

Earlier, the council blocked by a vote of 9 to 2 a Russian effort to prevent its considering the British-Iranian dispute.

Jebb opened the British case at Flushing Meadow after a hurried flight from Britain. He told the council the Iranian government is rushing madly down a steep hill in pursuit of an illusory objective and that it is "essential for the council to do something to arrest this apparently suicidal process."

When he concluded, Ambassador Ali Gholi Ardalani, Iran's permanent representative at the U.N., said he was empowered to speak for his country in this matter. He said Iran's special representative would need at least 10 days to reach New York and that he, therefore, requested a postponement.

Jebb, speaking after the British had announced they were evacuating their technicians from the Abadan refinery this week—as the Iranian government had demanded—declared Iran is creating a situation which might threaten the peace.

# Students May Register Cars at Old Main

Students' cars which have not yet been registered with the department of physical plant may be listed in the office in 318 Old Main.

Most student cars have been registered with the department, according to Walter Wiegand, director. A survey of the number of faculty and staff members' cars is now being made.

The survey was undertaken to determine the number of parking places needed on campus. Many of the forms which were distributed during registration were filled out inaccurately. This survey will permit students to give the department the correct number of cars.
