(Continued from page one)  
 professor of anthropology at Harvard University, told the seminar yesterday that "so long as we practice discrimination in this country, we are handing over to the Russians the most effective kind of propaganda weapon they can use and are using throughout the world."

Dr. Kluckhorn said that with the world looking to us for leadership, there is a need for someone to develop a "package" that would state in easily understood terms the principles upon which we stand.

**Seminar Closes Tonight**  
 He also said he felt labor organizations should undertake some long range research on the matter of human relations, possibly within their own organizations.

The seminar closed at the Nittany Lion Inn with a summary of the four-day program by union leaders.

Madame Vijaya Lakshmi Pandit, United States ambassador from India who was to speak at tonight's dinner, was forced to cancel her engagement due to illness.

 sponsored poll, they said, because they believe students will be more willing to give the required information to a student group.

An amendment to the All-College Constitution which would legalize the current representation on Tribunal will receive its second reading at tonight's meeting.

Amendments require three consecutive readings before a vote can be taken.

The amendment sets Tribunal membership at five seniors, three juniors, and one sophomore. Tribunal at present is composed of five seniors, one more than the constitutional limit, and two juniors.

A two-thirds vote will be required to pass the amendment after the third reading next week.

Cabinet will also hear a report from All-College President James Worth concerning the fall football half holiday. Cabinet recommended to the College at its Sept. 27 meeting that the football half holiday be approved for the Monday morning following the Pitt-Penn State football game.

The Council of Administration of the College had suggested the football holiday be taken on the Saturday morning of the Villanova game, but cabinet did not concur.

 dents read data from the teletype machines giving weather conditions all over North America. They then plot the data on surface maps, analyze them and make forecasts.

Flags are run up on the roof of Mineral Industries telling the forecast for the following day.

So if a "clear" flag is put up and it's pouring down rain, the report is for tomorrow's weather.

## RR to Continue Lewistown Run

The Pennsylvania Railroad's west-bound train, stopping at Lewistown at 11:50 a.m. daily, will continue to serve this area.

College officials and the State College Commerce Club protested the proposed schedule change which would have moved one of the two west-bound morning trains off the Lewistown stop.

State College buses meet the 11:50 west-bound and the 12:18 p.m. east-bound morning trains at Lewistown. If the proposed change had gone through, students could not have met the 11:50, but instead would have had to meet the earlier 9:25 a.m. train in some way other than bus.
