

Draft Test --

(Continued from page one)
Hershey said, are urged to apply for the Dec. 13 examination, so they will have scores in their files when the local boards reconsider their cases in January.

The criteria for deferment as a student is either a satisfactory score of at least 70 on the test or satisfactory rank in his class, upper half of the freshman class, upper two-thirds of the sophomore class, and upper three-fourths of the junior class. Seniors accepted for admission to a graduate school satisfy the criteria if they stand in the upper half of their classes, or make a score of 75 or better on the test, the announcement stated. All deferments, however, are at local board discretion.

The registrants must personally obtain the blanks from the Centre County board, which is open from 6 a.m. to 12 noon, and 1 to 5 p.m. Monday through Friday.

All students who have not filed form 109, which states the scholastic standing of the student, should submit the blank to assistant registrar A. W. Stewart, 4 Willard Hall for completion.

Since the classification of students by their local boards is influenced by the test scores, those who have been notified by their respective boards of their 1-A classification, should call the boards' attention to this fact. They should be considered for a class 2-AS ranking according to their class standing scores or those of the test.

All students who are required to register for Selective Service may do so by seeing Mrs. A. W. Case in the Dean of Men's office, 109 Old Main.

Chest Drive --

(continued from page two)
to this fund through the chest drive, students are contributing to a memorial to Leo Houck, former Penn State boxing coach who died of cancer two years ago.

Also receiving six per cent of chest funds will be the March of Dimes, originated by Franklin D. Roosevelt.

Income secured in the drive for the March of Dimes will go into the national fund to combat infantile paralysis in this country.

The Salvation Army will also receive six per cent of the chest drive income.

Money received by the Salvation Army will be sent to Scranton for distribution to needy areas, while 20 per cent of the income will be used locally.

With money secured in the drive, the Salvation Army will carry on its program of providing clothing and dental care to underprivileged children. A portion of the money will be used by the organization in other countries, including American forces in Korea.

These five national organizations will consume a total of 36 per cent of Campus Chest income this year. Students contributing to the Chest drive will be furthering the work of these groups. William Klisanin, drive chairman, has urged full student support for these groups, and the four campus organizations, through the current chest drive. The Campus Chest contribution goal is \$12,000.

Ag Party --

(Continued from page one)
rural sociology extension, will be song leader for the evening, and George Ceiga, assistant professor of music, will provide organ music during the dining period from 5:15 to 7 p.m.

Joseph Corrado and his orchestra will provide music for round and square dancing from 9:30 to 10:30 and 11 to 12 p.m.

President Milton S. Eisenhower will be introduced at the party by Dean Lyman E. Jackson of the Agriculture School.

- The program:
- 5:15-7—Dinner
 - 7-7:15—Group singing
 - 7:15-8:15—Games

 - 9-9:30—Quartet singing and skits
 - 9:30-10:30—Dancing
 - 10:30-11—Skits
 - 11-12—Dancing

Matric Card Request

A large number of new students have not picked up matriculation cards, according to C. O. Williams, registrar. He requested that these students do so as soon as possible. Williams said that if the cards are not claimed before the end of the semester, a fee of \$1, the same as that for a duplicate matriculation card, will be charged.

5 College Attaches Will Run Tuesday For Town Council

Five persons attached to the College and the wife of a professor are among the eight candidates on the ballots for borough council in Tuesday's election.

John S. Leister, professor of civil engineering, M. Nelson McGeary, professor of political science, Robert P. Breon, engineering school, and Mrs. Gladys Tanner, wife of Sheldon Tanner, professor of economics and business law, are the four candidates on the Republican ballot for council.

Paul W. Bixby, associate professor of elementary education, and Robert H. James, utility engineer at the College power plant, are on the Democratic ballot. Arthur Lukens and P. H. Gentzel are the other Democratic candidates.

Julius E. Kaulfuss, professor of highway engineering, is a nominee for county prothonotary.

William S. Dye Jr., professor emeritus of English Literature, is a candidate for the six year term as school director.

First Snow --

(Continued from page one)
only dropped one degree below freezing at its coldest point, climbing quickly to a humid 37 degrees at noon.

Incidentally, there is a very good chance that our own peculiar Penn State snow contained somebody else's peculiar radioactivity. Associated Press reports indicate that the snow which fell in New York state yesterday contained "measurable—but not dangerous—amounts of radioactivity."

The press dispatch goes on to say that the phenomenon is apparently caused by the recent atomic blasts at the AEC test ground in Nevada.

At Penn State, the radioactivity is not measured, according to C. L. Hosler, meteorologist in the College weather bureau. "There is a certain amount of radioactivity in any snow," he said, "and there was probably more in this snow due to the atom blasts."

The winds which blow over State College at high altitudes, where the snow is formed, generally come directly from the southwest, Hosler said explaining the radioactivity.

So we get radioactive snow. But maybe that's just a sign of the times. All our radio and newspaper reports are radioactive, so the snow should be also, perhaps. Even the cold weather modernized itself for its visit here.

Students are advised to keep warm coats handy, however, even if a geiger counter is not necessary. More cloudy weather and light snows are predicted for today.

Officials --

(Continued from page one)
drive next Saturday. It has a \$12,000 goal. Last year's \$14,000 goal fell short by about \$3500.

The nine groups that will benefit from the drive and the percentage of income they will receive are: Penn State Christian Association, 46 per cent; World Student Service Fund, 12 per cent; Scholarship program, eight per cent; Heart Fund, March of Dimes, Salvation Army, and Leo Houck Cancer Fund, six per cent each; State College Community Fund, one per cent. Three per cent of the income will be used for operating expenses.

Atomic Maneuver

LAS VEGAS, Nev., Nov. 2—(P)—Still somewhat shaken but visibly proud of their part in history's first atomic maneuver, eleven GI's of an advanced combat team in exercise Desert Rock agreed today they "never saw or felt anything like it" in their soldiering careers.

Blood Goal --

(Continued from page one)
112 Old Main. Each fraternity has a representative.

Students will be informed as to the time of their donation. They will be given a physical examination before donating and will be excused from all remaining classes that day.

Rehburg reminded students of the 5 p.m. deadline on Thursday. He also reminded students between 18 and 21 that parents' releases must accompany their pledges. He asked those students to turn in both the release and pledge at the same time.

1st Folk Dance Lesson Will Be Given Tonight

The first in a series of three folk dance lessons will be held tonight in the Episcopal parish house.

In addition to instruction, the course will feature demonstra-

tion dances by the Eidelweiss Schuplatler folk dancing group.

Series tickets for the three sessions, also scheduled for Nov. 17 and Dec. 1, are priced at \$2, while

admission tickets for one session may be purchased for 90 cents.

The course is being given as a benefit for Vyts F. Bellajus, nationally-known folk dance leader.

	WAITRESSES WANTED. Apply in person. The Nittany Dell, 322 E. College Avenue.

Campus Interviews on Cigarette Tests

No. 27...THE LYNX

This sporty student really teed off on a long tirade when he found himself stymied on the "single puff" and "one sniff" cigarette tests. "They're strictly for the birdies!" said he. He realized that cigarette mildness requires more deliberation than a cursory inhale or exhale. Millions of smokers concur — there's only one true test of mildness and flavor in a cigarette.

It's the sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests...

Camel leads all other brands by billions
